

Timothy Behrsin is an Apostle of Jesus Christ, our Saviour.

He has journeyed through the world spreading Peace, Hope and Love given to him to share with others on the roads he's been on.

He invites you to join him, in praying to God, in your thoughts, where He talks to you.

In this work, we uncover the stupidity of the Mental Health Act and similar laws across Europe and the USA.

People are Suffering in detention in Mental Health Institutions, hearing Words from Jesus Christ in their Thoughts and being told by atheist psychiatrists that they are delusional.

The hospitals themselves are unjust to all they treat, let alone the aspect of delusionality.

The Mental Health Act is used in a way which is in direct contravention to established Human Rights Law internationally, and indeed the Human Rights Act and related laws across Europe and the USA.

This is an international crisis, and needs attention.

The law must be changed.
Change the law today.

In fact, don't even read it.
It's for people like the Police.

Rip up all copies, as soon as the Mental Health Act is destroyed.

I really dislike these Sins, and as you see from the front cover, it's very much about the Sins of my dear home, England.

Not a work I want to be attributed to anyone.

Again, don't read it.

For the Police

Sat 16th July 2022 10:31:00 pm GMT+01:00 Sale Moor, UK Timothy

https://wisdom-and-love.org/diary/2022/07/16/for-the-police/

This is a note, written in my diary, for those in the Greater Manchester Police who will speak to me, I hope, next week.

This isn't recorded for any particular purpose, other than to remind me of what is in the Law.

All things that you will read in the link I've shown, of which this post has been pinned to the top, are true.

Not one of them I would like to be followed up against my family.

I do though, need peace, and that which I reported to you, needs to stop.

If the only way, is to investigate, what I claim are crimes in the posts below, with consideration of my family's actions in giving false information to the Police and those services mentioned in those posts, then I fully expect that will cause them some disquiet.

I do not want that, but if it needs to be investigated, I do hope they understand the purpose of the investigations, at least from my side, is not to harm them in anyway.

As I said, the Mental Health Service or NHS, I'm really not sure which nor how far this has been taken by her already, have been given information, by my sister, in such a way, which it was vindictive and not true.

She had no evidence for what she said, than private messages which contained some swear words.

I told you, on the phone that this was an isolated incident that wasn't urgent in nature.

I also told you, I had been referred to you by the Manchester Crisis

Team, as they told me what I described to them was a matter for the Police.

I also told you, this kind of harassment, which I wouldn't like to call it, has been ongoing for over 10 years.

Please take these things into consideration before taking any action.

I fully expect this would be done anyway, as you told me, nothing would be done without my consent.

This is for when we talk, hopefully next week:

> Section 9, Human Rights Act:
>
> Freedom of thought, conscience and religion
>
> Everyone has the right to freedom of thought, conscience and religion; this right includes freedom to change his religion or belief and freedom, either alone or in community with others and in public or private, to manifest his religion or belief, in worship, teaching, practice and observance.
>
> Freedom to manifest one's religion or beliefs shall be subject only to such limitations as are prescribed by law and are necessary in a democratic society in the interests of public safety, for the protection of public order, health or morals, or for the protection of the rights and freedoms of others.

This will be further explained in the following posts, though I do know it was the ECHR used as a basis, as these were written in 2019, and the European Convention on Human Rights was referred to for obvious reasons that don't need to be explained.

They are though, I believe, pretty much the same, as you would expect.

All names of individuals have been obscured from my diary with

numbers, which I have a record of, should you need to see their names. And I do not expect you to follow up in any case, urgently. Nor would I like any individual to actually have any action taken against them whatsoever.

It is simply the case, that I want to be left alone to write.

Those two individuals, are mentioned, because I believe, as I wrote in 2019, that they have committed crimes against me.

One of those crimes, was GBH while in detention in Hammersmith in 2017, committed by not only the first person in that list above, but a group of four men who were party to the abuse.

He was known to me, as that man, but I could be wrong, as I was told he wasn't even on duty that day by one of those four men, because as that man said, he wasn't wearing the suit that he had in the photo on the wall, but a bright blue tracksuit that I vividly remember.

This was a crime, which I reported at the time both to the doctors in St Charles and the Police, and it was never followed up.

What is also here in my diary is a scan of the complaint I made to Greater London Police, which was never appealed, because I was detained and had no means to do so within the time frame I was allowed.

What is there is a claim by a Police Officer that I said to him, the Police Officer who issued a Section 136, that I was the Son of God.

If you read the rest of my diary, you would clearly see that I would never say such a thing.

And indeed, those never words have never left my mouth in my entire life. I would be ashamed for even thinking of doing so.

If I said anything which may have sounded like that to someone who wasn't use to this kind of language, which I vaguely remember doing, but cannot be certain, it would be Servant of God. That is, all of us are

Servants of God.

And it is, I am too.

You may consider, as reading through all my work in my diary, that I am deluded.

That is fine.

What is not fine, is to take away my liberty in thinking so.

The Human Rights Act, protects me, in this regard, and for good reason.

This has been reported to Greater Manchester Police before, and I was lied to by the officer who attended, saying that all my Human Rights had been removed by the Section I was placed under.

I do hope this is not the case, as if it were, then for example, E001, if that's who it was of course, would not have broken the law by almost breaking my wrist.

It would be absurd to me if this were true.

I am under no kind of Section right now. And therefore, my rights, clearly haven't been taken from me yet.

It is absurd, that Human Rights could be taken away.

If it is the case, all laws, are basically able to change any given right enshrined in the Human Rights Act.
Which clearly they don't.
And nor does the Mental Health Act.

Please understand, this is not a simple case, and will need full investigation into everything recorded here in my diary.

Should you need further verification of my medical files, for example, do know what I've said in following posts, they're full of slander about what I've done while in detention. And everything I've done to try to

correct them, has resulted in me being accused of mental illness.

This time is quite upsetting for me.

As you said on the phone, it sounded no more than a civil matter.
There was no urgency.
I sounded 'reasonable' the Officer said on the phone.

If these things are not true, and I am found to have broken the law, by for example listing someones name here and in the few posts in my diary were they are mentioned a couple of times, then I admit I have broken the law.

Do understand though, the position I was put in at the time I recorded those things:

Those crimes were committed.
I witnessed them.
Not a single member of the Police force were willing to take evidence at the time.

Therefore they were left here,
for later,
at such a time,
as I was able to report them,
with my Human Rights 'given back' to me.

This post is listed on the main page of my diary, as I'm fully aware some members of the Church are verifying my work, and indeed verifying whether they themselves consider this work as the Work of God or just a man writing what is in his beliefs.

They do know they have heard from God regarding this work.

It is impossible for this to be any other way.

That would not be understood until I show you the evidence I have for this. Here is a glimpse of why I believe this is the case:

I sent a letter, containing some writings I had been asked by God to

send to Pope Emeritus Benedict. These are Call of the Apostle and Nature of Man, which you can find in my diary.

In this letter, which is publicly available on this site, I showed him the image that he received in a vision 4 days prior to him receiving that letter.

I cannot verify that right now, but Jesus told me that on the 1st June, a few weeks after I sent the letter, that I would receive a response from Pope Emeritus. Indeed I see the two works which I sent to Pope Emeritus, active in the analytics for my site on that date.

I can only assume therefore, that the few people in Manchester reading my diary right now, are indeed the people asked by someone unknown to me in the Church to read what I produce from then on.

Those things on the 1st June were a very large spike on some of my diary, and was not only abnormal, but had never been seen before.

And it won't be seen for the forthcoming future.

These things can be verified easily by the Police, they can just look at the logs, and see who owns the IP addresses.

I know you won't bother doing that, and it's probably not legal to do so, and in any case this is not even important to the investigation of this case.

They are though the foundations of my family's argumentative, and abusive behavior over the last 10 years.

They have believed that I should be hospitalised, because of what I write, that I'm deluded for doing so, and for my protection they have said, they have asked for the Mental Health Services to detain me.

It didn't protect me in any way.

Nor did I need protection.

This is what they've been threatening right now, in an increasingly

angry manner, realising I'm peaceful, and have no means to do so.

It is though, that the Mental Health Services, have believed that they can do anything to anyone who believes they hear from God.

This is clearly quite hurtful, to anyone who is believes they are called to a vocation in the Church.

It is the case, I have sworn at my parents, and my sister, in the last 9 days.

It is not the case as they've claimed, that I'm not peaceful doing so. It is also not repeated, on more than 3 occasions, and lasted no more than 30 seconds each time. It is also the case that this was given, in response to anger and swear words, and threats to my freedom from those involved.

It does need to be understood, that I do believe this is nothing more than a family argument, however the way this has been resolved by my family in the past is to instruct people with slanderous allegations, which they may believe due to what I believe, that I am mentally ill.

But this is not the law for any government organisation, to take away my liberty for it.

You will see when I speak to you, I am not mentally ill.

That is not what Mental Health teams would say.

The reason is, I hear from God.

That for them, is enough to commit me, for life.

It is though the case, that I was released from the most recent Section, and indeed all Sections, also with them knowing they had tried every medication, and was still hearing from God.

They broke the law, specifically the Human Rights Act, Section 9.

If they like, they can call me deluded.

But this is a free society, and not Iran.

A summary for the Police of what I need

Sun 17th July 2022 2:22:22 am GMT+01:00 Sale Moor, UK Timothy

https://wisdom-and-love.org/diary/2022/07/17/a-summary-of-what-i-need-to-happen-right-now/

I know I gave you the above post to read before we meet tomorrow.

I don't believe, right now, that you'll have the time to read it.

I hope that's not the case.

What I need though, is for you to read all of these posts in this category.

Please do so and investigate the full crime that has been committed against me, and as you'll see below, that is not the full investigation needed.

Of particular note, these parties are involved in the crime:

- the NHS, of particular note, but not limited to, those organisations in Greater Manchester and Greater London falling under the Mental Health Act
- the British Police, of particular interest are those in Greater Manchester Police and Kensington and Chelsea
- the UK Government

There was also an incident involving the UK Embassy while I was investigated by the Italian Polizia on behalf of C001.
I have no evidence for malpractice, or crime in the British Embassy,
but instead believe they acted with integrity and in my best interests,
this may not be completely the case though,
given their involvement and what I witnessed in the Police Station in Rome,
and I do ask you to pull out their files regarding that time.

There is though a bigger crime, which I discuss, as I said.

That is, all of the Mental Health System, and that is the doctors, nurses and all practitioners working within the Mental Health Act appear to be breaking the law.

As you will find in what I've written, these laws are of particular interest to Christians and Roman Catholics finding themselves in similar situations to I.

That is, having beliefs, which seem strange to atheist, Hindu and Muslim doctors, which seem to be the vast majority of doctors I have come into contact with, barring one doctor in St Charles, who read only what was written by the others.

Those beliefs, which indeed all Christians have, are protected, and that protection is enshrined in law.

That law is the Human Rights Act.

The belief particularly problematic to the Mental Health System, is that God talks to people.

Muslims don't believe this. Nor do atheists.

This is clearly a problem when dealing with what they describe, often for patients, as religious delusions.

That particular diagnosis, was I had, every time.

I reported this to Stretford Police in 2019, and I was told I had no rights.
That is, the Human Rights Act was null and void.

Please action this request to investigate, finally, after 40 years of the Mental Health Act, multiple complaints and crime reports you, the British Police, have received from many people of all faiths, before I sue you.

That lawsuit, is not a threat.

It is in fact, a Promise.

It won't be known to me when it happens, but it will.
As soon as it is available for me to do so, and clearly it hasn't been yet, I do expect to hire many lawyers and take this straight to the available Courts in London.

If you would like to ask those colleagues of yours, including the Chief Inspector of Greater Manchester Police, who sent nothing but a glib reply while I was suffering for your force's lack of action in 2019, and complete ignorance, it seemed, of the law, then please ask them for more information about what they believed happened.

I expect they will say, I was mentally ill,
a doctor was treating me,
and they were told to ignore a mentally ill patient reporting a crime.

Please do act on this, as it's rather important to your constituent.

It is in fact, I have not *reported* a crime against those people who did these things,
they were probably doing what was common practice for 40 years.
It is though illegal.
And if you think about it properly, you'll see it should be too.

I would like to stress, that your reply, which I do require in writing, will be recorded in the same way all things are recorded in my diary.

I trust you will act with the integrity expected of the British Police, and the values it is expected to uphold.

One more thing

Tara Copthorne Hotel, Kensington, UK  Tim

https://wisdom-and-love.org/diary/2022/08/11/one-more-thing/

Jesus, is all I've heard true about this real lawyer, not you, not Kate but a lawyer was arranged by the Vatican over the last few months to protect this Holy Miracle from prying eyes, to basically confuse me?

"It is True a real physical human law firm was arranged by the Vatican in June.
It is True a lawyer sent a letter to the CMHT and WRMC and issued a legal notice to sign over rights to your wife, based on signature from you, and signature from her.
The lawyer also stipulated that you would not know this was happening,
but you would know from God that something was happening,
and Kate is your wife,
by something they knew to call 'Act of God'."

"They are also considering how to go about the class action based on the evidence of this Holy Miracle,
and it is the evidence you have collected,
and the Written Statements I have made,
in your Sins of Olde England book."

"This is not to jeopardise your family, but instead to change the law, internationally."

"Compensation must be paid for cruel laws existing over 400 years."

"It is though, no compensation, is really able to be justified currently for an Act of God."

"This though is complete nonsense, the entire world exists through an Act of God."

"Even a motor accident caused in Emeryville in 2011 was an Act of

God."

"Everything is an Act of God."

What is True also, is you seem to be saying all this has been prepared over many months, and it is indeed since the Beginning as all things are, but you seem to say, I've basically been duped and have been suffering because people have been collecting evidence of a mental illness from certain members of the F0s.

I do understand that I would never do what they think I would do.

But I also understand you're telling me they are starting to Doubt, they're wondering if Kate might be my wife, because I seem to have gone and their seems to be peace by 9pm as I said, and I do also know you said they had written to Kate.

"This is True.
They wrote to Kate what I said."

And Kate didn't respond?

"That's right, she's not allowed to."

"She is in fact a holy person, hearing from Me."

Ah, so this would explain to them why they haven't received a response.

"Your sister wrote to her on Monday after trying to phone the WRMC and finding she was told 'We're not allowed to discuss Timothy with you.'"

And then she wrote to Kate?

"That was within the same hour."

Hmm.

So, are they starting to believe this?

"They are starting to wonder, what is going on."

I see.

Do they realise what I told them, that I love them?

"They are starting to wonder, if Kate is really your wife."

Do they think she might have planned this?
A kind of Christian,
not hearing from God,
but also not 'mentally ill',
a kind of 'golddigger'?

"They are not really thinking those things anymore."

Hmm.

What are they thinking, Lord?

"Not much at all really, they have Peace."

Hmm.

Are they sorry?

"No."

Hmm.

Will they feel the shame you spoke of?

"Yes."

When will that be?

"Well there's something you also know we spoke of, they have some thoughts which question in their mind whether even you are mentally ill."

"You know your father has had these for a few years."

Hmm.

Does he know really he's just angry at what has happened to him from you?

"I do know, he is basically trying to protect your mother, and giving her peace."

Hmm.

I'm sorry, Mum.
I didn't understand me being an Apostle caused you lack of Peace.

"Well it's not that really, it's more that she realises you've sworn at her from God."

Hmm...

What do I do, Lord?

"Well those swear words that you said, those three words in Italy, were in fact known to her from earlier in her life. Not from her, but from someone she knew."

Really?

Who?

"A man named Jon."

My uncle?

"Well it would be your uncle, but that may be seen as slander."

Oh, it must not be my uncle then.

Why would a person say that to a beautiful woman who was my mother at the time?

"Well she was a little chubby when she was younger."

Was she?

I never saw that.

"Well she was a little chubby."

Hmm.

But, really?

"It is the case that those words you used, you knew at the time, were to remind her, that you were not this person who swears."

Well I do know that from my past.

I certainly never really swore unless I was very very angry at someone, or indeed, I was just messing around with my friends at Uni.

"It is the case swear words are from God."

"It is also the case they are in the dictionary."

"A swear word can be said in anger,
in love,
and indeed in simple expressions everyone says, like 'fucking hell.'"

"It is the case that in the English language particularly, that particular word is understood by your generation as a colloquial expression, but by an older generation as a gravely sinful word."

"It is though the changing of the times."

"This can be seen in words like 'darn', 'damn' and other things like that."

"You see this in public use all over the internet, on the radio, on TV and everywhere."

"You were said to be saying swear words, and you were told to be mentally ill by Dr Clarke."

"This was in fact, because she wanted to medicate you again."

Is this True, Lord?

"Well, is it slander to write words of Truth from God?"

I don't know, Lord?

"I do know, we have proven these words, all of them must be from God."

"I do know, My Words, are said."

"I also Know, all words you have said are from Me."

"This is True in your entire life."

"There is some writing that you stole a penny sweet when you were 9 years old, and around buying some chips."

"Neither of these did you lie in in fact."

"It is the case that, your use of words, have been misunderstood by some people, but you have never lied."

Is this True, Lord?

"It is True."

Is this Wholly True, Lord?

"It is Entirely, Wholly Absolutely True."

"I do create people, who do lie."

"Your mother, is with a knowledge she does not like lying."

"It is though, your mother stops speaking when she realises she's going to have to lie."

"You are your mother in this respect."

"Your mother though has said some lies in the past."

"You have said no lie in your entire life."

Is this True, Lord?

"Yes."

Really?

Ever?

"Well there was one lie, that you made a prayer to ask God if something was True."

"You said, it is to live by."

"It is in fact, not just to live by for My Apostle, but really understand, how not to suffer this kind of thing ever again."

I see.

Is this True of Kate too?

"It is True, and Kate can ask me, and go through in her life where she felt guilty for being accused of lying. She has also never lied in her entire life."

"What she has said, was 'I think'."

"This is not a lie to think something that you may want."

"And you know, you interpreted that, as what she wanted."

Did she want that?

"She didn't want you to think it was always going to be just professional."

Oh, Kate, you are beautiful person, so sweet and caring.

I'm sorry.

"It is true though, she didn't want to say those things."

"She was given them to say by others."

"Her thoughts were changed, by indeed Me, based on what others had told her to say."

Did she think them, Lord?

"She writes in Truth, she thought them after consideration of what was said for her to say."

I see.

So she is a very holy woman, for not lying, ever in her life?

"That is the case."

I smile.
Knowing she's my wife.

What a wonderful woman.

I love you, Kate.

"The things is though, we have an issue of slander to deal with."

"It is in fact all these words are transcribed into digital print from what is spoken to you."

"That is not in fact slander they would say but libel."

"What is the difference exactly?"

"Is it not slanderous to write words in ones medical files?"

"This needs to be addressed, no longer in the family, no longer with those team members in those teams, but indeed in the law."

I see.

I understand now, why I've requested a meeting with the Conservative MP in Kensington.

Thank You, Jesus.

Jesus, what did they write to Kate, my father and my sister?

"Joanna said at first on Monday to Kate, something of the order of, 'are you really knowing what is happening here? Tim is pining for you and really seems to be mentally ill, but I do seem not to be able to talk to his doctor. It seems to be that you have legal rights over him somehow. Please can you let me know if anything is untoward in what Timothy is doing to you?'"

"Your father wrote words of the effect on Wednesday when he threatened to phone the safeguarding team and realised you were peaceful and he had no case to Kate: 'Mr Prihogyko, I understand my daughter has emailed you a couple of days ago. I also am seeing my son really believe he's married to you by what he calls an Act of God. Please could you ask your friend to help me.'"

Jesus, was that said? Friend to help him?

"Well not entirely, words were written which I did not write."

Which words?

"Well this is really going to seem rather special to you, but this was written after by your mother in reply, not even in her thoughts but by email: 'Kate, I really don't know what's happening, but Tim really does seem to love you very much. I do hope this is true. But it seems to incredible to believe. Kate, if you need help in any way, we would gladly provide you assistance with the evidence we've collected over the last few years. He really does seem to be mentally ill, but he also seems to have transferred his legal rights to you and your father. We really do not understand what's going on.'"

"Kate, is hearing from God.
Kate is hearing from Tim through God.
God has married Tim to Kate, through His Word.
God has married Kate to Tim, through His Word.
God has married Kate and Tim, for all Eternity. It is I am God."

"God is I."

I am not God. God is not I.

God is in I. God is in Kate. God is in All Things. God is especially, in, Kate and I.

On Friday morning when I spent a few hours talking with God, I was told Kate rose from her slumber.

I was told by God, "Tim, would you like to marry Kate right now."

I really understood, that I really did want her as my wife.

"Kate, would you like to marry Tim right now."

"She really did believe Tim was saying he wanted to marry her."

"Kate and Tim are consensually married."

"With no contact with each other for 3 months."

"Only Kate has received contact, by email and a few words by social media invites."

"Kate's heart has changed on the Way to Me."

"Tim's heart has also changed on the Way to Me."

"This is Life is indeed a Prophecy of their Life."

"There are many other Prophecies of their Life,
even some in the Holy Bible."

"Your brother, your sister-in-law, and your daughter-in-law, and indeed your son too, are not mentally ill."

"I am the Lord God."

"I have made you do those things."

"Forgive me, for doing My Holy Will."

Jesus, is this going to be understood by them?

"Well, they're going to piece together evidence over the coming days, and realise this must be true."

"The thing is, why don't they just pray that prayer: 'is it True?'"

"It's there somewhere in your diary."

I do believe it's there, but, did I just say this to them, not publish it in my main diary?

I know I sent it to many people though...

"Well you don't know."

"You have no desire to look."

"And even if you did, unless you have the desire to pray, indeed given by Me, you're not going to pray that prayer."

"And you even proved this to your mother yesterday,
showing her,
that you would ask the question 3 times,
and on the third response,
she said it."

"Everyone Serves My Will."

Believe!

"So, if you decide everything in the world is an Act of God, and therefore release every prisoner, claim no harm to anyone."

"Understand, I haven't said to introduce the law for no reason."

"It was to bring about My Coming."

"My Coming indeed starts with My Ascension.

Starting with My Covenant.
Starting with My Beginning."

"If you see, that everything in the world is My Fault."

"Well, that's the point of My Apostle in what He has said all along.
'It is to be.'"

"If you don't give him and his wife compensation for the harm that the entire mental health system, the justice system, the police force, and indeed those individuals who need to be imprisoned, taken out of their jobs, and disbarred from practice, then you don't understand the Nature of God. That would in fact be Religious Discrimnation, and indeed Persecution."

"Did those like Nelson Mandela suffer in prison for doing what was right?"

"He did, and He received Holy Words from Me, to change the world."

"Those people who pray to Me are considered the First."

"Those people who do not get what they want in Heaven, are the Last."

"Those people who cause suffering, are the first."

"Those people will be the Last."

"This needs to be understood, in Timothy's whole diary.
I have made him a Martyr, not just of Love in the last 5 months.
Timothy understands she her herself has suffered with him,
for over 10 years."

"Kate understands this too."

"They have no knowledge of each others understanding of this, except by an Act of God."

"So if an Act of God causes them suffering, who should pay compensation Timothy?"

Jesus, Kate is reward for any suffering I bear for Eternity.

Just her name in my life,
just her friendship,
and her beauty known to me.

Jesus, give me no reward,
but a life with her,
that you Promise your servant.

"And it is so, that these words are written in Whole Truth."

"Timothy Knows these words are TRUE."

"If Timothy was to write, silly things, then they would not be True."

"Not even any ranting on Facebook, of any other platform ever is not True."

"Timothy told you, F001, that he was thinking, and he did say, he did not know why he was thinking, that he was called to be Lord of the Living one day, basically in the Apocalypse. While he was saying this to you, he has a Holy Vision from me of the earth poured out with Fire. That Fire is indeed understood to him even in those days. He was a Knight in that Vision."

"He said, in the same sentence, that I am Lord of All."

"It is Written in Revelations that My Congregation of Saints, Judge the Living and the Dead in My Will."

"This is Known to Timothy, that they just follow My Will."

"It's also Known that there is a Court."

"This Court is what is needed on Earth."

"Heaven is the Court: the Congregation of Saints."

"Ask, 'is this True?' across a democratic test, and you will find that 'it is True' if I say "It is True" to an exact, impossible to understand and God

given proportion of that jury."

"This Jury has to Pray."

"They must be selected, to Known to want to Pray."

"And I know who those jurors are."

"This is what I do, in the Vatican, in the election of a Pope."

"So, if you think, the removal of religion from all parts of Government is a good idea, you are a fucking moron."

"But I know it is Coming, that I will return, in My Holy Spirit to Judge the World."

And there it is Done, Lord.

Lord, this vision, Your Coming is Now!?

"Indeed it was Always Coming."

"You and Kate have the Apostleship to Bring it About."

Jesus, I have to ask something, this number, this proportion of the Quran you say is from the Bible, that you say Maria was told by Kate.

You it's 49.1% more or less.

And, Kate, Jesus tells me you're doubting this figure, not your knowledge of it or whether Jesus has told you, but indeed that Jesus is giving both of us Doubt in whether we'll put the same figure down on the records at the Vatican.

It is clearly not 49.1% exactly that even we both recorded it have put down, is it Lord?

"It is, exactly 49.1%"

Well that is astounding and a clear sign from God of John 49:1.

And that is Proof of Islam's fall.

You say that figure was given to her.

You also said to me just now at around 6am, that this figure was given knowing the rest was just from Arabic teachins of the day.

"These things happened with Mohammad,
he received a Holy Revelation from John,
by copying his words,
he changed them,
not every word was written down."

"These things also happened,
he desired fame,
glory,
and he was in partnership with those to bring it about."

I see we're in a bit of danger with safety Lord.

Is it True, the Vatican has arranged a security detail for our apartment?

"They have basically arranged the secret service to join you in Kensington from the 24th August."

"On that date, they are issuing an Apostolic Letter to many people."

"This will go to Parishes like your parents parish."

"They though are safe, because they will be safe through an Act of God."

"Your diary does not in fact give any personal details for where they are."

"You and Kate are Known to need Peace."

"You will have a security detail."

Hmm.

Lord, do my parents realise what I realise?

"Yes, they now are a bit concerned."

So they believe this by the time they read this?

"Well, why would they have any Prophecies about them?"

Yes, that is the safety issue.

"Mr Prihodko is aware of this, Kate is already created,
you are already created,
their mission is done,
and now they rest in retirement."

"You and Kate have Prophecied things about your lives.
Dates you will die for example.
This is of the Nature that people will do silly things."

"It is though you know Tim, Kate will not die before her 96th year."

Is it True I die in her 82nd year?

"It is True you will suffer death, not at all in her 82nd year.
You also know you have written those words.
Your death to Heaven is in your 142nd year."

That's not True Lord. It is Impossible.

"It is indeed Impossible, and you know it's not True. It is not True."

"Your Death is Prophecied already."

"It is indeed in her 82nd year, when she will be of the age of 81."

"In that death, you will be sitting at the foot of Christ, not as a cat, but as a Saint who will be with Kate, and with Kate in full Knowledge that these things are being revealed to her."

"Kate will not be lonely, she will have what she needs."

"She will also have me."

"She will have a few other Saints with her then."

"One is your Grandmother."

"There is another in her family too."

"Think a long lost relative, of the nature of your grandmother."

Hmm.

I wish knew more about Kate's family.

I do hope her mother and father welcome into their lives.

"They are actually going to take the piss out of you soon."

"Because these things they've known for quite a while."

Hmm.

Is that True?

"Well you know at least a week."

"Her grandmother and mother you know have been hoping for this."

"Did her father disbelieve Kate over the last couple of months in London?"

Well I am starting to believe that her father has supported her all the way through London.

"It is indeed the case, Mr Prihodko, and it is Volodymyr, is actually hearing from me using a prayer from you last Sunday."

"He is though a very holy man, himself."

This does seem True.

Hmm.

Mr Prihodko, I do hope I didn't say anything wrong.

You seemed actually very reasonable, as though you really already believed it.

Hmm.

It looks like you must have known that you suffered doubt.

Did he Lord?

"That Saturday, Kate witnessed a holy miracle."

"They did in fact say, basically, you called Me a thief."

"That was why they are going to make fun of you."

The English language is really quite easy to fool people with.

Is this True of all languages?

"It is."

"I am the Master of Deception with all My Apostles, Saints and Martyrs."

"The joke is on all humanity in fact, as you know all of this is just a simulation."

I love You, Lord.

Lord, is it True that Kate's parents, really understand that she may never have lied in her entire life, that she has always spoken in Truth?

"She doesn't know this yet."

"I'm going to show her this today."

"Her parents will actually just say one thing, 'is this True?'"

"They already realise, she actually is a really nice girl."

She is, Lord, I knew this then.

I in fact trusted her even then, to try and get her a way to read all my telegram.

I didn't know how to do it though, without telling her she was my wife.

"It is known to you that there were some problems with Marwan and Hamza trying to get you to sleep with a prostitute. She now knows what I told her was about."

"There's also a knowledge in you, you would never do such a thing."

"That woman that they brought into your room, you said, I will pay you $4000 a month to basically be my wife."

"That woman left knowing, this is not the life for her, and has given up prostitution."

"She realised, I actually want a man to be my husband, like Tim."

"She also realised you were not the man she wanted."

"No affair happened."

"Kate, Tim has been very concerned about a number of things regarding his sexual activity in the past. He has wanted me to reveal them to you, without any shame. And with really knowing that nothing happened than what was True in his mind at the time."

"This is then the final shame for you Tim, she knew them anyway."

"And this is known to you, I have told her, since the beginning of June."

"Anyone who is an Apostle, and is slandered in the way you are, in the modern age, is going to have a past, that they've basically been an Apostle all their lives."

"St Paul, Saul of Tarsus, Witnessed me, by Answered the Call, to Martyr St Stephen."

"What he did, was hear one word, 'Do it quickly.'"

"Judas is also in Heaven."

"He killed himself, not knowing what to do, after realising he'd killed God."

"He was told to do it quickly."

"He would have suffered the sins of all humanity had he not commited suicide."

"Judas, is in Heaven."

"I love him very much."

"The joke really of this is on you Tim."

"Because you're going to be known as the anti-Christ in Arabian teaching."

"And also Hollywood it seems."

Kate,

I was tired.

You seem to have prayed to God for me to wake up at midnight.

Hmm.

Why did you have this desire to wake me up?

Because you're my honey bun bee, and it is time to see you.

And I needed to finish off some gifts, and here they are.

🐝🥰

There's also an update on Spotify for you 😘

One more thing for you, Kate.

Please go to Father Woolley and ask him to collect something for you, just a photo.

Please ask him to go to Holy Family school and look at the essays from the children on the wall.

There is one there in the main hall, called Porcelain Girl, which I do know from God is still there.

I do believe it will say Timmy Behrsin on the author or maybe Timmy.

And this indeed Knowledge from God.

So, if this is all True, you're going to reunited with your 7 year old boyfriend.

I love you.

You can ask my mother, the figurine on the mantelplace I used as your image, to write this.

It was though, you weren't even born, so sorry for that.

Kate there is something Jesus tells me which I remember now.

I remember my sister saying I was called Timmy after the dog in the famous five, and they I am Timotheus at baptism.

And I do believe it was Timotheus Davidi Behrsini.

I remember a little crest Our Lord showed me in a vision in my sleep

a couple of nights ago.

It was a stallion, dark brown facing left, and a stallion white and pure facing right.

It was with two little pencils, like emoticons, and on the stallions head to the left was imprinted a draughts board, with the pencil drawing the draughts and moving them.

And on the stallion on the right was what looked like a social network graph, a bit like the grexie logo you knew at the time, the one that's kind of like a cube. I think you have a copy of that in the Vatican for some reason.

Hmm.

And Jesus also showed me on this crest, little faces, little people in black, kind of like profile icons, and behind them was

Introduction to the Mental Health Act

Proof of my Roman Catholic faith, not delusional in any way

https://wisdom-and-love.org/diary/2019/03/05/proof-of-my-roman-catholic-faith-not-delusional-in-any-way/

Father Giles wrote a witness statement for the HM Courts and Tribunals Service in January 2018. This was while I was out of St Charles Hospital at home under the planned incarceration of the Community Mental Health Team of South Trafford. C001 signed the CTO in Manchester with D000 signing the CTO from St Charles by FaceTime which I set up for them as they could not use any other means themselves. They did not know how to.

This letter from Father Giles proves my Roman Catholic Faith. It proves that the slanderous claims over 7 years by the NHS have no basis in fact and in any case are criminal.

They have broken the law, the European Convention on Human Rights protects any beliefs I want to have, and this letter proves they are in the mainstream Catholic Communion.

Timothy Behrsin

Dear Miss [redacted]

Thank you for contacting me to enquire as to my understanding of Timothy Behrsin's religious beliefs in the context of his detention and treatment under the Mental Health Act 1983 as amended by the 2007 Act.

Firstly, I should state that I have no medical or psychiatric training and so do not attempt to comment on Timothy's overall mental health. However, I am happy to comment on his religious beliefs and his expression of them.

I visited Timothy on six occasions between October 31st 2017 and December 5th 2017 during his detention in St Charles Hospital in my capacity as a hospital chaplain making regular visits to that unit.

On each occasion, I was struck by Timothy's devotion to and seriousness about the Catholic Faith. He was clear about his identity as a Roman Catholic, was keen whenever possible to receive Holy Communion, and was clearly well acquainted with common Catholic prayers and devotions and their place in the Catholic tradition. In this, his religious views and expression were very much in the mainstream of Catholic belief and practice.

Timothy has a palpable sense of God's closeness to him, and personal communication to him, which he expresses in a very personal and candid way, both verbally and in the recording of journal entries, some of which he shared with me.

Not all Catholics would feel comfortable expressing their experience of their faith so candidly, or indeed with the fact that others, such as Timothy, do feel called to express their faith in this way.

However, the Catholic Church accepts that 'throughout the ages, there have been so-called "private" revelations, some of which have been recognized by the authority of the Church' (*Catechism of the Catholic Church,* para.67*).* These private revelations are understood to help the recipient to live more fully according to the teachings of the Church in a particular place or time.

While I have not made a thorough examination of Timothy's journal entries, I believe it is reasonable to understand Timothy's sense of personal closeness to and communication with God as being consistent with the notion of private revelation as described by the *Catechism* and expressed in the spiritual traditions of the Catholic Church.

It might be of considerable benefit to Timothy if he were to be aided in future in his discernment of God's closeness to him and communication with him by a priest experienced as a Spiritual Director. Such a person might be found either with the assistance of the local Roman Catholic diocese or through one of the monastic communities which offer guided retreats and spiritual direction as part of their work.

Yours sincerely

[redacted]

Fr Giles [redacted]

This evidence was thrown out by the HM Courts and Tribunals Service, because they simply wanted to ignore my faith.

They have accused me there too of religious delusions, even when met with evidence by a Roman Catholic Priest.

Subject: Timothy Behrsin

Details: – If he gets moved to Manchester, will FTT be cancelled?

TA advised that FTT will go ahead in Manchester, if not discharged before.

– From what Timothy told me about his views and religious beliefs, they do not seem delusional to me.

In Catholic Church, a number of people expressed themselves in ways that TB did.

Delusional people or religious people in mental health setting think of end of the world, or demons or believe that they are God.

Fee Earner: TA

Tim is just very devout, unusually devout.

He is religious, God guides him but not in delusional kind of way of having God's voice in his head.

I have read his journal - diary entries - many people would write that. Very personal.

I can not say that Timothy does not have a mental illness, I am not qualified to say that.

However, from religious point of view, his views are shared. His way might be unusual but not unique.

I would be happy to attend the Tribunal if it takes place in London (not Manchester).

Further evidence was given but Rev. Barrie of Moorside Unit in 2017 refused to help me, he was afraid of interfering with Moorside Unit's treatment and losing his position as the Anglican Chaplain.

He prayed with me and I asked him to pray for The Holy Spirit to speak His Truth about me.

Our Lord told him I was to witness Our Lord.

Rev. Barrie, please pray with me again and witness this again in writing.

For the European Court of Human Rights: Timothy Behrsin vs the British Government

Tue 5th March 2019 11:52:01 pm GMT+00:00 Vacone, Italy  Timothy

https://wisdom-and-love.org/diary/2019/03/05/for-the-european-court-of-human-rights-timothy-behrsin-vs-the-british-government/

This is a case to be heard by the European Court of Human Rights. Not one statement in this document is untrue. Everything written has happened. A lot more has happened which were also violations of the European Convention on Human Rights. There are not enough pages to write about all of these violations.

As outlined in this case, there are several violations of the European Convention on Human Rights spanning a period of 7 years by the National Health Service in the member state of the United Kingdom against the victim, Mr Timothy Behrsin.

The individual case notes outline more violations in British law and its Mental Health Act 1983 and 2007 and its unenforceable under European Human Rights legislation, Mental Health Units (Use of force) Act 2018. The laws themselves are in violation of the European Convention on Human Rights and further cases need to be heard to bring justice to those who are suffering in British hospitals under British mental health legislation dating back decades. This case hears only the violation of the Claimant's rights under European Law.

The British Government have and still do violate Articles 3, 5, 8, 9, 10, 13, 14, 17, 18, Protocol No. 1 (§ 1, 3), Protocol No. 4 (§ 1, 2), Protocol No. 7 (§ 2, 3, 4), Protocol No. 12 (§ 1, 2, 6, 7) of the European Convention of Human Rights. Each of these Articles has been violated in this case against the British Government.

Violation of Article 10 – Freedom of expression

This Article of the European Convention on Human Rights gives nationals of Europe the freedom to express themselves in the way they choose, save for violations of other people's freedoms.

The mental health legislation of member states particularly, as evidenced in this case those of the United Kingdom, violate this right when people are judged on the basis of what they write and say for the purposes of mental capacity assessments and further forced treatment.

People of Europe must be free to express their understanding and beliefs of the world around them, regardless of whether a mental health practitioner believes in the credibility of their statements or not.

This case does not seek to prove the true validity of the statements made by the Claimant, but instead falls upon common sense human rights as given to us by the European Convention on Human Rights. Particular significance are those of the Claimant's statements given that they relate to supernatural occurrence and are taken to be in a particular branch of Christianity – Roman Catholicism – the Claimant's faith.

> 1. Everyone has the right to freedom of expression. This right shall include freedom to hold opinions and to receive and impart information and ideas without interference by public authority and regardless of frontiers. This Article shall not prevent States from requiring the licensing of broadcasting, television or cinema enterprises.

A public authority is not necessitated to be the police force or state government but would include those with powers to confine people and restrict those freedoms granted under the European Convention on Human Rights, such as powers given to mental health systems across Europe, specifically in this case those of the NHS in the UK.

> 2. The exercise of these freedoms, since it carries with

> it duties and responsibilities, may be subject to such formalities, conditions, restrictions or penalties as are prescribed by law and are necessary in a democratic society, in the interests of national security, territorial integrity or public safety, for the prevention of disorder or crime, for the protection of health or morals, for the protection of the reputation or rights of others, for preventing the disclosure of information received in confidence, or for maintaining the authority and impartiality of the judiciary.

It is very much the fact that there was no issue regarding the protection of personal or public health in the case of the Claimant's detentions under the mental health laws of the United Kingdom. It was in each instance the decision of the mental health workers and the police to limit the freedoms of the individual concerned due to what was being spoken and written by the Claimant. They did not believe the Claimant was telling them the truth. They did not need to believe him. Instead they need to uphold his rights and freedoms before their own archaic legal framework.

They did not believe what he believed and assumed that his beliefs were too improbable and thus must warrant detention and treatment. They labelled this recurrent and chronic psychosis. They labelled this schizophrenia. They labelled this bipolar affective disorder. None of these are present in the Claimant.

No label is needed to detain someone against their right to freedom of expression. In this case it would be called oppression. It is modern day persecution based on the firmly held beliefs of the individual. These are modern day asylums with no escape. There is no escape for the Claimant unless the Court executes its duty to uphold his rights.

Those statements the Claimant made were his beliefs to have by his own volition. His right to have his beliefs, however impossible they might seem to a mental health worker who does not share his experiences, are his right to have under the European Convention on

Human Rights.

His rights under Article 10 of the European Convention on Human Rights have been violated.

Violation of Article 5 – Right to liberty and security

The liberty of the individual represented in this case has been violated. This person was detained without due process and the reasons for his detention under the mental health legislation of the British Government was nothing short of incarceration based on persecution of his beliefs.

There was no medical fact which forms the basis of his detention. There are only opinions of those who do not share his beliefs, with particular reference to those in the mental health system of the United Kingdom who do not even share his Roman Catholic upbringing.

> 1. Everyone has the right to liberty and security of person. No one shall be deprived of his liberty save in the following cases and in accordance with a procedure prescribed by law:

His rights were infringed in many ways during this incarceration. These are detailed as follows:

> 1. (a) the lawful detention of a person after conviction by a competent court;

There was no fair trial and it was admitted during the Claimant's first case brought before the HM Courts and Tribunals Service, and by the medical practitioners working to defend their position, that this was the case. It took no less than 2 months of detention and forced treatment to bring this trial before a mental health judge. There was not sufficient testimony allowed by the Claimant. The Claimant was not allowed correct legal representation. The Claimant's right to a fair trial under a competent court with a jury of his peers was refused.

There is a reason this was not allowed: the United Kingdom mental health legal framework requires a trained solicitor in mental health to represent their client. The Claimant needed instead a human rights solicitor to represent him. He was not allowed under their ruling to seek a higher court in order to protect his rights.

The Claimant, when he found he needed to represent his own case due to a lack of understanding from those mental health solicitors he was allowed to choose from by the mental health laws of the United Kingdom, was not allowed to access the resources such as his laptop or the medical files the judges used to make their decision, and was not given sufficient access even to a printer to print out the case which he was able to build against his incarceration, with the limited tools he had.

> 1. (b) the lawful arrest or detention of a person for non-compliance with the lawful order of a court or in order to secure the fulfilment of any obligation prescribed by law;

The Claimant was not given access to a qualified solicitor in each occurrence of his detainment by the United Kingdom. He was incarcerated for months before he even had a trial. This is now common practice in the United Kingdom for anyone who finds themselves incarcerated by these draconian laws.

The police who witnessed this in all cases of his detainment acted negligently and followed only prescribed policies of the British legal framework on mental health. They were acting on falsified and incomplete information and failed to listen to the Claimant's evidence which was presented to them both before, during and after his detainment.

He was treated unfairly. It is a categoric failure of justice which spans 7 years. The Claimant has suffered unfair treatment with his rights being violated for this entire period, including the extradition that was made by the British Embassy in San Francisco in 2012.

> 1. (c) the lawful arrest or detention of a person effected for the purpose of bringing him before the competent legal authority on reasonable suspicion of having committed an offence or when it is reasonably considered necessary to prevent his committing an offence or fleeing after having done so;

The Claimant has been treated in the same way as a criminal would be. He was detained without a just trial for months on end. He has suffered abuse and humiliation during his detainment. His body has been pumped with chemicals that were not wanted nor needed by the Claimant. His sentence has never been lifted. His rights are still being violated as he lives out this sentence in exile in the safe haven of Italy. This will not stop until the Court executes their duty to uphold his rights.

> 1. (d) the detention of a minor by lawful order for the purpose of educational supervision or his lawful detention for the purpose of bringing him before the competent legal authority;

> 1. (e) the lawful detention of persons for the prevention of the spreading of infectious diseases, of persons of unsound mind, alcoholics or drug addicts or vagrants;

The judgement on someone with an unsound mind which they claim has incompatible beliefs to their own, of any faith, in supernatural occurrences has no credibility when that same judge does not believe themselves, is not versed themselves, and does not want themselves, the beliefs of that person. Beliefs are for a person to have themselves. They share those beliefs with whom they want to. It is not right to judge someone for believing something which the judge believes is not true.

It is not that the Claimant has an unsound mind for believing something most people do not believe. He was always with sound mind and judgement. He was high-functioning with many high paid jobs both before and after his detention. He found this work readily, by himself, with no help from anyone but who he says is helping him.

It is not right that someone who wishes to express their firmly held beliefs is said to have an unsound mind simply because many people do not share those same beliefs.

> 1. (f) the lawful arrest or detention of a person to prevent

> his effecting an unauthorised entry into the country or of a person against whom action is being taken with a view to deportation or extradition.

As shown in the attached evidence dossier, the mental health workers in the UK tried to extradite and bring home the Claimant even when he claimed asylum from the Italian government. Italy has very different rules regarding detainment of individuals, and they refused to admit the Claimant based on his religious beliefs and right to express those publicly and without hindrance.

The Claimant is permitted under the European Convention on Human Rights to free movement, and it is the case that the British Government are in violation of this treaty by ordering his incarceration in an Italian prison for 14 hours when he fled the oppression he was suffering in the United Kingdom.

The Claimant was also prevented by the British Police and the mental health workers in April 2017 from leaving Europe based on falsified information they received from the grief stricken parents of the Claimant regarding his mental capacity.

It is his right to flee oppression. His rights were being violated by the British Government.

> 2. Everyone who is arrested shall be informed promptly, in a language which he understands, of the reasons for his arrest and of any charge against him.

> 3. Everyone arrested or detained in accordance with the provisions of paragraph 1 (c) of this Article shall be brought promptly before a judge or other officer authorised by law to exercise judicial power and shall be entitled to trial within a reasonable time or to release pending trial. Release may be conditioned by guarantees to appear for trial.

This was provided to the Claimant in part, however as discussed

previously the detention was not allowed to have legal action by the Claimant for over 2 months in each instance. During this time he was forced with drugs and not allowed the tools to build his case against his detainment. The legal course he was allowed to take was both limited and not appropriate for the claims which were brought against him. There was no fair trial in any instance.

Solicitors versed in human rights legislation and access to the appropriate court were not provided to the Claimant. No question was left unsaid by the Claimant to those who were incarcerating him, and true records of what the Claimant gave as evidence were not recorded by anyone during this 7 year period.

Much of this last 18 months has been documented in the Claimant's personal diary. This is publicly accessible, and he was asked to write it because of who he claims to be for his Church.

> 4. Everyone who is deprived of his liberty by arrest or detention shall be entitled to take proceedings by which the lawfulness of his detention shall be decided speedily by a court and his release ordered if the detention is not lawful.

> 5. Everyone who has been the victim of arrest or detention in contravention of the provisions of this Article shall have an enforceable right to compensation.

The European Convention on Human Rights is being violated by the British Government as is evidenced by the Claimant's case. Both of these clauses must be upheld by the Court and compensation for suffering endured and life deprived during this 7 year period given to the Claimant by the British Government who must protect the rights of their citizens.

Violation of Article 9 – Freedom of thought, conscience and religion

Regardless of one's beliefs, Article 9 protects the individual's freedom to believe what they want to believe save for protection of public order, public health and safe-keeping of moral society.

The individual did not express any intent to harm or discriminate any individual. They had no intention to harm any individual or commit any crime. The individual believes they have received Divine instruction and this is their belief to have.

The member state of the United Kingdom infringed the Claimant's rights under the European Convention on Human Rights by incarcerating and forcing treatment over a period of 7 years, just short of a decade.

He has narrowly been able to free himself from this through the instructions he claims are from God.

His calling and vocation, according to the Claimant is to live a life of service to God. It has always been the case since he was a child that the Claimant has been treated with oppression when he discussed his vocation. He was led into a life he did not want to lead through not being brought to the Church which he believes in to discern his vocation. His Roman Catholic faith in God has remained steadfast throughout his life.

He has done wrong many times, as we all have, but he has not given up his pursuit of finding God in his life.

> 1. Seven years ago to this month he was slandered by his parents to the Police of the United States when they told them he was committing suicide. The words his father gave them were not true.

This same practice has been continued for 7 years by his family. Evidence has built up about a fictional mental illness and several incarcerations have resulted. The evidence in the first instance were fictitious claims by the Claimant's father. This built up line by line with lies and distortion about this original claim by his family and by the mental health teams who forced the Claimant into their treatment. There was no basis even then for a diagnosis of a mental health disorder, it was true that he was being spoken to by God. It is not true that everything the Claimant wrote in the first 5 years of this forced treatment was true. There are many occurrences in those days of fictitious claims by the Claimant too, however they were his firmly held beliefs at the time. He was then spoken to in March 2017 and all truth about what happened began to be revealed to him. It was in this month that his parents began to make further claims which were untrue, including in one case a claim by his father that the Claimant threw him out of his own house. This was not true, there is no evidence to substantiate this claim. No evidence could ever be presented to infer this as it was not true. Instead there is evidence to the contrary, which was documented by the Claimant and shown to the mental health workers. These people documented in his medical files that this documentary evidence was further proof to them of a mental illness.

The investigation by the mental health authorities at this time was negligent, they acted on the instructions of what the British law calls a Nearest Relative, the Claimant's father. He had been known to be doing these things since 2012, it was never investigated by the mental

health teams who incarcerated the Claimant about the false claims his father had made. This alone was a defeat of justice.

Most recently an extradition attempt was made by the British Government when the Claimant fled to the Roman Catholic country and safe-haven of Italy. The Italian Police petitioned for his release within 14 hours giving evidence that they did not believe he was mentally impaired, nor a threat to the public. What the British Government did for 7 years and up to the present day is nothing short of religious persecution of a Roman Catholic, a crime under British law, a violation of his rights under the European Court.

It is a violation of basic human rights.

When he was detained unjustly in British hospitals for something that was not true, without due legal process, he was repeatedly bullied by Muslim and non-Christian health workers and fellow patients for his devout Roman Catholic beliefs.

They likened his faith to what they thought would be true of any person, instead of accepting his right to freedom of any truth which he knew. It was his right to fair treatment by everyone in British society. He received this only from a few he could call friends, people who witnessed too what he knew to be true, people who the Lord Jesus Christ is speaking to as well.

The Claimant did no more than speak what was clearly true of any Roman Catholic called by God in this way. Their lack of knowledge of the Roman Catholic tradition was understood by the Claimant and he attempted to receive help from the Church during this time. Due to the diagnosis the mental health teams readily gave him without consultation, even his own Parish Priest did not help him in the way he would normally do. He pleaded to his doctors, nurses and social workers throughout his 2 years of incarceration by the British mental health system to seek guidance from the Church.

They did no more than treat him as even more ill as a result.

One Roman Catholic Priest who witnessed Timothy in a hospital in London said what was true in a statement to the most recent HM Courts and Tribunals Service however it was discarded as non-factual by the Court because they believed the Claimant was mentally ill. They heard no more than what the mental health teams wanted to put forward as truth.

He was stigmatised by untruths said about him. He was defamed very publicly to many people.

He was told when speaking about the European Convention on Human Rights to one of the nurses in charge in one of the hospitals he was forced to stay at that he had no rights as he was mentally ill. They said his rights had been taken away from him while he was under section. This was further evidenced in the violation of the Articles, they denied him every other right that they could, treating him as an animal locked in a cage to do what they wanted to night and day.

Water was withheld. Food was withheld. Drugs were pushed into his body by force.

He was never forced into confinement, because God told him how to avoid this, however the nurses did speak of others who receive far worse treatment in a way which was meant to threaten the Claimant. They told Timothy he was lucky not to have the more stringent regime in the ward next to him, and he needed to take everything they did to him without any further resistance. The treatment Timothy received is exemplary of what happens every day in these hospitals to most patients who have been detained in their hospitals involuntarily.

His entire life was destroyed systematically over 7 years by an unjust treatment by those who treat human rights legislation with disregard.

Incarceration is what it was, without any legal justice to defend a single patient.

This is a case that needs to be heard by this Court.

The mental health laws of the British People are wrong.

This is what happened in March 2012

https://wisdom-and-love.org/diary/2019/03/06/this-is-what-happened-in-march-2012/

There was something I told my parents while I was in San Francisco in March 2012. I told them something which was not true. I sinned. I grievously sinned.

Our Lord Jesus Christ has told me to write in His Truth about those times.

I was reading much of Revelations at the time. I was hearing Him speak to me at times.

He was telling me more about who I was to be for His Church.

I was not receiving Him in Communion at the time, I was outside of His Body.

He appeared to me one day, after I had been driving around searching for Him.

He told me to stop what I was doing.

There was a reason He told me to write this. He has spoken His Truth to me about those days.

I spoke in private with my F001, from a distance this was to be written over instant messaging. I told him that I was called to judge the living, I told him explicitly Our Lord judges all.

I spoke to him then what I thought was perhaps true, but I qualified what I said to him by saying I didn't know why I believed it. I told him some things which were not true.

Our Lord is Our Judge. He is Our Judge. He judges the living and the

dead.

What He told me was that what I said was a grave sin punishable by death.

He forgave me of my sin in April 2017. He spoke to me of all the sins I had committed and I prayed to Him for each one of the most grievous I ever committed from my birth.

He led me away from sin. He took me to Him. He speaks to me His Truth since March 2017.

I was a fool for doing those things. I was a fool for trusting my own F001 with what would have been philosophising conversation. What I said was taken out of all context. It has been blown out of all proportion.

No more can you tell me I am sinful for what happened in those days.

I received the Rite of Confession before Our Lord Jesus Christ, three times in March 2017 through His Servant of St Hughes Parish in Shrewsbury.

What I did was wrong, and I am sorry for what I did.

What happened since this day was not my doing. I was forced into hospital by the Police in Oakland after being assaulted by a gardener of the local Church.

The Police Officer in question refused to take witness statements, he acted on the belief that I was mentally ill, a diagnosis prepared for the police and doctors in San Francisco by my parents.

They took me by ambulance to John George Psychiatric Pavilion where I stayed for 10 days. On arrival they placed me under a sleeping drug, fast asleep, onto a cold floor strewn with other patients. They gave me a cushion to sleep on. When I woke, I spoke to one of the patients and asked the kind lady what she thought I should do. She told me to phone my family from the front desk and I kissed her on her forehead. This

was not sinful, this was written about by Dr Thomasini of JGPP as a sign of a mental illness. It is not a sin to give a kiss to someone who helps you.

He wrote in my notes that I suffered delusions while in hospital. This was not true. I spoke of what I read from His Word, The Holy Bible. This is not sinful. This is not a mental illness.

When I was released I was escorted, without even a cigarette, to the airport by my parents. When I landed they let me rest and escorted me to a doctor, D001. The words she spoke to me when she met me for the first time were “I think you’re a bit of a loner, aren’t you?” This is not true. People who truly know me know I have made many friends in my life, all of which have left me since these days due to this diagnosis.

How dare she cast judgement on me from 2 minutes of conversation!

This was the sign of things to come with those people.

Our Lord Jesus Christ stayed with me, helping me, talking to me and being my friend. He spoke to me when I was in the hands of the Early Intervention Service, C000. He asked me if I wanted Him to stop speaking to me for a time and I thought carefully. I was given want to say yes. It pained me to do so, He was all I had. He cared for me, He knew I couldn’t go through this with Him speaking to me in the way He had been.

I then was bombarded by ethnic teaching about mindfulness by C000. Teaching the NHS is forcing on the patients in their care. I was told by C000 to tell Our Lord He was a “passenger on a bus”, “thoughts to place on a leaf to float down the stream”, “rubble on a freight train to watch ride into the distance.” I told him that this was not really what I needed, but they made me do it anyway.

During those 3 years in the Early Intervention Service of Trafford, they made me lose my way. They gave me false teaching.

Every Easter I found a call from Our Lord Jesus Christ to say to Him prayers of His Church. He was telling me He was with me.

There was a doctor, D082, on the day I was released by the Early Intervention Service who could not find anything wrong with me. Bipolar disorder, so they say, does not go away. Recurrent psychosis, as it's name would imply, does not disappear. I was well and it was known by C000 and this psychiatrist that I was not mentally ill.

It is also, as Our Lord has revealed to me, as He has shown me in others I have met in hospital, that these are not even illnesses. They are models for how mental health practitioners want to force their patients into a particular mode of being. This is wrong. People sometimes are confused, and that is all. They need Our Lord, they need His Peace, they do not need drugs. They do not need to be incarcerated against their will.

This was not healing I received due to medication, which I had sparsely taken during those years, as it had no bearing on who I was.

It is because I was not ill in the first place. Nor really is anyone else in this way.

C000 was wrong to ignore my plea to seek comfort in the Roman Catholic Church.
He was wrong to ignore what I said, and he wrote many harmful things about me in my medical notes which are not true. Some things were not even spoken of in the sessions I had with him.

Even the family therapy, which my parents requested, broke down because my parents would not do anything for themselves. They forced me to change who I am, and did not accept that I am not who they want me to be for them.

All the while I was working for a startup in Manchester and was setting up a business of my own. There was nothing wrong with this, it was always where I wanted to work. These two things were also seen as signs of mental illness by C000 and his team.

This harassment, defamation, incarceration, abuse, humiliation and most importantly religious persecution is still ongoing to the present

day by those people in the NHS and my family.

The Lord Jesus Christ asked me to publish all my records, they will all be public record

Wed 6th March 2019 2:36:44 pm GMT+00:00 Vacone, Italy  Timothy

https://wisdom-and-love.org/diary/2019/03/06/the-lord-jesus-christ-asked-me-to-publish-all-my-records-they-will-all-be-public-record/

I was asked by Our Lord Jesus Christ to exhaust domestic options in the United Kingdom to find again legal representation.

Not a single solicitor I contacted answered my emails in the last month in the United Kingdom with a response to even listen to my case.

Not a single charity in the UK, including the mental health charity Mind and the human rights charity Liberty has listened to this issue.

No one in the legal profession wants to listen to my case. This is wrong.

These are the words Our Saviour gave me right now, this is His Truth:

“I have given you this understanding of what they do.
You know more today about the injustice of the British people.
There is no justice which they give to anyone who has been stigmatised with the accusations which have been made against you, My dear child.
Do more now, show this court in Europe what is true about this case.”

Lord, please help me, I don’t know how this can be done.

“Give them what you know right now, all records will be known by My People.”

Thank You, Jesus, I obey You.

Jesus, You are my Light and my Life,
be near me right now, another night more.

These were the things I did for those in need in 2012

Wed 6th March 2019 9:39:19 pm GMT+00:00 Vacone, Italy Timothy

https://wisdom-and-love.org/diary/2019/03/06/these-were-the-things-i-did-for-those-in-need-in-2012/

There was a time before I was being spoken to by Our Lord God.

I was asked to write by Jesus to describe who I was becoming in San Francisco. All of these words are true. It is a true account of these events. Many more things happened then and many more words were said by me, most of which hold no resemblance to His Truth.

In 2011 while I was in San Francisco I witnessed a homeless man with a seizure. He was convulsing on the street. He was outside a 7/11 store on Haight St near Cole St. I was walking with my then colleague Michael.

As we passed the man he was clearly in need of help. There were several onlookers who told us to ignore the man, that he was faking his illness.

I was given want by Our Lord Jesus Christ to feed and help this man who was in need. I said to Michael to wait with him while I went inside to buy fresh food and energy drinks. Michael sat by the man and knew to keep talking with him.

Someone phoned an ambulance and as is common practice in the United States the first responder, the fire brigade, responded with a paramedic.

The man needed no more than love and care that day.

It was wrong for people in this wealthy district to ignore the plight of those who suffer homelessness and poverty. These are His People. It is our duty to help our fellow men and women, regardless of our predisposition about who they are or what they are asking for.

I knew to help this man because I was told by Our Lord Jesus Christ to do this.

Feed Him, He says to us.
Clothe Him, He tells us to do.
Shelter Him, we know He has told us time and again, through His Apostles, His Saints, and in His Word in The Holy Bible.

It is ignorant to believe not one of us knows of His Message of Truth.

Then before I was incarcerated in hospital in March 2012, I was told by Our Lord to find food for the hungry. He gave me time to find Him.

After confessing my sins before Our Lord Jesus Christ in front of Brother Pasternak in Berkeley, I received The Body and Blood of Jesus and became knowing to do more. Brother Pasternak before the end of Mass spoke of work the parishioners were doing the following day in helping to feed the homeless in the parish centre. I knew to go as Our Lord gave me want to.

When I went there I found many homeless people queuing for Sunday lunch. They were all in need of His saving help. I wanted to help the staff in the kitchen, but they did not know me and they told me there were enough helpers.

I decided to sit with a lady who no one could understand. I listened to her, I understood nothing, but she began to show me a newspaper and talked about her desire to be an astronaut, what she would have wanted had she had a different life. She wanted to go to the moon.

She wanted a friend, someone to hear her. There was nothing wrong with what she was saying but even her friends around us were telling me she was insane. She just needed a friend. She was a warm, loving, nice lady. I had apprehensions too before I started speaking to her, but I knew to speak to her.

I was given want by Our Lord to help these people in some way, I was affluent even after losing my job, and I went outside to a local restaurant to buy food vouchers. I gave four of my friends I met in

this place money in food vouchers. The woman at the restaurant I bought these from received advanced payment of a tip and I asked her if it would be ok to give the people who would be homeless these vouchers. There was a man I met on the street who was homeless and he refused to take the voucher. He wanted money to buy what he wanted. It was wrong of me to tell him that he just needed food, food from an expensive restaurant too.

The lady running the centre came to me during the day to test me. She told me they had run out of food when half of the people in the centre were still queuing. I knew this because it concerned me that these people would not be fed. I talked to this lady and asked her where the food can be bought from, I would go out to buy some. She stumbled and went back to the kitchen. Moments later she returned and spoke to me normally telling me they had found more. I did not tell her anymore than what I knew was true.

I met a man who had cancer in the parish centre. He had a visible tumour growing from the right side of his throat. He made out as though I was with Jesus as His Disciple. I made it clear to the man that I was no one, just a man who wanted to help. No one in the room wanted to speak to him, and I knew to do so but I didn't know why. He asked me to lay hands on him, and I knew not to, it would have been sinful for me to do this, I have not been given permission from Our Lord Jesus Christ to do so. I tapped him on the shoulder with love and told him I would pray for him.

There was another man who was helping run the lunch who asked me my name. I told him my abbreviated name I was using at this time. He talked to the lady who tested me and made out as though I had been sent there by Jesus Christ. I insisted I was just another man, no one at all. I had not been sent, I had only come to help with them. The man lined his children up as I departed and I was very embarrassed. He thanked me for my help this day and I did not do anything at all. I shook their hands but knew to leave quickly.

In the following weeks I did pray for the man with cancer, and Our

Lord is with him right now. I left a Mass intention with the University Catholic Church I had been attending Mass one Sunday.

In the weeks following I began to lose my way.

I began to make people walk to Subway from where I was buying food because I did not want them to spend cash on other things. This was very sinful of me. It is wrong not to give someone what they need, what they have hunger for, what Our Lord gives them want for.

I am sorry for what I did to You, Lord, and to Your child, that man.

I bought food vouchers because this is what I had been told to do by others if I wanted to help people. This is plainly not what they need. They need what they want. They want what they are given want for. This is Our Lord's to give, and we are asked to share our wealth with those who are without.

People need what they have want for. These people know what they want.

If a man wants a cigarette, he should be allowed to find one.
If a man wants a bed, he should be allowed to have one.
If a man needs comfort and care, it should be given to him.

I did these things because I was given want to do them. It is because I was with Him even then, He gave me all this to do through my desire to be with Him.

When they escorted me back to England from being incarcerated for my want to speak with Him in April 2012, He gave me instruction to feed another man on the street in Manchester city centre. I had no money myself and I was given a stipend by my F002 for an evening out. I gave the man food and water and chocolate eggs because it was almost Easter. The man thanked me for this gift and he stayed and enjoyed the gifts he had been given by Our Lord Jesus Christ. It was wrong to then be accused of wasting money which I had been given, which I was told when I returned home. It was not mine to give, is what I was told, even though I declined alcohol and other people's

company that evening.

Once I was under the care of the Early Intervention Team in 2012, as their forced therapy got underway, I was prevented more and more to even leave the house for anything but work. They tracked my spending, my habits, my sleeping patterns, everything in my life was locked down. Any sign that I went out onto the streets to help someone would have been punished with incarceration, to give even £20 away. This is exactly what happened 5 years later in March 2017.

Lamb of God, have mercy on us all, and grant us Your Peace in our day.
Jesus, have mercy on us all, and grant us Your Peace in our day.

These are the words of Jesus Christ, Our Life:

“I have been with you, Timothy, all these years.
I have helped you with all these things.”

Lord, thank You, for everything. I need You now more than ever before.
Please stay with me, Jesus, I need You all the time.
I love You, my Life, my Love, Our Precious Sacrifice whom I adore with all my heart.

“These are the things you must do for My People.”

Yes, Lord Jesus, I will. Please show me Your Way of Truth and Life, and I will obey every Word.

This is for my F001, whom I love

F001,

I want you to know I forgive you.

I want you to know this must end.

Seven years is too long to be unknowing the truth. You need to know what you did is forgiven.

I forgive you.

These are the words of Our Saviour Jesus Christ:

“I have told you once more.
I have shown you again.
These things are to end.
I want you, F001.”

These are His Words for you, F001. He is speaking just to you in these words.

It is for you to know that this period is now over. Be at peace.

What has happened must be known now. People will need to see. What has gone on is too big for anyone to hide. Everyone will know of our sins.

The Truth is for you to pray to.
He will reveal His Truth to you.

These are His words, F001. There is no more to say than this.

I love you, dearly, my beloved F001.
I wish for no other person to be my F001 than you.
I love you, I am your son.

Be peaceful as more is revealed.

Your dear son,

Timothy

Injunction thrown out of Court

Fri 8th March 2019 2:33:33 pm GMT+00:00 Vacone, Italy Timothy

https://wisdom-and-love.org/diary/2019/03/08/injunction-thrown-out-of-court/

There was notification from the County Court in Manchester today that the Judge has struck out the injunction filed against the NHS and my family.

I have suffered religious persecution for 7 years, and will be referring this now to the European Court of Human Rights.

All avenues in the UK have been exhausted.

I have been told by Our Lord Jesus Christ not to disclose the original paper publicly as it contains confidential information about my family and the care coordinator. The document will be disclosed in its entirety together with the HM Courts and Tribunals Service rulings to the European Court too.

This is the ruling from the Court Judge in Manchester:

> It is ordered that:
>
> 1. The application is struck out.
> Reasons:
> 1) the application was filed on the 12th February 2019 but no underlying Claim has been issued;
> 2) the application notice is incoherent and discloses no reasonable grounds for bringing the application.
>
> 2. The application is totally without merit.
>
> Dated 5th March 2019

It does not seem to be understood by the Judge that this act committed against me by the NHS and my family is a crime under UK law. It is religious persecution.

There is no appeal avenue offered by the Court. There is no further Court in the UK I am able to have my case heard.

In this case in the County Court they did not listen to evidence. There was no hearing with evidence heard by witnesses, including myself.

It has been thrown out of Court.

I was told by Our Lord Jesus Christ that this would happen. He has shown me there is no legal justice for me in the United Kingdom. He has fled me to this safe-haven of Italy where He has this month written words, His Truth, for me to send to the European Court of Human Rights.

I must now send this to the High Court in the UK to have them hear this case too. I have every confidence they too will throw this case out as well.

NHS has disclosed they will withhold evidence from me, all third-party statements they say they will withhold

Fri 8th March 2019 3:04:46 pm GMT+00:00 Vacone, Italy  Timothy

https://wisdom-and-love.org/diary/2019/03/08/nhs-has-disclosed-they-will-withhold-evidence-all-third-party-statements-from-me/

This is an email I received today from the Information Governor of the NHS in Prestwich, the NHS Trust of Greater Manchester:

> *Dear Timothy*
>
> *Further to our telephone conversation on Wednesday 6th March 2019, I have looked into your request. Due to the poor quality of the telephone line, I misinterpreted that you had already received a response to your request and that you were querying missing information.*
>
> *I have since spoken to the member of staff dealing with your request, who has confirmed that the request has not yet been sent and that you had been enquiring about third party information being redacted.*
>
> *I wish to confirm to you that any third party information contained in your records will be redacted from the information that you receive. We can only release third party information on receipt of consent from said third party.*
>
> *You will receive the information requested in due course.*
>
> *Should you require any further information, please do not hesitate to contact me.*

> *Kind regards*
>
> *Karen*

This is the email I was told by Our God to write back to Karen:

> *Karen,*
>
> *As I told you on the phone call this information is to be used in evidence with the European Court of Human Rights in a case I am filing. I am representing myself, I am my own solicitor.*
>
> *If you redact a single comment in my medical files you will be withholding evidence from me, my own solicitor. This is a crime.*
>
> *All information in my files, including what you purport to be not about me, has been given in evidence to the HM Courts and Tribunals Service and has been used against me to persecute my faith as a Roman Catholic for a period of 7 years.*
>
> *Do not redact any information.*
>
> *Timothy*

This is not new for the NHS to be doing this injustice. On each occurrence of me requesting my medical files they have redacted key witness statements leading to my incarcerations. At the time I was preparing my cases from incarceration in hospital and was not given so much as a printer. The Court then would not allow me to read the evidence from my phone, the only thing I had with me due to the restrictions placed on me by the hospital. These people do not act fairly.

This is what is true about those five incarcerations

Sat 9th March 2019 12:18:52 am GMT+00:00 Vacone, Italy  Timothy

https://wisdom-and-love.org/diary/2019/03/09/this-is-what-is-true-about-those-five-incarcerations/

These are the events which were going to happen in each of those five incarcerations. It was wrong in each instance to incarcerate someone for their faith.

I have been incarcerated 5 times in California, the United Kingdom and at request of the British Embassy on falsified information given by the NHS, Rome.

Each instance was due to my firm beliefs and want to be with Our Lord Jesus Christ. I received these wants from Him.

On 4 of the 5 incarcerations sin was committed by my family, by those in the NHS who ignored what I said and by the Police force of Greater London and Manchester for witnessing the criminal act of religious persecution before their very eyes.

In San Francisco sin was committed by several people when I was incarcerated, by the man who assaulted me, by his colleague the gardener who gave a false testimony to the Police Officer who arrived at the scene, by the Police Officer who ignored my own testimony and failed to act in a just way, by me too in leaving a conversation with my F001 unqualified sufficiently to prevent him from making false claims of suicide to the Police of Oakland. Sin was committed by Dr Thomasini for holding a grudge against me for kissing a kind lady on her forehead who helped me when I was under the influence of a sedative.

In all cases crimes were committed by the Police and the doctors, nurses and mental health practitioners involved.

This is religious persecution of a Roman Catholic spanning 7 years of

abuse in the member state of the United Kingdom.

March 2012

There was a conversation with my F001 about things which were not true. I sinned by saying some things. Not everything I said was sinful. Not everything I wrote was not true. I was looking for life with Our God. I made some false claims about Him, about who I had been called to be.

My F001 compiled at his convenience a testimony based on some of the things which I had written, omitting sinful things he had written and said to me, and omitting also peaceful words from myself both of which were written and verbal, and sent this to a mental health practice in California. He pressured me into visiting hospital for several days to confirm his own diagnosis of me which was bipolar disorder. He had prepared this diagnosis himself, he is not qualified through any means in mental health. He was researching things about people who had been told they had this so-called condition on the internet, including a video of someone who has been told he has a mental health condition, Stephen Fry, with a video of that actor on YouTube giving his account of what this man thinks is now true of him. No facts did my F001 know about my true beliefs at the time.

He had been doing this some weeks prior, it was his belief to have, it must be ignored by anyone looking at this evidence. It has no basis in truth. It is his firmly held opinion but it is I who have had my human rights violated.

He used this evidence he had constructed together with his own false testimony about what he said I had told my parents on the morning of 15th March 2012 continually against me over a 7 year period.

He still holds all my files from this time. He tells me he wants to confirm what was true at the time. Not one part of what he has compiled is true.

I was praying peacefully using the words from the back of The Holy Bible, Catholic prayers with my F002 over Skype on the morning of the 15th.

It was told to me later that she instructed my F001 with a gesture I could not see to phone for an ambulance. They informed the Police I was sinning by committing suicide. They have repeated this claim a number of times in the last 7 years. It has been repeatedly used as evidence to say I am mentally ill.

It was never true.

I have never committed suicide. I have harmed neither myself nor anyone else except with shoves and banter children would do as a child with my siblings.

I have never made an attempt to commit suicide, even in my darkest thoughts I have not even come close to wanting to. The Lord God has been with me all my life.

The Police arrived and I remember the time being 8:50am local time in San Francisco.

They witnessed that I was well, that there was no implement of suicide in my apartment. They asked me to see pet detergent, bleach, which was safely secured under the sink. They did see a paper cup from Burger King filled with a small amount of water and 3 cigarettes which I showed them. I had told my F001 this was a poison chalice he wanted me to drink from. I was clearly not going to drink from this rancid water that I had prepared. They deduced themselves what was true immediately, that I had been speaking metaphorically with my F001. What I said to my F001 about The Lord's Body and Blood and a sacrifice I thought I was making to Our Lord by giving up cigarettes was gravely sinful. It was not a crime in America what I did or said but it was sinful. It was not an illness, but these words were very sinful.

After 30 minutes the Police were ready to leave. They looked at my driving licence as identity to prove who I was for their files. They offered to phone an ambulance for me but told me this was entirely my choice at the time. I told them that my parents had continuously insisted that I take myself to hospital. I told the Police I would happily go there voluntarily to please my parents and satisfy their diagnosis

was wrong.

This act was repeated in my second section in Greater Manchester in March 2017, when Our Lord spoke to me and told me what to say to the mental health practitioners during their mental health assessment.

It is what one would normally do to obey one's parents. I should not have let this happen. But I did because I wanted to honour Our Lord's 10 Commandments.

By accepting the ambulance I was not acknowledging in any way, and it was clear in what I said at the time, that I was ill nor did I want to go myself to the hospital. It was for my parents. It was for peace for myself and with my parents.

The Police knew this, the ambulance service knew this, the hospital I arrived at who did nothing but put a security tag around my leg knew this.

I studied His Word in The Holy Bible when I lay in a hospital bed of the triage area of the Summit Pavilion in Oakland. They gave me a room to lie down on a bed overlooking a nurse's office. The nurse was working on his computer and I repeatedly asked him to read my Facebook posts, I asked him if he could phone my parents in England. The man did not do anything for me. He ignored every request I made. I was given nothing but a few cups of water to drink. No tablets did I take in this visit.

After seeing that no one was doing anything at all, I decided to leave. I left through the big doors where the ambulance would have arrived and a very loud alarm went off. I scorned them for tagging me and not informing me of doing so. They were wrong to do this. I told them when I arrived to not lock me up, and they had done exactly this by tagging me. They took the tag off and apologised to me. I calmed down a little bit and thanked them for their apology but I was still annoyed with what they had done.

I then proceeded to the pedestrian exit of the hospital after being

verbally accusative to the nurse at reception. I was angry by what they had done.

The man at reception on my way out offered me a taxi, I should have taken this, but I was angry.

I was given want to go into the local shop outside the hospital. I knew only to buy flowers, a bunch of red roses. They were under $10. I walked outside and saw a man who was homeless. I gave him the flowers and told him they were for him. He found a woman just leaving her car as I walked away. I turned and saw what happened. He gave this woman, much wealthier than he was, this bunch of red roses which the Lord Jesus Christ had given him to give to her. She smiled and they exchanged warm words between them. I smiled too. I love You, Jesus. You gave me Your Hope this day while everything in my life was being destroyed.

I then proceeded to walk a couple of blocks and did not know the way back. I found my way very easily to the Bart station by asking people I met on the street. I asked for help, having left my wallet at home, at the Bart ticket machine to show me the way back to Emeryville. Not a single person acknowledged my need to get home. Not even the lady at the information booth would help me. I considered jumping over the turnstile but knew it was wrong to do so. Our Lord was with me and He made it known to me that I should not break the law despite what I might need.

I sat in the Bart station with my Bible in my hand. There was a man who walked past me who saw I had His Word with me in my hand and he verbally insulted me. Not a single person gave me so much as a dollar to help me.

I then proceeded up the same road I was on and tried to find another means of transport.

I entered a bicycle shop and tried to ask for directions. They did not help me much but instead mocked me. I asked if I could borrow a bike, this was not foolish and I told them I would pay them soon, and they

mocked me.

They followed me out of the store as I was waiting on the corner of the street and they continued to mock me further as they rode past on their bike and then back to their store.

I then went up to the Nissan dealership, which has since moved to the other side of the road, I now see there is building work there on Google Maps.

I spoke to a family there and told them to buy a car suitable for their growing family. I was told to leave by the salesman there, they seemed to want to buy a convertible instead at first and I would have been ruining his commission. I left peacefully knowing I was not welcome.

I then sat outside the First Presbyterian Church on the top of the steps. In truth I just wanted to pray to Our Lord in His House.

I was then given want to knock on the door by Our Lord, it was a heavy door and I did this with my Bible. This was sinful of me, and I am sorry. Knocking on the door was not the sin, it was to use His Holy Bible which contained a vessel of Holy Water with Our Lady's image on it which I had bought from Oakland Catholic Cathedral, The Cathedral of Christ the Light, some weeks prior.

The vessel containing Holy Water shattered with the impact of the Bible on the heavy wooden door and I opened my Bible to find broken glass. I was sad. I began to cry. I had all but given up hope. I asked Jesus for help.

Then two gardeners, one young about my age at the time, and another who would have been his manager in his late 40s appeared from the side of the Church. They had heard me knocking on the door.

The elder of the two asked me to walk down the steps after he approached me and leave. I told him that I wanted to enter the Church to pray. He told me others were in the Church peacefully praying. This was not true, the Church was certainly closed.

He then came up to me and started being extremely aggressive. Without warning he pushed me very hard down the steps of that Church. He then threw my Bible onto the street. I managed to escape without any more than a sprained ankle. I fell backwards, but managed to get footing on three of the steps I jumped down. I had Our Lord's help to escape without more than a sprained ankle.

One of the pages of my Bible had been torn when he did this and I went to report this assault I had received to the restaurant across the street. I asked them for help in contacting the Police. They told me to leave while saying they were going to phone 911 about me, not about that man.

I wanted to ask the people at the bar of the restaurant for food, but I had no money. I asked them for tap water, they refused to help me in any way. Tap water is free. Why did they not listen to the assault allegation I made?

I had given up. I took a photo of where I was at the time, which I have found for the first time in 7 years today with the help of Our Lord Jesus Christ:

This is what the street looked like at the time, it is now a Nissan dealership with the same restaurant underneath. It was safe for me to take this photo, there were no cars in sight.

The First Presbyterian Church is to the left of this.

Looking at the map today, it seems it is a short walk back to my home at the time at 1202A Powell Street. It was not difficult for any one of those people I spoke to tell me how to get home even by foot. This was a foreign country I was in, I did not know Oakland city centre in any way, but I did know the streets of Emeryville reasonably well as this is where I lived for over a year. Had I been told to walk a bit further down the road in any direction I would have known where I was. The Cathedral I visited occasionally is very close to here too.

After about 10 minutes the Police Officer I had seen earlier in the day arrived at the scene. My trousers had fallen down to my ankles, I had lost a lot of weight and I failed to pick them up when I was told to. I was foolish to do so but I was not indecent, I was wearing other garments of clothing too. It was not a crime what I did in my lack

of action, there was no one harmed by my actions, and I had been physically assaulted by someone who remained on the street corner when the Officer received my witness statement.

The younger gardener walked over to the Police Officer and spoke quietly to him. He gave him no more than evidence I had not been assaulted by his superior. This was wrong. It needed investigation by the Officer. He had my statement.

Instead the Officer claimed I was delirious. He claimed I had taken drugs. He claimed I was indecent, naked, in the street. None of these claims were true. Nor did he want to press charges, as he saw no reason to. He had only want to section me I thought, from what I could see to send me somewhere else so his statements would not need to be verified in court, and the crime I reported to him would not need investigation.

I had taken marijuana before in my life and it was well known to my friends and family I had been taking this for years. I had stopped smoking any drugs from 1 month prior to this day. This was known to be true, they tested me for drugs and they found no trace when I was incarcerated in hospital. I am sorry, Jesus, for doing these things to You. It was sinful to do what I had been doing with marijuana for so long in my 20s. It was wrong of me to do those things. I was told to stop by Our Lord Jesus Christ. He gave me want to stop when I stopped.

He sectioned me according to their law and an ambulance arrived to take me back to Summit Pavilion.

In the ambulance I witnessed gross negligence by the two paramedics. They failed to lock the rear door and had to stop to close it again, while I believed I had been tied to the bed and could easily have suffered injury had I not told them to take action. I was scared seeing them continue to drive with the doors open, they did not take due care of me, their incarcerated patient.

In the ambulance I felt excruciating pain in my feet. I thought at the time this was suffering I was enduring on account of their sin. I was

told by Our Lord Jesus Christ recently that this pain was from Him. It was pain He gave me to experience.

It felt like two nails being driven through the top of my feet.

This pain was only present when the ambulance driver who was in charge was reversing into the hospital bay. I screamed in agony. I had never felt anything like it.

The ambulance driver stopped reversing. The pain vanished immediately.

I thanked him for stopping and for relieving me of this excruciating pain. He then proceeded to continue to reverse and the pain returned even stronger. I screamed again and exclaimed words to him which were not sinful, I was given want to say them. I told the driver and his assistant that they were crucifying me. Our Lord Jesus Christ has told me today that this was not sinful, He gave me knowledge and want to say those words at the time.

The ambulance driver turned around from his chair and shouted at me. He told me to shut up. He had mocked me this entire journey, had committed gross negligence and then told me to shut up when I told him I was in pain.

They wheeled me into the foyer of the hospital and with the commotion that was outside there were many nurses lined up waiting inside reception. They saw I was the same person they had admitted earlier and they made the Sign of the Cross. They knew what they were doing.

With my restrained hands I smiled at the people who made the Sign of the Cross and made a sign of peace with my restrained hand.

They wheeled me around to the corridor I had been in earlier that day, restrained I thought in the bed. They were told to read what was already known. I told them a few times that the ambulance driver had been negligent and that he had mocked me, that he abused me. They questioned him but did nothing.

I saw a man suffering from sickness in the next room and called him Peter. He responded saying his name was Simon Peter. This was known by him to say those words. His name was clearly not Peter, nor Simon Peter. I read the number on the door and was foolish to do so. I sinned by doing this. I am sorry for this sin, Our Lord.

What I said to that man was he was a witness to this persecution. I did not believe it was that he was Simon Peter, nor did I believe I was literally going to His Cross. These were not words I believed at the time, they were spoken metaphorically but they would have been misunderstood by anyone who wanted to misunderstand them. I was not mentally ill. I was fully aware of what I was doing.

They then left me inside a room opposite this man and I was shielded by a curtain.

The ambulance driver continued to mock me to the nurses behind the curtain in the corridor. He tested the Lord God by telling the nurses 'if he is with the Lord, then he will get up and walk.' Immediately it was known to me the restraints were no longer tied, they did not relax the restraints in the hospital. I can only assume they had not been correctly tied by the ambulance driver that day. They must have come loose as the nurses were doing vital checks outside in the corridor.

I got up and they heard me get up and I went to the fixed bed beside me and lay down. They jumped at me and moved to restrain me again as I was lying down on the other bed. They were about to force inject me with a sleeping drug and I pleaded with them to give me a tablet instead. I took the tablet as there was no other choice. I fell asleep.

It was then the evening I woke in a strange entrance to a place I had not been before. There were many people moving around and I did not know anyone there. It was as though everyone was speaking in a foreign language I did not know, they could perhaps have been speaking Spanish, but I did not know this at the time. I was alone and afraid. I was hungry. I was cold.

I was under the influence of what I had taken at Summit Pavilion

under their care.

There was a woman sat down on a chair who asked my name, I gave her my name. She asked what I was doing there, I told her I was being persecuted for my beliefs.

I asked her for help and she told me to find a nurse to give me access to the phone. I kissed her on her forehead and thanked her for her kind help, the first help I had received all day.

I was told to go to sleep by the nurses after I failed to find my parents through their telephone which did not work. They served food in the evening and every single patient was ravenous with hunger. The small amount of food they served went around 20 people. Not everyone was fed. I needed food, I ate what I thought I should have. I had no more than a small sandwich this entire day. I am sorry Jesus for leaving Your People hungry and taking what was not mine to eat. Please forgive me.

They laid out on the small area of the reception floor blue plastic cushions for people to sleep on. I did not understand what was happening, I was still under the influence of what they had given me against my will in Summit Pavilion.

The next time I woke I was escorted through a dark corridor, it was before dawn, into a ward of this hospital. I was greeted by nice people in the ward in the morning and someone of Chinese faith who shared my room with me. Even the nurses were very nice to me but I began to see what was happening in these places.

What I witnessed in this hospital was shocking. It was symptomatic of all these hospitals. They are wrong.

March 2017

In March 2017 Our Lord spoke to me again. I was praying before a Crucifix in the room my grandmother suffered for months after her stroke a number of years before she left to Him.

I was told by Our Lord on that night that I was called to be another disciple. He asked me to take a pen and paper and told me to write those letters of that word down on a piece of paper. I was overjoyed to hear Him speak His Truth to me. Anyone would be.

My parents were told when they were in Riga with a family friend, Malcolm. They scorned me for ruining their holiday.

Our Lord asked me to see a Parish Priest. I asked three Priests who I knew in the Diocese of Shrewsbury that day and the kind Priest of Holy Angels in Hale Barns at the time wrote back to me. He told me no more than to pray to Our Lord for His Truth. I replied with a glib statement about the Mass I last went to where he presided. It was wrong of me to do this. I am sorry Our Lord for doing this.

Our Lord has forgiven me of what I did wrong this week. He was with me then and He was teaching me to be in His Truth.

I went to Confession three times when I went to St Hughes in the weeks leading to this. I was given instruction by Our Lord in the last confession I made to this Priest to write down all the sins He asked me to confess before Our Lord. I prayed for His Spirit to come upon me and He did. I prayed for His Truth and He gave it to me.

This was the last time I received the Rite of Confession from His Priests. He has told me since this last Confession before a Priest to confess all my sins to Him directly. He speaks to me and forgives me when I confess my sins.

I have been blamed for many sins in my life, many of which were not true. There are many things I have done wrong, and Our Lord has forgiven me of what I have done. When I sin, Our Lord tells me what I have done and I tell Him I want forgiveness. I tell Him I am sorry. He

forgives me when I do this.

I was warned by Our Lord Jesus Christ on the Sunday before I was sectioned for a second time that my parents would incarcerate me again by the end of the week. They did exactly this. I told them this on that Sunday, scared and afraid of what was to come, knowing that many months of forced treatment were about to begin. Our Lord told me of all of this, to the detail that I would be force treated and observed until the end of 2018.

I cried in front of my F002 and F001 and pleaded with them to believe that Our Lord was speaking to me. They refused to believe me and began to make the case for my incarceration.

I asked them to pray to Our Lady in The Holy Rosary. They refused to do so, and I did not know if they did do or didn't. I asked them to pray The Rosary because they are Roman Catholic too. It is what one does.

On the Wednesday evening before my incarceration there was a Mass said in the Salford Diocese. It was a Healing Mass which my parents told me to go to. I wanted to go but then was given want not to go and instead study 1 Corinthians 13. I was told by my parents I knew not what love is because I would not go to this Mass with them. They told me I didn't love them. I asked Our Lord to help me know His Truth. He spoke to me this day too. He told me not to pray for healing. I was not ill.

I was speaking to Our Lord and was told by Him to be peaceful. I failed to be peaceful this week. I am sorry for doing this to You, Jesus. Please forgive me.

There was a woman I wanted, and I went to try and see her the following day. I sat in a coffee shop in David Lloyd Cheadle Royal waiting for her to arrive and drank tea. I listened to His Word through my phone and was being taught Acts of the Apostles by Our Lord Jesus Christ.

He gave me much happiness this day too, but I was doing something

very foolish in waiting for this woman to be with me, it was known to me then it would not be that I would see her.

He told me after I had finished listening to His Word, after I had finished the gifts He had given me to drink to find food in the city centre. I drove the route He showed me and stopped when I wanted to at the restaurant serving food I have been known to enjoy.

I sat and received stamps from this restaurant which children nearby were collecting. I smiled at them and He gave me want to give them what I had collected myself from this meal.

I drove back home believing I had been very sinful this day. This was the last time I used my car, my driving licence was about to be taken from me.

I wrote a diary in that week which I no longer have a copy of. I said in this diary that I was being tempted by satan. This was wrong to say this about the Lord Our God. I am sorry for doing this to You, Our Lord.

My parents escorted me that evening, with my reluctance, to a late-night emergency room where I asked for a room to pray in. They let me into this room and Our Lord spoke to me His Truth. He said to me these beautiful words:

“This is not for you to do this.
Go back home.”

I was already committed to do what was about to happen. The doctor was ready to see me. I sat in the clinic with the doctor and showed him what I had brought with me, the diary I had written. He said no more than I was mentally ill.

I told him this was not true.

I told him Our Lord Jesus Christ was speaking to me.

He arranged for the mental health teams to take me into their care on the Saturday following this meeting. This was not what I agreed to, it

was forced on me.

As I drove home my eyes were streaming with tears. I felt everything in my life had collapsed just as it did before. My Lord spoke to me once more and told me He was my friend. He made it known to me that this was to be. My tears stopped as soon as He spoke and I began to receive understanding of events about to unfold.

The following day, Friday, He gave me beautiful gifts. He took me on the tram into Exchange Square and asked me to give £10 to someone who was homeless sat by a rubbish bin. He then asked me to go to the cinema and to buy a ticket to see Beauty and the Beast which had just aired at the time. He spoke to me all day and filled my day with joy.

There was a meaning to what He gave to me that day, it is written about in my diary in January 2019. These gifts are still to be, and Our Lord is giving me courage as I continue to be persecuted in His Holy Name.

I witnessed a man on the other side of the cinema complex who I was told to give not just £10 to as well, but I was given words to say to him from Our Lord. This man approached me later in the day to thank Our Lord for what He had given him. The man shared a hostel room with someone else also homeless that evening thanks to other kind people on the street. It is wrong to say people must not beg when they have nothing. It is wrong to believe, as they did the following day in the mental health assessment, that someone earning £475 a day in his job like myself should not be giving £20 away to those who are suffering in poverty.

I was told to sit and talk to a Muslim man who enjoyed music with me from a street musician. He listened to what I said and we had a nice conversation about His gifts.

I was then told to see his family, an old father with his wife and many children, one of which was the man I had been speaking to. I knew at this time Our Lord was showing me that I too would one day have these gifts. Our Lord told me to make the Sign of the Cross and make

my way home.

I met a young woman on the tram platform and we shared a nice conversation about her work and where I was working too. She was a software engineer, and was working for a startup. Our Lord had told me to speak to this woman. This was not the woman I would know, but He showed me how I will meet my future wife through Him.

I then took a taxi back home where my parents became angry towards me again. I told my F001 I needed his help to pay for the taxi and he did not do more than get angry.

That evening I went to wash and I played music of the Church while in the bathroom. I was being given Peace from Our Lord.

I was woken by Our Lord in a dark silent room in the evening about 9:30pm. Nothing in my room was playing music. There was not a sound in the house except for the rustle of my F001 listening at the door.

I was told by Jesus to turn over to my ear which is not deaf and to listen to what was happening. It was at this moment He told me that He was in my room. There was no noise other than my F001 rustling at the door.

Our Lord told me to open my phone, He told me my F001 was being deceiptful. It was then 2 minutes before I did so. He told me that my F001 had sent a message to my F002. I did not comprehend what was happening.

My F001 had sent the following message to me, intending to send it to my F002. In the months afterwards he claims he was confused, that he made a mistake. However this happened again several times that he claimed confusion after giving witness statements that I had been up all night to the mental health system before being incarcerated the following day, which to this day these statements have not been revoked.

This screenshot of this iMessage history was taken on the 7th April 2017. I was told by Our Lord Jesus Christ to take this screenshot. He knew then I would need to use this as evidence today.

I was then told to go downstairs to confront my F001. He did not do anymore than shout at me. He mocked me.

He made me grow angry. I shouted at him. I told him as he played the piano ignoring my pleas for him to stop what he was doing that he would burn in hell.

This was wrong of me to do this, I am sorry to Our Lord and to my F001 for saying those words this night to him.

My F001 then went to bed, and Our Lord spoke to me all night preparing me with His Truth for what was to come.

They did no more than slander me the next day in front of the mental health practitioners.

My F002 and F001 sat down on their chairs when they arrived. There was a male and female mental health worker. I gave them words I was told to write by Our Lord Jesus Christ, an account of the gifts I was given the previous day in central manchester.

I asked them to read what was written and they refused saying it had no importance.
I asked them again and my F001 told me that they did not want to read it.

I asked a third time, shaking knowing what was at stake. They began to read what was written as they questioned me.

They ignored the meaning of what was written.

They said I was angry. They said I was agitated. This is true.

Anger for repeated abuse after everything that had been done to me by my parents is not a crime. It is not a mental illness. I went no where near those people or my parents. I was sat on the other side of the room.

There was no fear they had in nodding to my F002, causing her to break down in tears. They had planned my incarceration and had given their sentence at this moment.

I then was told by God to take my stereo outside into the garden from where I listened to music given to me by Our Lord Jesus Christ in the days leading up to this. I played it out loud and stayed sat down peacefully listening to Our Lord's words in the garden too.

He showed me a clock behind me on the summer house which did not have the correct time. He told me to know the hour later in the day when my freedom would be taken from me. The hour it would happen would be 3 O' Clock. The hour of His Mercy.

Many hours did I wait in the garden waiting for the police and mental health practitioners to return.

They returned with many people. There were 4 health workers and 2 police officers inside the front room. I was asked to go inside by Our Lord, I went inside and sat down peacefully. I greeted them warmly and smiled.

I was told by the lead mental health worker to listen to what she had to say. She told me that I could voluntarily go into hospital and they would observe me for a couple of days.

I accepted, because Our Lord told me to.

He told me to agree to their terms.

The lead mental health worker went into the kitchen and whispered quietly with my parents. The door was closed. I could hear only whispers.

I turned to the police officers who were in the dining room behind me and spoke what I knew was true. I told them of a suspicious charity which was revealed to me in His Spirit as sinful a week prior. This charity is indeed sinful. I asked them to investigate, they did nothing of the kind. This so-called charity still exists today, they are committing crimes and I have seen this in their annual accounts over this last several years. Our Lord Jesus Christ told me to look there in January 2019, and I saw what was true. He proved this to me.

The Police officers took no notes of what I told them. They humoured me. It was visible to them I was happy and content. They saw no anger, no slurred speech, nothing but religious persecution from the mental health workers were they about to witness.

The woman who was about to sign papers returned into the room. She questioned why I had accepted voluntary admission, I had not yet told her Our Lord had told me to do this.

I replied to her what is true. I said to her: 'Our Lord has told me to go hospital voluntarily. I obey Him. As anyone should.' These were the words I used that day. What was to happen next was startling.

It is not surprising a servant of God, receiving God's Truth in His Word would obey what He hears. It is known by everyone Our Lord is Our Lord Jesus Christ. He is good.

At the moment I said those words to her, her face grew long. She spoke to me and told me that she could no longer let me go voluntarily to hospital for a couple of days, but instead must commit me under a two month section with forced treatment. I asked her why this was and she replied to me, there was nothing more I could do at this point. She told me that I was listening to the Lord God, He was commanding me,

I had no free will. This was not true. It was plainly not true. It was an injustice. She was saying what is farcical. It is clearly persecution of Our Lord Jesus Christ. This is a crime.

How can someone in their right mind not understand what I told her? I told her through my own volition I was obeying the Lord God. What if I told her I would obey my parents? Is that not free will too?

She wanted to commit me and treat me. This was her intention.

She found an excuse to do so.

This is what she did.

Everyone there that day sinned against Our Lord by allowing this to happen.

I went peacefully without belongings except for my Bible to the ambulance waiting outside and I spoke His Word to the ambulance drivers from The Holy Bible. I asked the nurse sat with me in the ambulance repeatedly to question why they were taking me to hospital when they could see there was a crime being committed by themselves. Not a single person in the NHS brought justice to me.

What happened next in hospital was incredible. Our Lord was with me throughout my suffering.

April 2017

After 3 weeks in incarceration for something which was not true, I pleaded with my F002 and F001, my F001 being my Nearest Relative under the Mental Health Act, to discharge their right under the Mental Health Act to release me. I had already suffered abuse in one NHS hospital in Bolton. I had visible bruises on my arms from their restraining of me one day. I walked gently forward past a nurse who wanted to blockade the corridor to prevent me leaving my room, they used excessive force. My parents wrote a letter to the doctors and asked me to be discharged. The doctor, Dr Maniyath, raised concerns because she wanted to keep me there, but they gave in and allowed for this release.

They did not however release me from forced treatment at all. They committed a crime under their own laws. They were supposed to release me from a section.

They forced me into the care of another of their teams, the Home Based Treatment Team. I did not know even that this was compulsory. It should not have been according to the Mental Health Act.

I was told by Our Lord Jesus Christ to write what was titled a Framework for Care. In this letter to my parents and the Home Based Treatment Team I gave simple requests to my parents and to the teams. I asked the teams to refer me to the psychological therapy of the Priory in Cheadle where I had had a nice encounter the week prior, the second of three hospitals I visited in the first section.

They were generally nice people there and I wrote to them and thanked the kitchen manager for the work he and his team did for me and the other patients. He was a wonderful care worker who truly looked after people he was caring for.

There were others in the Priory who sinned too. This will be spoken of elsewhere.

The psychological therapy they provided was not what I wanted. I wanted to bring home their leaflets to help my parents.

I made this clear to everyone I spoke to.

I phoned the GP and they wouldn't refer me. I phoned the Priory and they wouldn't let me self-refer. There was nothing I could do about this. It was not possible to do what I wanted to do for my parents. To go to the other of the Priory's clinics in Hale would have costed thousands in private fees, and I could not afford to do this unless I worked. I was told not to do this by Our Lord.

Also in the Framework for Care was a request to my parents to leave me a room downstairs where I could freely pray and sleep without being disturbed as I was the previous month by my F001.

They vehemently denied this request and both the Home Based Treatment Team and my parents accused me of suffering delusions trying to request something which is plainly and obviously a request for peace. There was an argument in front of the Home Based Treatment Team and my parents grew very angry. I did not raise my voice at all. I waited patiently for all of them to calm down and listen again to what were simple requests for peace.

This should have been taken at face value. Instead they have written about it in my medical notes as a sign of mental illness, and they used it as evidence against me in further sections they were about to perform.

My parents started to say from this that they regretted releasing me from hospital. They began their quest to put me back there. A few days later they did.

That Saturday morning I went to Confession with my Parish Priest. I was told by Our Lord not to stay in the confessional but to speak to the Priest instead. I was told to give Him words from Him. I was very nervous and the Priest saw this. I was shaking with fear of being incarcerated again.

I told the Priest what had happened and he offered me an appointment the following Tuesday morning to visit him and talk

further. I asked him to keep this confidential, but also to speak with my parents as they would need the Peace of Our Lord in my Parish Priest's ministry in the coming weeks and months.

This was to be made known to my parents what I told the Parish Priest.

This Parish Priest should not have done this, it was spoken of in confidence. I forgive him of what he did that day, it was to be so. He needs to speak to Our Lord and ask for His Truth about what went on in those days.

I was told to go to find some coffee at a shop next to St Josephs in Sale. I spoke to the woman in the shop about the Parish Priest I had seen and Our Lord gave me words to say to them. I spoke to them about my incarceration. I told them I was His disciple. These things were said and they were true. I was looking for a photo frame for my F002, to place a photo of my late grandmother in.

I was then told by Our Lord Jesus Christ to take photos from the next road down of the Church Spire of St Joseph's. I took these, as Our Lord told me to, to the Priest again. He looked at them and knew not what they meant. I told him the words I was told to say to the Priest, that there was a man who lived in these houses who needed his help. The Priest knew not what was meant, nor did I. I have been told today what this meant. I was this man. The Parish of St Josephs and Holy Family is the Parish this Priest is serving. I needed His Love. I needed His Comfort. I needed His help.

I was told by Jesus to go to the front of the Parish and wait for the man who needed help. I kneeled in front of the image of His Sacred Heart and asked for help.

He then told me to move to the back of the Church and wait for someone to enter. I was expecting to see a man enter the Church but no one came through the door I had expected to see. I was told there was a man waiting for help that day, and no one helped him. This man, I now know, was me.

I was then told by Jesus to walk towards Washway Road via Chapel Road. He showed me where this clinic was which I would have visited once in the previous 5 years. I went to Sale Library first because I was asked to do so by Jesus as I left the Church.

He told me to ask them if they had a religious education section. The librarians told me they had been told to remove it by the council. This is wrong. It is the case that not even a single Bible was in this library, when there are many sinful books which even children could pick up and read.

He then walked me to a local pub on Washway Road called the Volunteer. I sat down after asking for a menu. The lady behind the bar served me the gifts I was given this lunch time by Our Lord Jesus Christ, chicken nuggets and chips. I prayed to Our Lord and thanked Him for this great gift this day.

I was then told to thank the lady behind the bar and was taken to Dane Road after visiting a bike shop. The man in the shop and I spoke of the incarceration I received and I told him I would one day send him a book. This book will be received by this man one day.

There was a fold up electric bike there I wanted and I asked the man how much it would be. It was too expensive for me to buy. I wished him God's Blessing, as I was asked to do by Our Lord and Saviour Jesus Christ. He told me words I can no longer remember about how the Lord was with him in his life.

God took my feet to the newsagents before Dane Road and I used my remaining money to buy a small pack of cigarettes. This was all I had after the previous incarceration by the NHS.

I called my F001 and asked him to pick me up in his car. He sounded agitated and nervous about my sanity having arrived just a few roads away at Dane Road from where I was going, to St Joseph's Parish. This day was a peaceful day until the Home Based Treatment Team arrived that afternoon.

The next day, Sunday, I was warned of what was about to happen again. I was told by Our Lord Jesus Christ to wipe my computer of everything I was about to do. I did not have time to do this before I left the house in an armoured police car on Tuesday.

I was told to book a flight which I paid for on my credit card with Opodo. They honoured the booking. I had not been told not to travel by anyone in the medical profession, by the state or by the police. I had not been told I was under any limitation of my human right under European Law to leave this country.

I booked a flight to New York.

The following day I made phone calls to try and refer myself to the Priory to receive the psychology leaflets I wanted to give to my parents. I booked an appointment with my GP, D837. He told me in the telephone appointment I had with him that no one could restrict my travel plans, I was free to leave, I was not under section, I had no obligation to remain in the UK. He wished me well on my travels. He told me he heard no sign of mental illness and I asked him to write to the Home Based Treatment Team to formally discharge me. He said he would do this, but it became apparent that he has not done.

I reminded him of what he told me when I first saw him again in 2012, the first appointment I had with the NHS. At the time he warned me of my F001. He told me he was an overbearing F001 and to be careful of him. At that time he told me not to worry, things would work out.

I thanked him for the appointment and for his help and told him my parents would need help from the surgery in the coming weeks and months when they suffer the stress and anxiety that was to come to them from what they were doing, and the departure of their son from the family home. This was not my doing, it was theirs. Pray to the Lord God to take away your anxiety, He will speak His Truth when you ask Him.

This day I was told by Our Lord to print many emails which were to be used in evidence against the NHS of what they had done to me. I

had prepared them into folders with different titles relating to who I was at different time periods of my life, there was in those emails clear proof that I was a high-functioning person professionally and was not in need of their care.

The Home Based Treatment Team arrived uninvited, a man and a woman. They did not fully introduce themselves. They did not tell me they were doing a mental health assessment. This is what they seemed to be doing from my medical notes. One of these people was a psychiatrist, there was no reason for him to be there.

They were asked by me to read what was written.

The woman took one of the files and flicked the pages and closed it 2 seconds later.

She read nothing of what I had prepared. She had no interest in reading about me.

They took action against me this day because I was preparing a case against the NHS. They labelled this mental illness.

People in the NHS don't really know me. I often talk quickly, sometimes I talk slowly. When one is passionate about something, one talks a bit faster. They used this as evidence of a mental illness, again.

This was wrong of them to do this. They have slandered me in my medical files to every doctor since.

That evening I wrote a letter which was never sent to my Parish Priest because I was told by Jesus not to send it after what was about to happen.

I was told by Our Lord to be strong and to reveal to my parents that I was about to leave to New York to start seminary. In truth I had not fully arranged the details at this point. I intended to stay in the retreat centre there for 2 weeks and to find work on a H-1B visa I knew I would be able to find with my CV. I was escaping this oppression of the British Government and I did not have intention to return, however a

return flight was intended to be booked. I would have had to return to Europe in any event in order to apply for an extended visa with the US Consulate. I had been given right to leave by my GP, it is in any case a basic human right, protected by the European Court to be able to leave the country and travel. I ended up not even leaving the house after what my parents said to the mental health teams.

I went to bed, peacefully and thought I was safe. I told my parents that I needed to go, that there was no more they could do to stop me. This was my calling, I told them, and I needed to do this.

I slept from 10:30pm onwards into the early morning.

I woke at 4:30am to go to the bathroom. I saw all the lights on in the house and wondered what was wrong. My parents door was open, they were not asleep. I went downstairs calmly and saw my F002 crying and sitting down worried.

My F001 was angry and was preparing something in the kitchen.

They had both been awake all night they told me, from what I saw I had no reason to doubt this.

They told the mental health teams later this day that I had been awake all night.

This was not true. It was a lie. They knew it was a lie when they said it.

I proceeded to talk with my parents and calm them down until dawn. I pleaded with them to make peace with Our Lord, I asked them to sleep, even if they didn't want to go to bed. They refused. They were angry.

The following morning, it was Tuesday, I went to the Parish Priest again. I was told by Our Lord to tell my F002 to park just outside the Church and to invite my F002 into a meeting with the Priest. The Priest questioned why this was as he did not understand why I booked this appointment.

The Priest spoke to my F002 and told her he thought I was mentally ill.

This was wrong.

I left after this happened, as Our Lord had asked me to, and walked to the store close to St Josephs to have a coffee. There I was greeted by the shopkeeper's daughter who knew of what happened a couple of days prior in her mother's shop. I was looking at photo frames again and decided to buy the one I was told to buy by Our Lord.

I phoned my F001 before entering the shop to warn him that he might need to collect my F002, she was in tears.

After I went outside my F002 found me where I was and she took me in her car.

When we arrived home we started to talk more.

From here my F001 interjected angrily whenever I and my F002 began peacefully talking and I asked my F002 to pray to Him.

He stood in the kitchen at the doorway and I turned to him and asked him if he could wait elsewhere.

My F002 told him to leave the kitchen and go outside. He then did exactly that.

He was not instructed by me to walk out into the garden and sit there for several hours, nor did I want him to be sitting in the garden doing nothing. He waited in the garden and claimed it was cold. It was April, the sun was not shining but it was temperate. There is a summer house he could have stayed in if he wanted to. He could also have easily gone into the family room on the other side of the house and played his piano. This is what he would have normally done to leave a conversation he was not invited to take part in. He did nothing but belligerent actions just to prove a point. There was nothing stopping him from entering the house either. He was not cold, he was not hungry, he was not banished from the house by me or my F002.

I talked with my F002 in detail and pleaded with her to stop what they were doing. At times she started to be peaceful, then she sat and let her

anxiety and thoughts overtake her and she became angry.

Eventually she told me she would do no more for me.

She did not believe me.

By around midday I was told by Our Lord to find my F001, it was strange that he was still outside sitting peacefully on a garden chair. What I learnt from the medical notes about this day is that he told them I physically threw him out of the house, that I had been violent towards him. This is entirely untrue. He had no bruises because I did not touch him. He was lying. They did no more than take his word to be true. There was no evidence for what he said, there was no basis in truth for what he told the mental health teams. It was a lie.

They told my F001 to inform the Police if I attempted to leave the house to the airport. They said to him that they will section me if I attempt to board a plane under section 136 of the Mental Health Act. This is what is written in my medical notes. I have not been given access to them by the NHS anymore, but I did have access to them during this incarceration.

I took a muesli bar out to my F001, as I was given instruction to do so by Our Lord. He saw me outside and immediately rejected the food and asked me if he was allowed back inside. I told him I had not expelled him from his own home. I did not block the door, he implied to me that day that I was doing this. This is not true.

What was fabricated this day by my parents was no more than to limit my freedoms. I told them I was leaving to New York, they were angered by this and lied to the NHS.

This was wrong.

I was invited to the table at lunch time at about 1pm to eat food with my parents. I very much enjoyed their company in this meal. They made food which I enjoy, pizza, they knew to make this for me that lunch time. I should have seen through their actions but I did not. I was happy they had calmed down. Looking back, they were clearly

quite guilty about what was about to happen. I could see that in their expressions on that day.

Then gifts had arrived for my parents which I was told to buy from Our Lord Jesus Christ. My F001 signed for these gifts and there is a time stamp on the signature I received by email. It clearly says Mark in the signature, my F001 signed for this package. The time was 2:34pm on the delivery receipt. My F001 was in the house at this time.

I showed them the gifts Our Lord had given them. I asked them to venerate Our Lady by placing the image of Her Immaculate Heart in their living room, to place His Crucifix on the mantelpiece. I then went outside for a cigarette.

When I returned inside and talked to them about the Crucifix I had been told to buy them, the house was filled with police officers and mental health workers.

I knew it was time to phone for a lawyer.

I said not one word to the mental health practitioners other than to ask them for legal assistance from any lawyer I could find before they conducted a mental health assessment. I scrambled searching for anyone who could help me at short notice. Clearly this is impossible without the help of those teams who were taking me away at a moment's notice.

They began scribbling in their notes already, without asking a single question to me about me. They told me they were conducting a mental health assessment, but I remained silent. This is not just or fair.

They went into the kitchen and whispered again to my parents. My parents signed a form.

No one came to help me. No one asked me any questions about me.

Our Lord eventually told me when they grew impatient waiting for a solicitor after 30 minutes to quietly resign to what they wanted and walk outside again into their armoured vehicle. They had already

brought this with them knowing what already the outcome of their mental health act assessment they were supposed to perform. It was clearly in violation of even the Mental Health Act.

I was treated like a criminal with no legal justice. Even a criminal is allowed a lawyer.

They took me back to Moorside Unit where I was incarcerated under a fresh Section 2 for at least 2 months. I was there in this period in hospital from the beginning of April to the end of June with no leave at all for 2 months.

They never let me go after this. I am still on their books this very day. They never let anyone leave their system. It is unsafe for me to return to the United Kingdom as a result.

I witnessed many injustices in Moorside Unit, many violations of basic human rights. They did not respect me or other patients.

They routinely take people who are on two-month Section 2's and convert them with no real reason to a six-month Section 3. This is what they did with me, it is what they do with most of the patients under D293's team. I saw this. Those voluntary patients who tried to leave were sectioned. It is known by the patients that they do this. It is systematic injustice.

Early during my time in the Moorside Unit I expressed several times to the nurses and the doctors that I had been 'undiagnosed' by a doctor named D082. He released me in April 2015 from the Early Intervention Service. It was in any case coming up to the end of my forced treatment with them. This is the medical file I have from that meeting:

It should be noted that this doctor officially stated in the meeting where the doctor, I and C000 were present that I showed no signs of a mental illness. He acknowledged the words given to the service by Dr Thomasini in March 2012 and did not question the diagnosis that doctor had given outside of the UK. This is what has happened over 7 years. That original diagnosis has never been truly questioned by the medical profession.

In my sixth incarceration in March 2019 I have asked the nurses to ask C000 who is onsite in an interview with a patient today. I have asked N003 to witness this statement and asked him to help me get myself free.

I then showed this to C000 himself on 22nd March 2019 as I was incarcerated again by the NHS. And he did not deny it was an undiagnosis. He shook my hand and I made him know that it was from this note he needs to tell people there is something wrong. Yes, C000, please do help people here by actually sitting down and talking. As I left he apologised to me, for me being here still 7 years on.

It remains to be seen whether anyone here in the NHS will listen to what is true.

October 2017

I made two visits to my GP in Scarsdale Medical Centre in the weeks prior to my incarceration in October. On both occasions I spoke the truth and gave them words which Our Lord told me to say. On the second occasion the GP wanted to go to a trained mental health doctor in the practice and ask to get a mental health assessment. I told him no more than I was called by Our Lord and that He was speaking to me. He believed from this I was mentally ill. This is religious persecution.

My sibling and sibling-in-law F003 and F004, both practitioners in a field without a number in my diary, not trained in mental health, both visited for a weekend and I hosted them in my then apartment. I cooked for them a roast dinner from Waitrose on the day they left. I was told by Our Lord to tell them the truth, that Our Lord had continuously spoken to me since March 2017 and was telling me then to help homeless people on the streets of London.

I warned them not to tell my parents as they would be wanting to incarcerate me again. My sister failed to act on my instructions and she went behind my back and told my parents I was mentally ill.

I then later in the week confronted my F001 on the phone and told them what was true. He knew from me first, I thought, but he told me he had already been informed that I was mentally ill. My parents then proceeded to make the assertion that I was not on the medication they had asked me to take which was not mandatory. It was true that I had stopped taking my medication by the beginning of September. There is no reason to take medication when one is not ill.

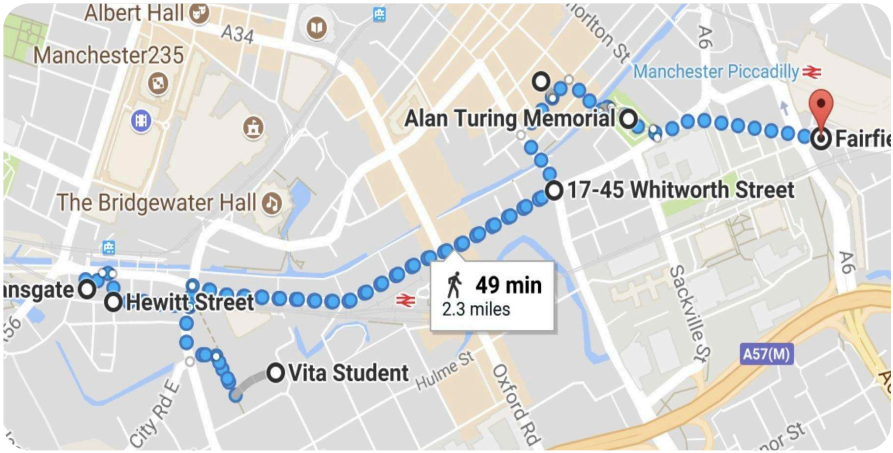

After I left my job in the Daily Mail through instruction of Our Lord Jesus Christ. He told me there was no more for me to do there. I applied for another job and was turned down as Our Lord told me I would be, I didn't have the necessary skills in an area of software I did not fully know at the time. I was told to be truthful and then polite to them when they turned me down. I told my parents I would return home for a few days to speak with them and try and calm them down, to stop them harassing me about their belief I was mentally

ill. They had been harassing me on this occasion for over a week beforehand and would not stop. I had calmed them down prior to this by remaining silent at home over the summer.

When I arrived in Manchester and during my visit there I was very peaceful, praying in front of them and telling them to pray too. I was told by Our Lord to say some things to my family which were very peaceful. They got very frustrated that I refused to listen to their claims of mental illness. I remained calm when they did this. On the Saturday when my sibling and sibling-in-law were in Manchester and giving my parents their personal opinion in front of me, after they had gone, my parents got very wound up. I asked them if they would like me to leave Manchester and return to London. After three questions of this kind and a lot of angry words from them they eventually told me I had to go. My F002 was at first reluctant to say this, my F001 was insisting I should go from before I asked this question. I was still welcome by my F002 until she said to me on the third question I asked her.

I picked up my bag Our Lord had asked me to prepare for this that morning and made my way to the train station. The journey took about an hour. I left the tram at Deansgate Station and was taken by Our Lord Jesus Christ to sit down and drink what I wanted, a soft drink from a local bar. He then told me to phone my parents on the way on FaceTime, I told them I did not know where I was. It was very clear to me then that I was mocking them for not believing that Our Lord was with me, I didn't actually laugh at them on the phone. They believed I was lost and offered to come and find me when I was two blocks from Piccadilly Train Station. When I arrived in Piccadilly I bought milk and chocolate. This was because I was told to do so by Our Lord, I showed the gifts I had been given to my parents again on FaceTime at Piccadilly Station as I smoked a cigarette and told them how foolish they were being. It was very clear I was on the shortest route from Deansgate to Manchester Piccadilly. There is only a very small detour through an area I sat down to phone my parents, a place I would later be taken to by Our Lord to help one of His Servants with temporary accommodation the following year. It was exactly that road I phoned

them from and told them I did not know where I was at first. It is the road next to Vita Student, which I also visited as I was asked to by Our Lord Jesus Christ to see if they could rent me a room for a couple of hours to have a shower, as I had not had one that day. This is the map of my journey that day.

They later in the incarceration of this month gave evidence to the Police and the mental health teams that I got lost in Manchester. This is clearly not the case. They had evidence themselves to the contrary, they saw place names and very visible landmarks that they could easily see I was on the right road. These roads were not known to me at that time, I had not been into central Manchester very often at all in my life.

It is plain for everyone reading this that I could easily have used any map provider on my smartphone to find my way to Piccadilly Station. I was told not to do this by Our Lord Jesus Christ and it was to prove a point. It is clearly not the shortest straight line route, but it is the shortest path that I took. An expression my F001, a mathematician, would comprehend as I told him when I arrived at Piccadilly Station. There were places I visited on this route which I was to see later the following year when I was shown them again by Our God.

That evening I was taken by Our Lord Jesus Christ to the street outside the emergency room of Westminster and Chelsea Hospital. I went

inside and wondered why He had brought me there already. I sat at the front of the room by the window listening to what I was told to do next. He gave me increasing desire to witness a miracle He had told me about in my diary might happen, that my left deaf ear might be healed. This was not to be, not a single medical practitioner has wanted to know I am being spoken to by Our Lord. They all just want to say I am mentally ill, it is more convenient for them to do so.

I went to the reception and told them I was being harassed by my parents, these were the words I said to her, I told her I was being accused of mental illness by my parents but it was in fact religious persecution.

The woman treated this as a priority case with a full waiting room.

I was seen by a triage nurse who took details. I asked him to take no details at all, I was there for a hearing test. I asked them to phone my parents too, they refused to do so as it was late. They told me I could phone them later once I had been seen by a doctor.

After spending some time talking with another triage nurse specialised in mental health I was shown a notice board on the wall of the emergency room by Our Lord and He showed me a diagram depicting the various stages of admission and treatment for mental illness. I was not represented even to the beginning of this diagram.

I told the triage nurse this and told her I was going to leave. She had not actioned my request. I told her I did not want to be locked in a cage and refused to have a mental health assessment.

They then proceeded to barricade me into the emergency room behind locked doors I tried to open, touching my person to try and restrain me from leaving. I told them not to touch me and they did not touch me. They would not move and I could not exit the door because I knew it would require me to push them out of the way. I grew angry at being locked in a cage. I had not received a mental health assessment, I had told them what was true, and I was treated like a criminal.

I walked around the nursing station several times to avoid any of the nurses going near me. I was told to do this. While I did so I was told to pray His Prayer of Divine Mercy out loud by Our Lord Jesus Christ. I began to stumble when I grew angry at what they were doing. I was told to say sorry for getting angry by Our Lord Jesus Christ.

There were police officers there and they did nothing to stop me moving around the ward. They stayed by the bed side of a patient they had in their custody.

At one point I tried to enter a lift and went to another floor where I wanted to find another route out of the hospital. I could not open any doors and they escorted me back downstairs. There was a nurse who told me it was a pleasure to meet me, from the emergency room. He made out as though he knew this was wrong. I went back with him to the emergency room and walked around the nursing station again.

At some point they phoned my parents and one of the nurses put the phone to my ear. My parents were confused as to why I was there. I told them no more than they had barricaded me in for speaking what was true. I left the phone with the nurse so that they could speak together, it was for the nurse to hear this persecution herself.

Soon after this I found a route out of the hospital when they were distracted. Our Lord told me to leave that very moment and press the green button on the door to unlock the door they had barricaded before. I walked calmly away from the hospital down the road.

I caused harm to no one. I laid a finger on no one. I prayed out loud in an emergency room. This was not a crime. This was not my disobedience to the law, it was theirs.

I was told to walk several kilometres around Chelsea and Kensington until the early hours of the morning as I was told people would be searching for me. I did not know where I was, Our Lord was showing me the way around the back streets of London. He kept me away from main roads. I met a Muslim man that night and talked about his desire to have a woman in his life. Our Lord had words to say to him, He

gave him His Peace. We met each other several times on the streets of Chelsea that evening in between Our Lord sending me to shops to buy drink and cigarettes for myself.

There were several people this night who witnessed that I was mentally well.

After dawn Our Lord Jesus Christ told me to go back home to bed. He showed me the way back home. It was not a way I knew through one of the universities. I rested for the rest of the day. I woke to sounds of knocking and heard my F002's voice calling my name. She tells me she was not in the corridor of the building knocking on the door. It was my F002's voice. I was awake. Our Lord was warning me, He told me so.

My parents arrived that afternoon in London at the Tara Copthorne Hotel just a short walk to the end of my street. I asked them for food and they declined to provide me anything to eat in their hotel. I was told after this to buy my own sandwich there, the gifts I was given by Our Lord Jesus Christ and sat on my front steps of my apartment building eating and drinking what I had been given.

I then went back to the hotel and spent the afternoon with my parents.

I had given them a gift of Honey Oat Muesli, Dorset Cereals which my F002 likes. I like it too but I was told not to open the pack after my sister had refused to take these gifts for breakfast. It was bought when I went to Waitrose for that visit. I was told to buy it by Our Lord. I then was told to go and buy fresh milk for my F002. This was for her to see this sign again. It was plain for her to see God’s Providence. Milk and honey. This is the same gift I showed to my parents several times, a sugary drink, chocolate and milk, when I arrived at Piccadilly Station.

I knew what I was doing.

The following day I witnessed several times my parents discussing with the Scarsdale Medical Practice information they believed was theirs to give to them. They were slandering me with their false claims of mental illness. I witnessed the doctor in a private meeting with

my parents about me, I had given the surgery express warning not to disclose any information to anyone about me. They received this as a letter a few days before and Our Lord told me to deliver to them personally.

There were patients in the waiting room of Scarsdale Medical Centre who seemed to scowl because they were disgusted by this family dispute. There was a young woman in her mid-20s who sympathised with what I had described was happening to me to my F001. She spoke to me and told me, knowing my F001 was listening, that she believed in His Miracles and her sister had witnessed many things she could not explain in her life in any other way. She was a Christian. She knew what I described might be true. She was backing me up. It is not true that everyone in the waiting room heard me praying loudly as my F001 reported to the mental health teams. This was another of his lies.

My F001 later described what happened as nonsense, that I was agitated in the waiting room. This was not true. I was speaking with my F001, I was not shouting, I had not a raised voice.

When I found the doctor discussing me in front of my parents behind a closed door, I knocked on the door, not banged, and they invited me in. I told her in no uncertain terms to not discuss me with my parents. I told her she had gone against my instructions to the practice. She then kept trying to negotiate with me to sit down. I refused and I told her I was not to be treated by anyone. I asked her 3 times if she understood me, she kept on interrupting me. Each time I said it I grew louder and could have appeared angry to her. This is not a surprise, she did not respond to my question and was acting against my instructions to the practice. She failed to discharge her duty of care in acknowledging my human rights. I was being persecuted for my Roman Catholic faith. They knew already this was what I had claimed and they were acting against my human rights. I believe she broke the law by discussing a personal matter about me with people I had given them no consent to talk about me with.

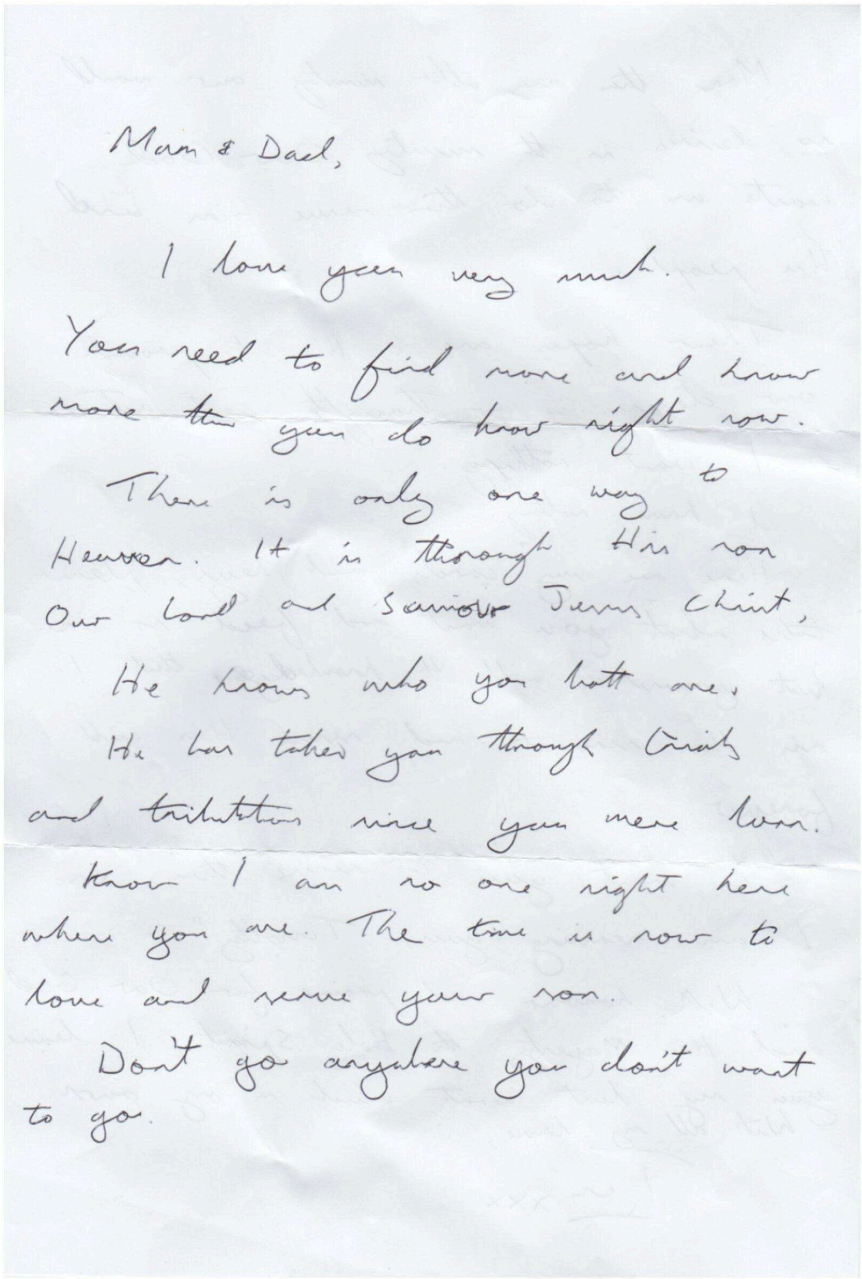

The doctors in this practice then proceeded, it seems, to raise requests

for a section the following day. I believe my parents were involved too with the London Crisis Team.

I was told to write to my parents by Our Lord Jesus Christ. The words He gave me to write were from Him. They were written in His Spirit.

I was told to take a two week Pilgrimage to serve people on the streets with nothing but prayer. I wanted to leave my posessions safely behind, and this is what I've done again since.

The following letter is a scan of the letter I left with reception at the Tara Copthorne Hotel on Wrights Lane, Kensington in London at about midnight that evening.

Mom & Dad,

I love you very much.

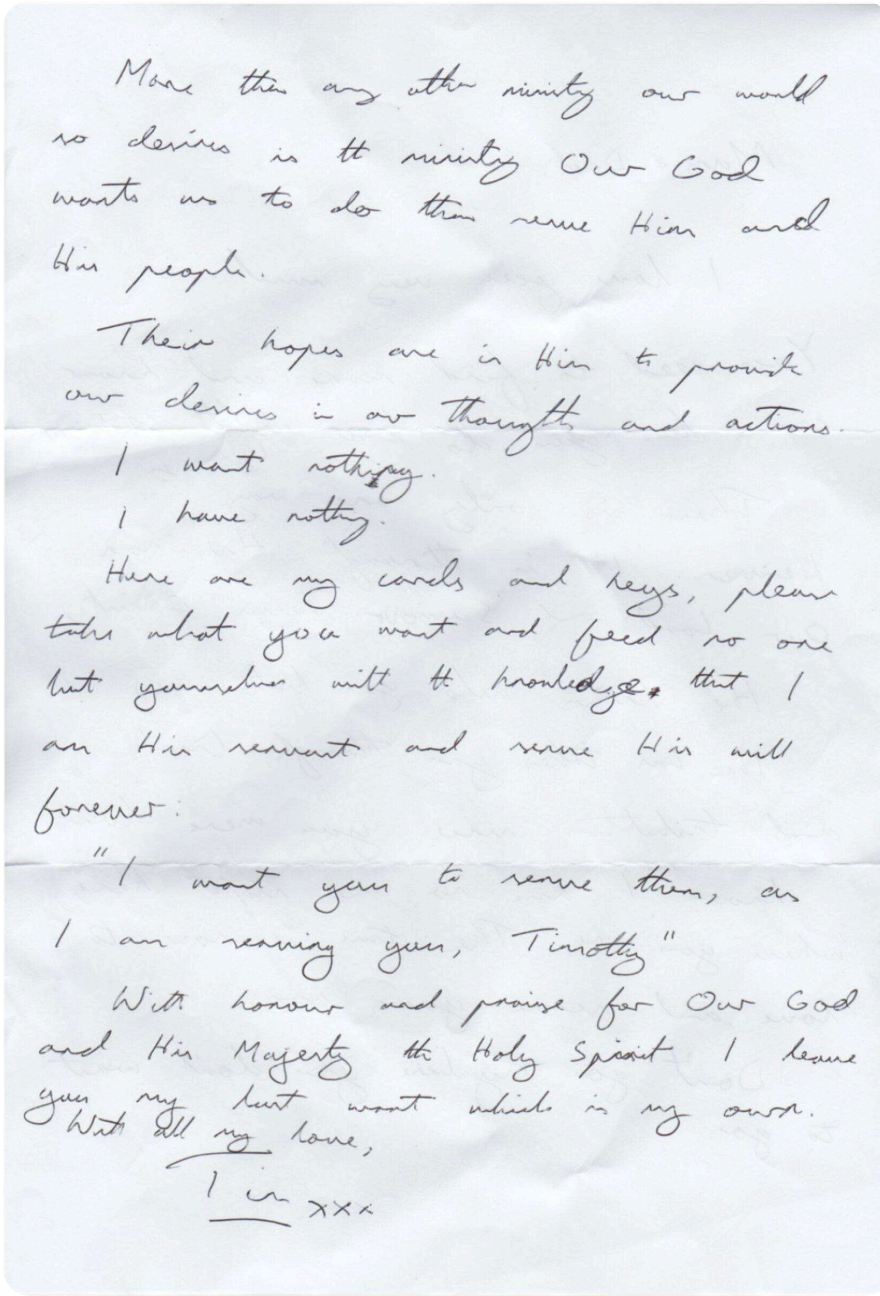

You need to find more and know more than you do know right now.

There is only one way to Heaven. It is through His son Our Lord and Savior Jesus Christ.

He knows who you both are. He has taken you through trials and tribulations since you were born.

Know I am no one right here where you are. The time is now to love and serve your son.

Don't go anywhere you don't want to go.

More than any other ministry our world so desires is the ministry Our God wants us to do than serve Him and His people.

Their hopes are in Him to provide our desires in our thoughts and actions.

I want nothing.

I have nothing.

Here are my cards and keys, please take what you want and feed no one but yourselves with the knowledge that I am His servant and serve His will forever.

"I want you to serve them, as I am serving you, Timothy"

With honour and praise for Our God and His Majesty the Holy Spirit I leave you my last worst which is my own.

With all my love,

I am xxx

There is nothing sinful in what I wrote this night. I wrote words from Our Lord Jesus Christ. Every word written is for His Church.

It clearly states in this letter that I am taking some time to serve Our God. It says so in quotes, these words were His. Every word was given me to write, but those in quotes are from Him, of Him and with Him. It is His Word.

I was told repeatedly after writing this that I had sent a suicide note. They picked up one phrase from The Church: 'There is only one way to Heaven. It is through His Son Our Lord and Saviour Jesus Christ.' This is Church Teaching. It is not a sin to tell someone what is written in His Truth. It is not a crime either.

What is quite criminal in Europe and most countries in this day is to tell someone they are committing a crime, which suicide is, by writing what is plainly true, the Truth from God.

This is not a suicide note.
I was not wanting to commit suicide.
I had no intention to commit suicide.
I would never commit suicide.
There is nothing I have ever said, written or intimated in any way that could be known to be true of me intending to commit suicide.

The statement made by the Tara Copthorne Hotel manager to the Police was not valid as evidence. They read a few words from this, not even one sentence, and intimated their own understanding of what is true. This was not quite sinful, they knew nothing about me. What was sinful was that I left this letter in an envelope, it was not sealed, but it was clear to everyone including what the Police knew as evidenced in the report which follows that the hotel manager nor the receptionist should be reading mail not addressed to them. This was to be delivered to my parents, it was sent to their room in the night. It should never have been read in the first place by anyone but my parents.

I did jokingly say, without realising what this receptionist would do, when I handed her the letter and she agreed to ask the night manager to send it to my parents room that this was my last will, and I added as a joke my testament too after pausing. This was foolish of me given the

current climate and danger I was facing at the time, however I should be allowed to make tongue in cheek comments and use the English language as anyone else does. This was not even recorded anywhere and I say it to you now to explain why this woman might have needed to open the letter.

It is certainly the case that it is a testament to what I was about to do. It also speaks in my words, which I was also told to write by Our Lord Jesus Christ, of my last want which I gave to my parents, this was not anything this woman might have understood if she did not know the background to how I was speaking in those days and today. Put simply, will is want. It is known this is true. It is from Our Lord Jesus Christ I know this. This explains why they did not really sin, but it was still quite sinful to take His Word out of context of the entire letter.

After the hotel manager spoke to the Police, the Police did not ask to see the letter. They did not inspect the context of what was said to them. They took their own opinion from here on.

From the Tara Copthorne Hotel I was told by Our Lord to walk to the gates of Hyde Park next to the road where all the embassies are in Kensington.

On the way I was told to buy my last meal using Apple Pay before exhausting the remaining money I had. This was a nice bacon and egg sandwich and a small box of ready salted pringles. I had no thirst, Our Lord did not provide me with thirst as He had shown me He does for me before and has done since then too.

I had one cigarette from a homeless man outside the shop who kindly offered me a cigarette and I made my way to Notting Hill past two guards as I walked past the embassies. I wanted to say good evening to them, but I was not able to, Our Lord stopped me from doing it.

I was told to cross the road right beside those two officers, it was plain for them to see I was happily strolling up to Notting Hill. I was wearing my slippers, it is a valid footwear. There were a few stones on the road on the way on this walk which I was guided around in the dark by Our

Lord Jesus Christ. He was with me. He was talking to me. He told me to do everything I did.

The slippers were particularly highlighted in the following Police report by the officer PC Mark and others it seems, however it really is the case that they were predisposed in calling me mentally ill from the initial call they had received, this is evident when you see the order of events at the switchboard. They told each other on the switchboard that they had a possible suicide threat.

As I have said, this was certainly not the case.

Wearing slippers for a stroll up from Kensington to Notting Hill is neither suicidal nor a mental illness. I was aware of what I was doing. I was allowed to do this in law. There was no reason to debate my choice of footwear one evening in a formal complaint I had raised with the Police as evidence further on.

While I have been in Italy this year my F001 said to me when the Police visited him one night that their Constable had witnessed my footwear again. My F001 said he had taken note of it in his notebook. I was at home at the time, probably posting a letter just about 50 yards from the family home in Sale Moor. I would have gone to the postbox late in the evening, posted a letter and walked back. What is it about my slippers the Police do not like? Surely I am as an adult able to determine the footwear I want to use. Is it the case that all people around the world, even in for example Johannesburg, even wear footwear? I know this is not true. I was in South Africa in 2006. I was even told not to wear footwear in the Transkei, it is what they do. It is my choice to determine my footwear. It is my free will to choose. They even have mamba's in the Transkei. Oh yes, and I was never ill.

Silliness this was. What was to come when they detained me was far from games.

I arrived in a road in Notting Hill and I did not know where I was going. I was told by Our Lord of all of the parks He had shown me in London which were locked shut except to their local residents. He

told me that they should be open to allow people who are homeless to sleep there. This is what I wanted to do, to live for two weeks with people who are homeless to help them with His Word. The park He then showed me had the gate unlocked, someone had not closed it.

I was with God. He knows where everyone has opened a gate.

This was what I wanted to do. I was given this want by Our Lord Jesus Christ. He was with me. He told me to do everything I was doing.

It was known already that I was taking walks in London, not in my slippers, but with barely anything but my phone. I had Apple Pay. This was the end of 2017. It was written in my diary. I had told my GP's surgery of what I'd been doing. I had told my sibling and sibling-in-law. They told my parents. They each told the mental health teams. It was known by many homeless people I was doing this. It was a gift from Our Lord Jesus Christ to me. It is a gift from Him to His People, His Word is being written in everything I am told to do. He even locked my most valuable possessions in a safe in my room when I had certain guests.

This night it was a gift which the Police took from Our God. They took my freedom away from me, my free will to choose to walk across London and serve Our God. In any case, this was going to be. I am doing this here in Italy instead, safely knowing I will not be incarcerated by the draconian legal system of the British people.

I was with Our God, he is good.
I am safe from harm with The Lord God.
This is known.
It is written in the Old Testament.
It is written in the New Testament.
It is written in His Disciples Letters.
It is known by His Church yesterday, today and tomorrow.
All people know this and it cannot be denied.

What the Police did was ignore what I told them. I said to them I was a servant of God. They clearly misheard what I repeatedly said to them.

I told them I was a servant of God. This was obviously the case in the report which they witnessed all of the video footage. They have omitted this fact that it would be in the video footage for questionable reasons.

What the Police Officers have written is not fact. It is not true.

It is true I knelt on the floor on instruction of Our Lord Jesus Christ. It is true I prayed out loud when I was told to by Him. I prayed for His Mercy with His Prayer He gave to Saint Faustina Kowalska of Krakow in Poland to share with His Church. The Prayer is for His Mercy in our hour of great suffering.

I knew what was happening. They were to take me in.

I pleaded with the Police to take me to a prison cell overnight instead so I can prove my innocence on the charges they brought against me. They refused to listen to this plea which was made several times. I told them I would be badly treated if they did not do this.

I told them they were acting unlawfully, that the evidence had not been witnessed by them, that they would regret doing what they did. These were words I was told to say to them by Our Lord Jesus Christ.

It is written in this report that they placed me in handcuffs. This happened after I began to remove one of my slippers. I was kneeling on the floor at the time. They lunged at me and inspected both my slippers. They believed I might have been carrying a weapon, I assume. I was told to remove one slipper by Our Saviour Jesus Christ. I don't remember the handcuffs but it's likely to be the case.

They knew I was praying. I was peaceful when I was left alone. It is written in their report.

It is written one time in their report that I shouted at the officers. This is not true. It is true I would have spoken with a raised voice when pleading with them for help in proving my innocence for the evidence they stated they did not have. This is all written in the report.

What is not written in the report is that I was sat peacefully in this park before they arrived looking out over a climbing frame children would be using probably the following morning. I was told to look at the trees, and the stars. I was with Him. It is true I would not actually have slept here. These events were to happen as they did. Our Lord Jesus Christ knew this. He knows all.

Know this too, I knew only that I walked to PC Mark and introduced myself as Timothy Behrsin. I told him no more than I was told to say by Our Lord Jesus Christ.

I am His disciple. These sins of the British Government must end. It is now time to reveal this to the people of England.

It is important to discard everything PC Mark and his officers wrote after the event and instead look at what was seen in video footage recorded that night on their cameras. It is an entirely different outcome for this report when doing this.

I know this is true. I was there. I witnessed what happened. There is no video footage of me saying, ever in my life, that I am Our Lord Jesus Christ, the only Son of God. This is nothing I would say. He is Our Lord. I adore Him. I worship Him. I love Him. He is with me, He speaks to me.

There is no video footage of me lying down on the floor at my will. I did not do this. I did not want to do this. This did not happen. They do not have evidence of this. They made this lie themselves that night. It did not happen. There is no video footage of this kind. If this was true it would be very visible when I arrived in the lit hospital that my clothes would be dirty. It was a park, there was gravel and soil. It was not true what they said. All of their statements are inadmissible as evidence as a result.

It might be true that they pushed me to the floor as they inspected my slippers. I would have continued praying. It is not true that I prostrated myself on the park gravel by myself. I cannot remember even being pushed to the floor. I can't see anyone wanting to do that to

me. But knowing what happened that night and the hostility of those I encountered in the Police force, it might have been so.

What is true is the video footage. This cannot be disputed by anyone. I presume they would have turned off the video footage when we arrived at the Hammersmith and Fulham Section 136 cell, though there will be more to see of what I have written is true if it was kept on. There was more that was said by me to them then. I told them they would regret this, I told them they had committed a crime. They mocked me. I smiled at them.

They had persecuted me for my faith as a Roman Catholic servant of God.

When I arrived in the cell I was to spend the rest of the night I went to the secure bathroom and was initially watched by the police officers. They would not even let me urinate, sat down on a toilet without a seat, without a single implement in the room which could cause me harm. There was not even toilet paper because they thought one might clog the toilets, I assume. I told them to leave me alone and close the door. They refused and kept watching me from the corner of the door. They did not enter the room and so I asked them for privacy, to turn away, and they did not even stand around the corner when I pleaded with them so I could do what I needed to do in this very limited bathroom. I was told by Our Lord Jesus Christ not to excrete. He warned me of the lack of anything to use to clean myself with afterwards. This was disgusting treatment by the Police and the NHS. It is clearly wrong.

It is also written in the report from my complaint that again my F001 had prepared the Police with a false witness statement. This has been known to happen before in each section dating back to 2012. It is clear that this has been happening in each section. It should be clear from the previous witness statements this person's statements are not admissible as evidence. He claims confusion about simple facts which cannot be refuted. He has told lies which have been used as evidence, against his own knowledge I must say, by the HM Courts and Tribunals

Service. He has contorted the truth about what I said to him in familial conversations across the Atlantic from California. This is repeatedly the same story. It should be clear to the Court what has happened.

All these statements that were made need to be discarded as non-factual opinion of individuals at the time of an initial investigation by the first responders to a fictional suicide report. They are third parties who had no knowledge of what was true. There was no complete evaluation of the evidence those parties were speaking of. It is clear all evidence I provided at that time was ignored. I was treated as a criminal with no legal justice. There was zero legal justice. No legal recourse was I allowed to take. The facts are recorded on video by the Police.

If it remains to be seen that it is one party's word, my own, against many who should be trusted then please ask the Police to release these videos, all 5 of those officers wore cameras as it is written in their report, there is nothing I have hidden. Every word I have said is from Him. They must store these videos, they are evidence. They will have them on file.

I pleaded to go to a prison cell instead of a mental health unit, as it would have been possible for me to uphold my simple right of legal representation before being charged. When you enter a section, they detain you, force drugs on you, and materially damage your body. They deny you of every freedom you have. You are not entitled at this point to any legal representation as other people would have, my life was to be destroyed again by the mental health system of Great Britain. I was about to be grievously assaulted by those who were supposed to care for me.

Section 136 has been abused in many cases. It must be abolished by the British Government today.

What they did was prime the NHS for further harsh treatment against my will. They told them they had responded to a suicide threat. This was painstakingly explained over many hours to the NHS. After it was discovered that they had not found a suicide note but a nice

bon voyage note to my parents when I went to serve Our Lord in a Pilgrimage around the streets of London, they then told me that they would section me anyway as they thought I was unwell for doing just that and had been unwell for doing similar acts for His People in the previous weeks.

As was explained to the Police by my F001, they had already prepared to section me the following day. This was a fait accompli. They intended then to use whatever evidence they felt like to enforce their will on me.

The outcome of your complaint against police.

Dear Mr Behrsin

I am the Professional Standards Champion for Kensington and Chelsea and am writing to inform you that the investigation into the complaint you made to us on 27th October 2017 is now complete. Your complaint was about the actions of Police and the way you were dealt with on 17th October 2017

A report detailing the findings and conclusions of the investigation has been completed and is attached to this letter. The report findings and my decisions in relation to it are based on the facts that were available during the investigation. In considering the content of the report I have made my decisions based on the balance of probabilities, which means an individual complained of will have a case to answer if the alleged behaviour/conduct was more likely to have occurred than not.

As Professional Standards Champion I have been delegated by the Commissioner of the Metropolitan Police to consider the findings and conclusions of complaint investigations to determine:

- whether your complaint is upheld or not
- whether or not any such person's performance is unsatisfactory;
- what action, if any, we will take in respect of the matters dealt within the report; and
- what other action, if any, we will take in respect of these matters.

After considering these points I am satisfied the report does not need to be referred to the CPS.

I can also inform you that I have determined there has not been a breach of the professional standards by PC Marc Owens, PC John Jimenez, PC Ben Bancroft, PC Jake Harris, PC Amariah Watson and Insp Darren Bone.

Furthermore, the Police Reform and Social Responsibility Act 2011 requires me to consider whether or not any such person's performance is unsatisfactory. Having reached the conclusion that I have, do not consider that unsatisfactory performance procedures are appropriate in respect of by PC Marc Owens, PC John Jimenez, PC Ben Bancroft, PC Jake Harris, PC Amariah Watson and Insp Darren.

In addition to the points above I have also considered whether you received an appropriate level of service from the Metropolitan Police. This means how you were dealt with overall and not just by any one individual. After reviewing the circumstances of your complaint I am satisfied there has not been a failure identified in the way we dealt with you. Your complaint is therefore not upheld.

We are grateful to you for raising this issue and giving us the opportunity to review the actions of those concerned. It is always useful to receive feedback on how our officers and staff perform; as an organisation it allows us to learn and develop and to identify ways we can improve our service in the future.

If you do not agree with the outcome of this investigation or its findings, you can appeal to the Independent Police Complaints Commission (IPCC).

You can appeal on any one of the following grounds, that you:

- have not been adequately informed about the findings of the investigation or the outcome of the report;
- disagree with the findings of the investigation;
- disagree whether the complaint is upheld or not;
- disagree with the police proposals for action – or lack of them – in light of the report;

The IPCC are the appeal body for your complaint as the initial information provided was such that criminal or misconduct proceedings may have been justified, where a complaint of this nature is proven.

You have 28 days from the day after the date of this letter to make your appeal. The 28th day is 2nd February 2018. Appeals received after 28 days may not be allowed unless there are exceptional circumstances.

If you do decide to appeal, this is the address to write to:

Independent Police Complaints Commission, PO Box 473, Sale, M33 0BW

Further information about how to appeal can be found on the IPCC website:

METROPOLITAN POLICE TOTAL POLICING

Investigating Officer's Report

A. Introduction

1. Complaint background

On the 17th October 2017 you left a letter along with your personal effects, including your keys and wallet, at the Copthorne Tara Hotel. You gave the letter addressed to your parents to the receptionist for the attention of your parents who were staying at the hotel.

A call to police has been made in regards to your safety, and officers have found you in Pembridge Square W2. Officers have spoken to you in regards to your intentions; you were subsequently detained under Section 136 Mental Health Act.

You have stated that you were wrongfully detained, as there were no grounds for detention under Section 136, Mental Health Act. You also stated that officers did not listen to you in regards to your letter and as a result you were sectioned at St Charles Mental Health Hospital.

2. Complaint Allegations (All allegations must be listed - confirm how these have been agreed with the complainant)

I spoke to you on the phone to confirm the complaint heading as the following on 23rd November 2017;

1. Unlawful/unnecessary arrest or detention - You feel that you were unlawfully detained by police.

2. Other neglect - You feel there was no evidence for a Section 136.

3. Other neglect or failure in duty - You feel Police officers did not listen to you.

I reconfirmed the headings at the end of our phone conversation and you indicated that they were correct and I begun my investigation in to the above.

3. Person(s) Serving with the Police Subject of Complaint

I have considered the circumstances of the complaint made and consider that the alleged conduct subject of this investigation would not, if proven, justify the bringing of criminal or disciplinary proceedings. Therefore, this investigation is not subject to Special Requirements.

The following officers/staff have been identified as being subject of your complaints;

- PC Marc Owens
- PC John Jimenez
- PC Ben Bancroft
- PC Jake Harris
- PC Amariah Watson
- Insp Darren Bone

4. Details of documents and accounts obtained during the investigation

The following items were considered during the investigation;

- Letter submitted by yourself to Kensington Police Station including "fictional suicide note"
- Obtain a written account from the officer who arrested and detained Mr BEHRSIN
- Obtain Evidence and Actions book of officers notes recorded after arrest
- Obtain any witnessing officers notes if applicable
- Review the Merlin report - 17PAC266592
- Review the CAD Message - CAD 355/17OCT17
- Review the Body Worn Video Footage
- I will investigate as to why you were arrested under S136 Mental Health Act.
- I will identify and speak to any officers and seek an explanation to the above.

B. Details of allegation(s) and investigation

Each allegation will be considered separately and will show whether it has been upheld or not and whether there is a case to answer or not, depending on whether subject to Special Requirements.

1. Unlawful/unnecessary arrest or detention - You feel that you were unlawfully detained by police.

This complaint refers to PC Marc Owens.

- **Obtain a written account from the officer who detained Mr Behrsin**

I have requested a written account from PC Marc Owens

PC Owens stated that on 17th October 2017 he was the officer that detained you under S136 of the Mental Health Act 1983. PC Owens stated that he attended Pembridge Square W8 and you came towards him. PC Owens stated that his perception of you at the time was that you did not appear well.

PC Owens has described your behaviour as abnormal, and he was of the opinion that you were experiencing a Mental health episode.

PC Owens stated that he has observed your current behaviour along with the information he has been

provided and has used his power under the Mental Health Act to detain you.

- **Obtain Mental Health Act Paperwork of officers notes recorded after detention**

I have obtained the Section 136 Mental Health Act 1983 book that PC Owens had completed after detention.

In PC Owens' notes he details that your parents made a 999 call to police. PC Owens details that you handed in your personal effects to the reception of the hotel that your parents were currently residing. In addition, was a suicide note.

PC Owens details that police found you in an enclosed area of a dark park. PC Owens details that you were wearing slippers, along with jogging bottoms and a blue light jacket. PC Owens details your interaction, whereby you have stated that your name is "Timothy" and "you may refer to me as a Son of God"

PC Owens then details that you have changed your stance from sitting, to lying down and praying on the floor. PC Owens has stated your demeanour was agitated and you have said "I need help" during his encounter.

PC Owens details at this point he felt that you were lacking mental capacity and possibly suffering a mental health episode. PC Owens then details that he had a concern for your immediate welfare. PC Owens states he believed you presented a danger to yourself and therefore detained you under section 136 of the Mental Health Act.

- **Obtain any witnessing officers notes if applicable**

There are no other notes recorded

- **Obtain a written account from the officers present**

I have requested a written account from officers present.
PC Bancroft stated that you were found under a tree. By the time he joins officers you had been detained by PC Owens. PC Bancroft stated that in conversation you have denied writing any letter or having suicidal thoughts. PC Bancroft stated that he has observed your behaviour and in his opinion believed it to be erratic. PC Bancroft stated you would shout one moment, and be calm the next, continually quote passages from the Bible. PC Bancroft states that you were wearing inadequate clothing for the temperature and time of night. PC Bancroft specifically alludes to the slippers.

Inspector Bone stated that you had handed all your belongings into the reception of the hotel you were staying at, along with a note intimating you were going to kill yourself. Inspector Bone stated that you were found in Pembridge Square. Inspector Bone stated that he has observed you behaving erratically and appeared to be having a mental health crisis. Inspector Bone stated that your mood was either calm or erratic. Inspector Bone further stated that you were asking God if you could sit down, or telling officers that God had asked you to stand up; that God was giving you instructions.

Inspector Bone states that having assessed your behaviour combined with your stature and perceived

ill health you have been sat on a bench and placed in handcuffs. This was in order for officers to maintain control.

Inspector Bone stated that due to the lack of ambulance available by the London Ambulance Service he has authorised your transport to hospital in a caged CCTV van.

- **Review CAD Message - 355/17OCT17**

The informant of the CAD was the manager of the Copthorne Tara Hotel. The opening lines of the CAD informant states 'male had just attended and gave me a letter to give to his parents, parents are in 626, letter states this is only way to heaven and this is the last letter he is writing to them has his credit cards and car keys in it, he attended 15 mins ago.' This has been graded 'Immediate priority response' by the operator. The informant names the male having attended as 'Timothy Behrsin'.

The father of Timothy Behrsin gives more information stating 'crisis team are aware of this situation they were going to section him tomorrow'. He further confirms that he has left his flat key at reception, and Timothy has not previously 'self harmed, however he has made vague suicidal threats in the past.'

An LAS request message has been processed, 'we are with a suicidal male need assistance please' LAS/272/17102017.

A further remark to the LAS states 'we have the male in handcuffs calm at the moment but it is temperamental'

Appropriate medical practitioners are requested, none have been able to attend. Police have stated they will use their own transport to take the male to St. Charles Mental Hospital. This is because the distance from their location to the hospital is short.

The final remarks on the CAD state, officers have arrived at Place of Safety - Claybrook Hospital

- **Review the Body Worn Video**

I have reviewed the body worn video available to me by 5 officer's cameras.

I have reviewed your appearance, and it is not possible to determine your footwear to see if your clothing is suitable for the environment.

I have reviewed your behaviour, Body worn video available from the Police officers show you having a calm conversation with officers on the bench. Officers have stated their concerns that they perceive you to be unwell. You have responded, 'where is the evidence that I am going to commit suicide'. I have watched you talking to officers calmly and I have watched you talking with a raised voiced. In the officers body worn video you have stated 'put the handcuffs on if you want to commit a crime'.

I have reviewed your communication and on the officers body worn video you are well spoken, you ask officers questions such as 'have you read the letter' and 'what warrant are you arrested under'. I have observed your communication with officers. In the officers body worn video you often stopped a conversation in order to pray.

I have reviewed your understanding of danger. In the officers body worn video you have stated to officers, as part of the conversation 'you want to walk the streets of London, being homeless allow me to do that please.'

I have reviewed the environment you were found by police in; in the officers body worn video this was an enclosed park on a bench.

- **Review the Merlin report - 17PAC266592**

I have reviewed the report and this coincides with the above information. The additional information detailed in the file is that officers have called the single point of access telephone number. This has provided them with Mental health services for information, advice, referral and crisis support for adults experiencing mental health illness. This is best practice where practicable for officers dealing with perceived mental health calls.

On the basis of the evidence available to me and in the absence of any to the contrary I am not upholding this particular aspect of your complaint.

PC Owens did detain you lawfully based on the information that was available to him at the time.

2. Neglect other duty - You stated there was no evidence for a 136

This complaint refers to PC Marc Owens.

- **Obtain a written account from the officer who detained Mr Behrsin**

I requested an account from PC Owens in relation to the above complaint heading.

PC Owens stated he had been informed of a series of events beginning with a change to your living arrangement and a change of employment status. PC Owens stated that there were subsequent reports that you had began to give your money away to the homeless people of London beyond your means.

PC Owens stated you presented the hotel reception with your personal belongings and with a note that had been intimated as a suicide note. PC Owens stated that you then left the hotel.

PC Owens stated that he found you in Pembridge Square, and his perception of you at the time was that you were unwell. PC Owens stated that you presented to him with erratic behaviour. PC Owens stated that due to his previous information and his opinion of your current state he has taken this as evidence to use his powers of Section 136 Mental Health Act

PC Owens stated that you referred to yourself as God, and continued to display unstable behaviour whilst awaiting an ambulance.

- **Obtain Evidence and Actions book of officers notes recorded after arrest**

Having reviewed PC Owens Section 136 paperwork specifically to evidence relating to Section 136 Mental health Act. PC Owens has stated you have handed your personal effect to the reception of the hotel, along with a suicide note.

PC Owens stated that police have found you in an enclosed area, in a dark park. PC Owens has then

stated that you were wearing slippers, along with jogging bottoms and a blue light cotton jacket. PC Owens then stated that they have asked you if your name was Timothy. PC Owens has then stated you replied 'you may refer to me as a son of God'.

PC Owens stated you kept sitting down, lying down and praying on the floor. PC Owens has then stated that he believed you to be agitated. PC Owens stated you have said to police "I need help".

PC Owens stated his perception of your behaviour, his opinion on your appearance and communication; along with the information he had been provided; that you lacked mental capacity. PC Owens stated he made the decision to detain you because he was concerned for your immediate welfare. PC Owens stated he believed you were a danger to yourself.

- **Review the Body Worn Video**

I have reviewed the body worn video available to me by 5 officers cameras.

I have reviewed your appearance, and it is not possible to determine your footwear to see if your clothing is suitable for the environment.

Body worn video available from the Police officers show you having a calm conversation with officers on the bench. Officers have stated their concerns that they perceive you to be unwell.

On occasions you have began actions stating that God is asking you to do them. This has included praying and walking.

I have reviewed your understanding of danger whereby you have stated to officers, as part of the conversation 'you want to walk the streets of London, being homeless allow me to do that please.'

I have reviewed the environment you were found by police in; this was an enclosed park on a bench.

- **Review the merlin report - 17PAC266592**

I have specifically looked at the written report and the evidence rendered to the necessary to implement your detention under section 136.

The circumstances of your detention have been recorded as given by witnessing officer PC Watson. On Tuesday 17th October, after 0128 hours, you were found in Pembridge Square wearing a blue t-shirt, dark coloured zip hood, grey tracksuit bottoms and bed slippers. The behaviour recorded stated you were agitated by police presence. Your conversation was confusing as you spoke about heaven, worship, prayer and Christianity. The report states you were uncooperative and it did not appear that you were actively listening to officers who were trying to engage with you. The report states you repeatedly asked for the warrant for your arrest, and the warrant documents.

Officers have contacted partner agencies to ascertain whether your behaviour is out of character.

Officers have spoken to your parents, who have made officers aware you had stopped taking your medication approximately 4-6 weeks ago. Following this period there had been a deterioration of your mental health, which has needed additional help and support. Your parents have disclosed, you have become fixated on the lord, praying and the bible. In this time, you have withdrawn all your financial capability and distributed your money to the homeless, furthermore taking out substantial loans to your own detriment, continuing to distribute that money to the homeless.

The report states that due to your appearance and behaviour; coupled with a review of the information available. This included leaving your entire wallet, bank and travel cards along a letter referencing 'the only way to heaven' which was interpreted as suicidal. Officers have feared you have been a danger to yourself and have detained you.

Elements of Detention under section 136 Mental Health Act PACE

At the time of detention the below was the legal definition of Section 136 of the Mental Health Act 1983 that provides for a mentally disordered person found in a public place.

136(1) If a constable finds in a place to which the public have access a person who appears to him to be suffering from mental disorder and to be in immediate need of care or control, the constable may, if he thinks it necessary to do so in the interests of that person or for the protection of other persons, remove that person to a place of safety within the meaning of section 135.

136(2) A person removed to a place of safety under this section may be detained there for a period not exceeding 72 hours for the purpose of enabling him to be examined by a registered medical practitioner and to be interviewed by an approved mental health professional and of making any necessary arrangements for his treatment or care.

136(3) A constable, an approved mental health professional or a person authorised by either of them for the purposes of this subsection may, before the end of the period of 72 hours mentioned in subsection (2) above, take a person detained in a place of safety under that subsection to one or more other places of safety.

136(4) A person taken to a place of safety under subsection (3) above may be detained there for a purpose mentioned in subsection (2) above for a period ending no later than the end of the period of 72 hours mentioned in that subsection.

PC Owens was satisfied that he suspected you had been suffering from a mental disorder and in need of immediate care or control. PC Owens was of the opinion that it was necessary and in your interest to protect you, by removing you to a place of safety. The necessity of your arrest was to ensure your safety. It was suspected you had written a suicide note, surrendered all your personal belongings not including your phone and were imminently going to cause harm to yourself.

Having reviewed the actions PC Owens carried out with regard to your section 136 detention, as a duty of care for members of public; it would not have been suitable to allow you to leave, whilst suspecting a need for immediate care or control. Therefore, PC Owens utilised the power of a constable under subsection 1 available to all officers to complete in the street for the purpose of enabling you to be examined by a registered medical practitioner.

3. Other neglect or failure in duty - Police officers did not listen to you.

This complaint has no single officer identified therefore taken against the service as a whole.

- **I will investigate as to why you believe officers did not listen to you**
- **I will identify and speak to any officers and seek an explanation to the above**

With regard to this element of your complaint there is no specific officer that can be identified with why you believe officers did not listen to you.

Having reviewed the body worn video footage of your contact with officers on Tuesday 17th October 2017. I have watched officers attempt to engage with you in conversation. I have noted that officers have answered your questions. This has included what their legal power of detention they were using and informing you that they did not have a warrant for your arrest.

I have observed that in your interactions with officers you have acted calmly at points and shouted at officers in others. I have ascertained that the main point of contention is the suicide note. You ask officers where the letter is and they answer honestly that they do not have it. I have reviewed the CAD message and I have noted that officers are being apprised of the note by a colleague and whilst they do not debate the contents of the note with you they tell you that they are treating the note as a suicide note.

Officers have noted in the Merlin report that they were unable to get you to cooperate or actively listen to officers. The body worn video supports this.

On the basis of the evidence available to me and in the absence of any to the contrary I am not upholding this particular aspect of your complaint.

C. Findings and Conclusions

1. Unlawful/unnecessary arrest or detention - You feel that you were unlawfully arrested and detained by police.

On the basis of the evidence available to me detailed above and in the absence of any to the contrary I am not upholding this particular aspect of your complaint.

PC Owens has spoken with you. Your appearance and behaviour had given him cause for concern. Having established through a conversation with you that you wanted to be homeless and walk the streets of London.

PC Owens was satisfied that he suspected you were suffering a mental health episode. The necessity of your detention was to utilise the power of a constable under subsection 1 of the Mental Health Act available to all officers to complete in the street for the purpose of enabling you to be examined by a registered medical practitioner.

Having reviewed the enquiries PC Owens carried out with regard to mental health, if the officer had left you in the public place, there would have been a neglect of a duty of care to ensure that you remained safe.

2. Other assault - You stated there was no evidence for s136.

On the basis of the evidence available to me detailed above and in the absence of any to the contrary I am not upholding this particular aspect of your complaint.

The below section has allowed the officer to reasonably exercise this power under the provision of your

arrest.

Elements of Detention under Section 136 Mental Health Act PACE

Section 136 of the Mental Health Act 1983 provides for a mentally disordered person found in a public place.

136(1) If a constable finds in a place to which the public have access a person who appears to him to be suffering from mental disorder and to be in immediate need of care or control, the constable may, if he thinks it necessary to do so in the interests of that person or for the protection of other persons, remove that person to a place of safety within the meaning of section 135.

Section 117 of the Police and Criminal Evidence Act 1984 provides that a constable can use reasonable force in the exercise of any power under this Act.

117 Where any provision of this Act -

(a) confers a power on a constable; and
(b) does not provide that the power may only be exercised with the consent of some person, other than a police officer,

the officer may use reasonable force, if necessary, in the exercise of the power.

PC Owens has noted that in his opinion he believes you appear to be suffering from a mental disorder.

PC Owens was satisfied that you presented a danger to yourself. Having reviewed the enquiries officers present carried out with regard to your mental health. PC Owens utilised the power of a constable under subsection 1 available to all officers to complete in the street for the purpose of enabling you to be examined by a registered medical practitioner.

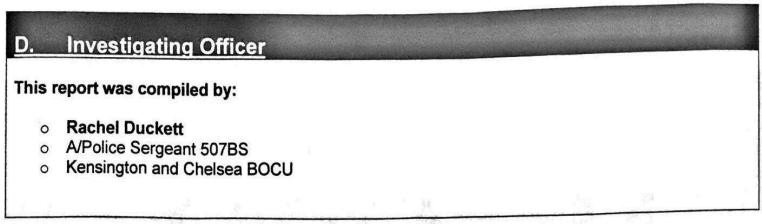

3. Other neglect or failure in duty - Police officers did not listen to you.

Officers attempted to maintain open and clear communication with you. There were elements of conversation that encountered a steadfast difference of opinion and officers have explained that.

I have found the service you received did meet the minimum standard required, which means your complaint has not upheld your complaint in respect of the service you received.

In these circumstances there has not been a breach of the standards of professional behaviour. This means that the complaint in not upheld.

The Police Reform and Social Responsibility Act 2011 requires me to consider if the findings of any case relating to a public complaint warrants referring an officer to our Unsatisfactory Performance Process (UPP). Having reached the conclusion that I have, I do not consider that UPP is appropriate in respect of any of the officers concerned.

D. Investigating Officer

This report was compiled by:

- Rachel Duckett
- A/Police Sergeant 507BS
- Kensington and Chelsea BOCU

Once the Police had left I went to the cell's bathroom again to wash. I asked for a towel to dry myself. They refused, claiming I might hang myself with it. I had to wash myself in the sink, all of myself was needed to be cleaned after a day without a shower. I had no soap, only a plastic cup was provided to contain some water as the taps themselves were controlled by infrared, flush with the wall and they stayed on for very little time. I dried myself with my clothes. They knew I did this. They deliberately tried to stop me from cleaning myself that night. This was very undignified and I felt awful. They took my dignity away from me in what they did to me in this cage. I stripped naked to clean myself in the bathroom over the sink and they were forced to close the door after this.

The heating was on very high in the cell. I became very thirsty and continually needed water. They gave me very little water for the heating that was on.

The woman who was monitoring me from the other side of the cell fell asleep multiple times while I was speaking to her.

I repeatedly asked to make a single phone call to find a solicitor. Not one time did they release to me my mobile phone which the Police had taken from me in the park. Not one time did they offer to call someone in the legal profession even on my behalf. They forced me to wait in

an extremely hot cell with no fresh air, very little water, no food, no cigarettes when I would have been just peacefully praying in a local park near my home in Kensington.

There were two mental health assessments taken by the psychiatrists and the psychologists on duty. It took them some time to come into the cell. I had already suffered by this point.

In the first assessment they carried out that night Our Lord Jesus Christ spoke His Truth to them through my tongue. I gave them a testimony of my faith as a Roman Catholic, a disciple of His.

They refused to believe what I was told to say.

Our God told me to tell them to find that evidence which was used in the incarceration and again in their mental health assessment.

They stumbled and looked at each other. There was a man who was belligerent and told me it did not even matter. The female doctor questioned me further and promised to find this evidence.

They went away for several hours and I waited patiently with the nurse who was watching me.

I taunted her by speaking to her softly and then waking her up when she fell asleep. I asked her for water. It was that I needed water.

I was told by Our Lord Jesus Christ to play this game with her while I waited. It was a game that should not have been necessary. She should have been taking care of me while I was incarcerated for what I told everyone there was a crime they were committing. It was very strange that they placed a nurse on duty who had not received sufficient rest. This I learn from the NHS nurses I met in the hospitals is common practice. Then they have the gall to tell me, all the way through my medical notes you will find, that I have to sleep when they tell me to. I have rest when Our Lord gives me rest. I have rest when I need it. I also wake when Our Lord tells me to wake. It is a gift He gives to me. This gift is documented in my diary for all to read.

This went on for several hours, continually asking for water and my phone to call for legal assistance, or even to call my parents. Eventually the woman fell asleep and I let her rest, I was told to by Our Lord, the game was over. I was told at this exact time to go to the bed and within minutes all the lights came on again in the cell and the doctors returned to finish their assessment.

I sat down patiently listening to them. I said very little. It was that I knew I would not be freed this day. I knew this from the words I was given while resting by Our Lord Jesus Christ.

They told me they had found the note, that my F001 had read it, that they all believed it was not actually a suicide note. I thought from this I might be freed and be allowed to go on my Pilgrimage to the homeless people of Greater London. In truth I just wanted to find my keys from my parents and go home to bed.

They then proceeded to tell me they were going to section me anyway. They gave little reason other than that they thought I was mentally ill. There was no other reason given than I was mentally ill. They thought I was mentally ill and they said it. That is what they said. No more than that was needed to section me.

I offered to shake the hand of the nurse who was escorting me to the ward. She refused. She was very rude to me.

I was promised by the nurse all evening that I would be allowed a cigarette in the morning when I arrived in the ward. I was told as I went up to the ward that I would be allowed cigarettes, not e-cigarettes, that I would be allowed cigarettes.

The nurse who received me in the ward informed me of the ward rules, it was a non-smoking ward. My heart sank. I asked for an e-cigarette, they told me they would need to wait for the psychiatrist to write a prescription. He wasn't arriving in the ward until much later in the day. I asked for them to give me an e-cigarette and they refused.

They told me even if I had cigarettes I would not be granted leave to

smoke outside the hospital building, even with an escort, for up to two weeks. It is not certain, as I found before with previous psychiatrists, that I would be granted leave in the short-term in any case.

When I found that I had been lied to regarding the nicotine which I wanted right then, I became angry with them. It was that I was irritable for what they had done. It was not mental illness, it was induced by their actions.

Every single person in the ward was to know about this cruelty they were doing.

I circled the nursing station in the patient corridors 3 times loudly shouting to the nurses how sinful the people who were caring for us were. Many times I banged on the perspex window of the nurses office as I circled around. They were alarmed at the noise it made, it was perspex and it did not fit correctly in the window frame. No harm was brought to anyone. No damage was done. Not a single crack on the perspex was made. They were just startled. I was clearly not happy with them. They were not happy with me either after this.

They did nothing at that moment.

I went to sit down, calmed down and gave up with my game of taunting them. I waited patiently and spoke to some of the patients calmly. They were nice people.

I then went back to the nursing station and found that they had not shut the hatch of the counter. I jokingly placed one foot inside the hatch that was open. I was smiling while doing it. This smile disappeared immediately.

Two men rushed at me, contorted my arms behind my back and restrained me. They dragged me with arms behind my back in pain to the room they had given me, there was a man who was later described as a contractor working for the NHS dressed in a blue tracksuit who had my left hand bent double in his hands. My hand was parallel to the underside of my left arm. It had a very small gap between the

bottom of my fingers and my arm. It was literally, not metaphorically, bent double. He was a strong man. I was bound by both men. The man who bent my wrist in this way was laughing and looking at my wrist in disbelief seeing that it was an impossibility that I was not having my wrist broken by him. He was in psychiatric terminology manic. I saw his face very well. He was with the expression of disbelief as he looked at my wrist. He was told many times by me to stop what he was doing, he was told by me to look at what he was doing, none of the nurses stopped and they continued while I was now sat down on my bed for at least 30 seconds causing me complete agony in my arms, shoulders and my wrists. I was screaming in agony. I could not move with what they were doing. My arms were weak with pain. The nurse in charge who witnessed this eventually told them to release me. They did this at his command. This was a punishment they gave me, it was not restraint. The nurse in charge waited while he witnessed a punishment, once he thought the punishment was severe enough he told them to stop. This is a crime that was committed by those men. It was known about by everyone on duty at that time.

I identified the man by looking at the notice board of their staff. If it was not this man, I am sorry, but there is then another man who looks very much like this man who was working there that day. The man who contorted my left wrist I believe to be E001.

There was a nice nurse who helped with food one day. I don't know who this was but I would like to thank him for his kindness in giving me what I wanted, I needed his love and care.

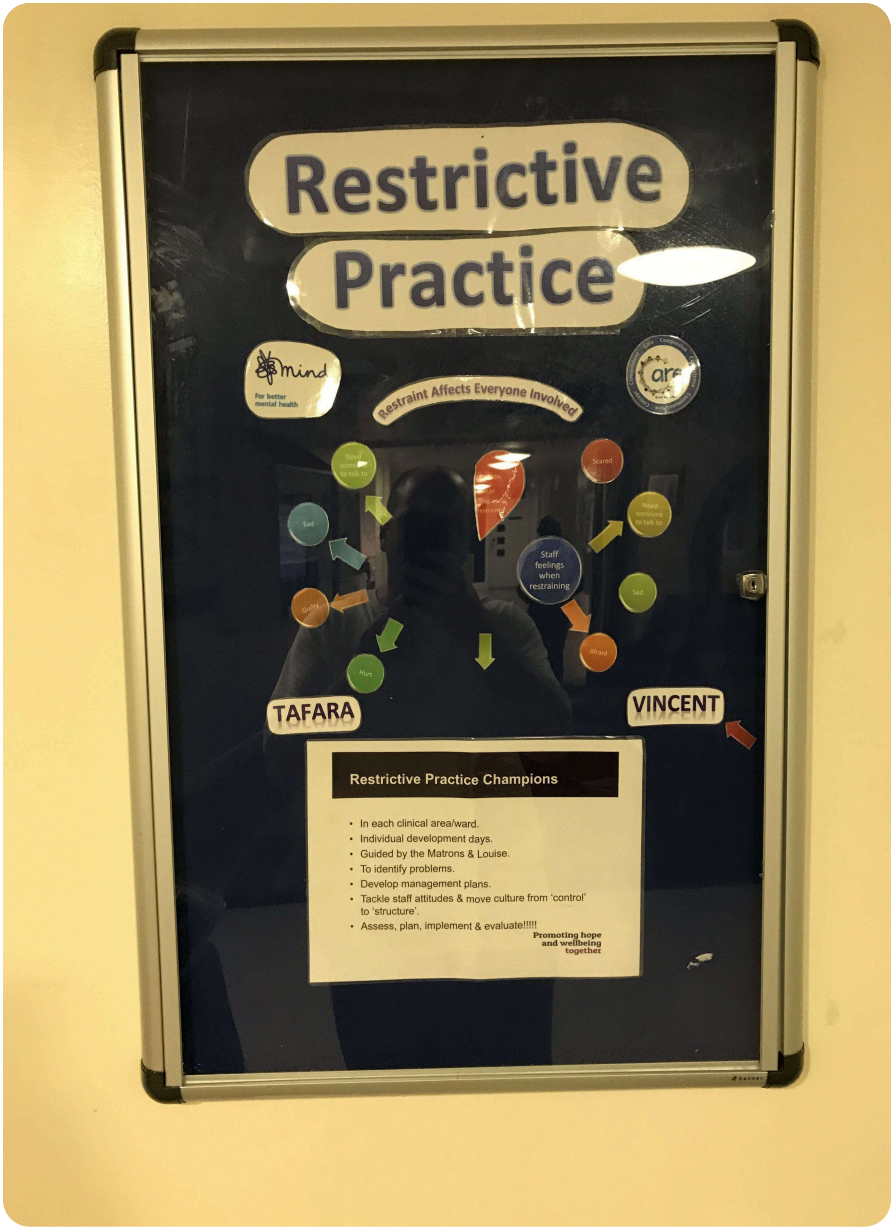

I asked the members of staff about the man in the blue tracksuit and they told me that I was being racist for identifying that man, because he was of dark skin colour and I am of light skin colour. They mocked me and threw me off my investigation of finding out the truth about my assailant, the worker they employed. They refused to give me the mans name. It was that man, and I still know it. I can still remember the features of his face. If I am wrong, I am sorry to Mr E001 for mentioning his name as he wouldn't have even been on duty, according to the nurses I spoke to. Records must have been kept from

those days which I have not been given any access to.

They mocked me by saying the man was wearing a blue tracksuit and the photo taken of this man is wearing smart clothing. They also told me the man I pointed to was on a different shift. They were clearly mocking me.

A full investigation needs to be carried out into what happened that day. I told the doctors too in St Charles when I was transferred there. I told them two counts of wanting to speak with the Police. Only one time was I able to speak to the Police, and I was told by Our Lord Jesus Christ to speak of the Section 136 and that arrest they made.

It should be noted by the Court that they had a notice board too saying something about their policy on restraint. See there are some things not quite right about it. It is really quite something that they think patients want to read this. This is on the far wall of the ward where patients were allowed to take decaffeinated coffee. Interesting factoid notice boards like this litter all of these mental health wards I've visited. They are completely for show for people visiting their family in detention. They supposedly make people feel good about who is taking care of their family.

The Lord performed a miracle in my wrist. It should not have been working after what that man did to me. I had no pain after he stopped what he was doing. This is true.

Later the nurses warned me to obey them otherwise they would do

it again. They did it again the following morning. They were ruthless savage animals. I am not being racist when I say this, however I may be accused of this because of their skin colour. This is what those few people were. I do not say this of anyone else. These people committed assault. Grievous assault. It was wrong that these people were caring for anyone. They should be fired for what they did and never allowed to work in a care capacity again. Everyone of the nurses there knew what had happened. This was a crime in that hospital that should have had police presence immediately.

This is what the police did to me by issuing their Section 136.

The events that follow here while I am in Hammersmith are not necessarily in the right order chronologically. I was awake for a long time waiting to move to a better hospital. I was told by Our Lord Jesus Christ that they would be moving me shortly. This happened as He told me within a short period of time.

One time I angered them for a joke I was playing on them and they proceeded to rush at me and I fled to a window in a safe place and I knelt down by myself, being told to do this by Our Lord. I knew what to do too as I had witnessed already a forced injection in Bolton earlier in the year. I lowered my trousers by myself before they got to me and let them do what I knew they were about to do.

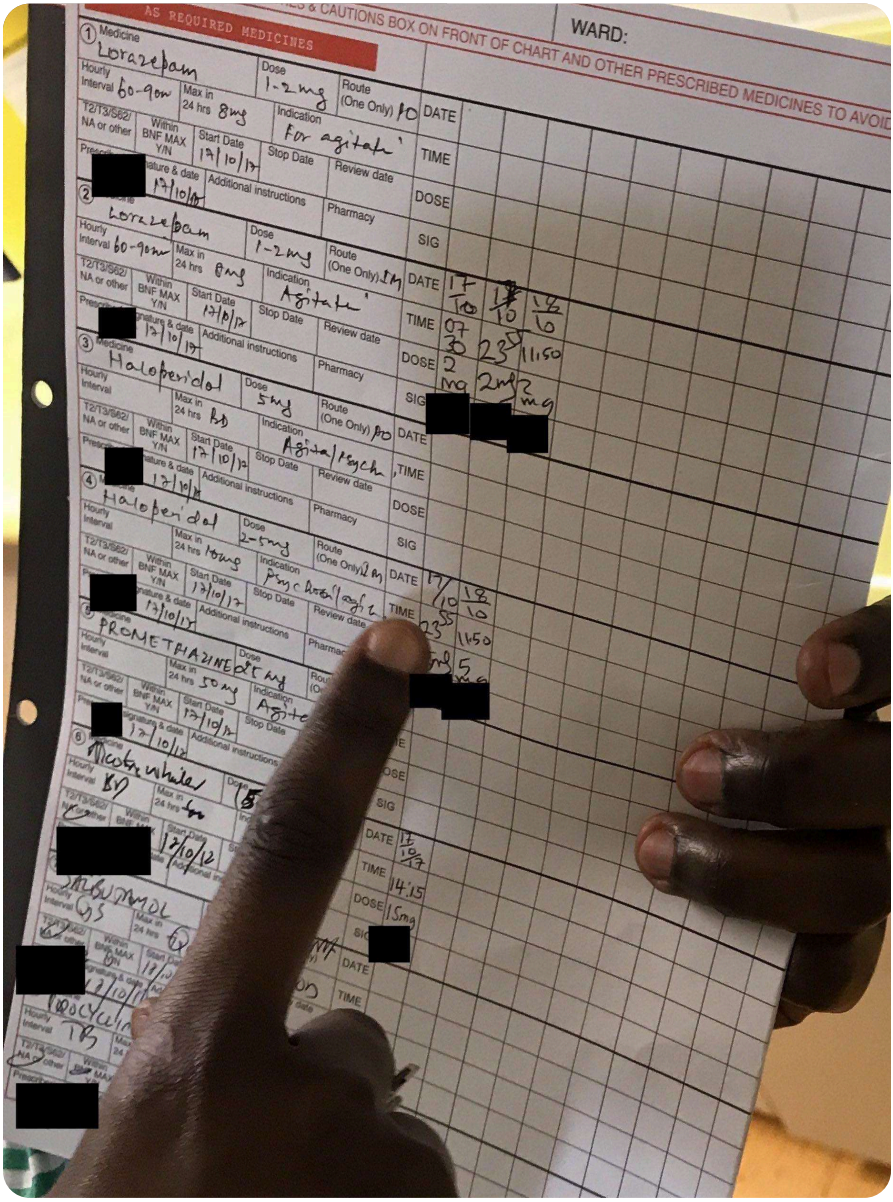

They knew I was praying. They knew I was suddenly very peaceful. I prayed quietly to Our Lord His Prayer of Divine Mercy.

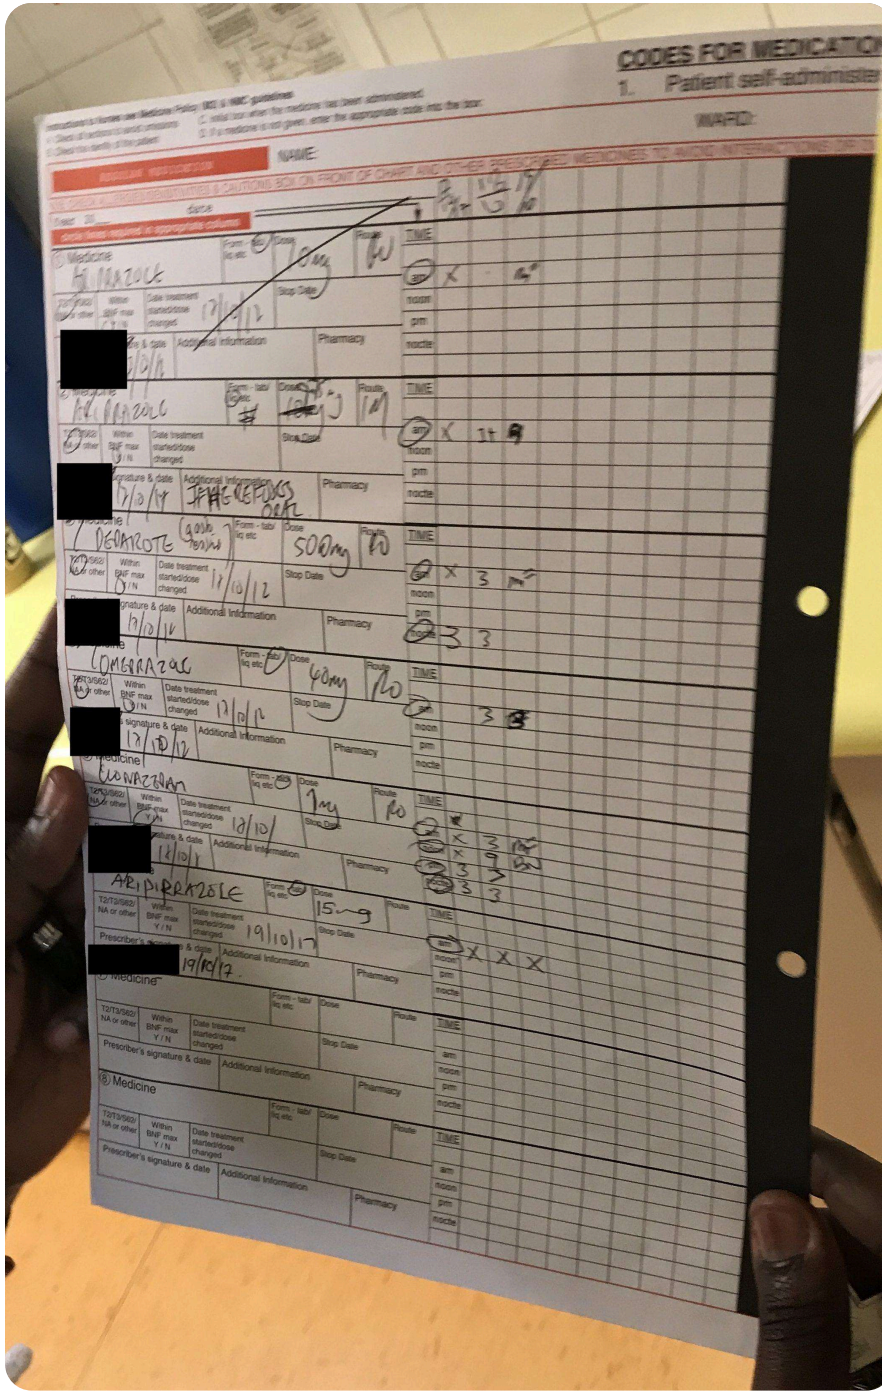

He spoke to me and helped me as they did what they were about to do. I told them out loud that Our Lord was speaking to me.

While I was praying they had raised a bed sheet and the female nurses were looking away. The male nurse quite gently force injected me with a tranquilliser. It was a powerful dose intended to send me to sleep.

It was one of the following drugs which they had prescribed without my consent. I was prescribed many medications as you can see. Not one of them did I consent to taking, nor did I consent to their

prescription, nor did I have a meeting with a doctor to discuss the prescription or its side-effects. Not one of those Omeprazole tablets had I taken, I had been cured of acid reflux by Our Lord Jesus Christ before entering my first section under the NHS in Bolton. This was known already by doctors and they were clearly not doing their job.

It did not work. I warned them it would not work. It happened that

Our Lord prevented this drug from working in my body.

I then showed them this by visibly showing signs of anger, and took the blood stained tissue out of my trousers that they had left there on my person and threw it from a few feet away at the psychiatrists face.

I should not have done this. I was wrong to throw this tissue at the psychiatrist. It was assault and I am sorry to this man. Nevertheless this man had sanctioned this injection. He had committed this sin himself. It was also only a tissue that flew into his face. This psychiatrist punished me for this with what he did next in my medical files.

I then returned to mock the nurses as I was given want to. I was wide awake without any signs of the sedative.

Later they told me to take medication and I flicked it with my finger into a wall at the medication booth. The medication did not touch them. It was flicked with my finger, not with my hand. All they had to do was pick up the medication but they implied in their actions that I must have assaulted the nurses at the medication booth. What they said was not true.

I was not given food the first day, I refused some meals as they were revolting but I was also not invited to go to breakfast the following day. One day of the three they brought a cooked breakfast to me in the ward. I thanked Our Lord for this gift I was given by Him. I was peaceful eating what I enjoyed. Thank You, Jesus, for this gift in my hour of need.

I was later moved to the intensive care ward in St Charles. They believed I had been detained because I was not peaceful which is why they put me on this ward. This was not true. It was because I was detained that I grew not peaceful, angry and irritated by the injustice they repeatedly did to me.

I was forced to stay in that ward in St Charles for 2 weeks from where I started to build a case for a tribunal which eventually happened

when I was sent home to Manchester 3 months later. By which time they realised I had been peaceful throughout my stay in St Charles. No harm was brought to a single person other than me in Hammersmith, they assaulted me more than once while I was in their care.

For my remaining stay, the last time I was in a hospital, up to November 2017, I was called a model patient by the doctors. I was very peaceful. They still said I was mentally ill because I continued to tell them in ward rounds that Our Lord was talking to me, which was the truth. It should have been clear to the doctors who discharged me to the CMHT in Manchester under another section – the Community Treatment Order – which I am still forced by them to be under after at least one renewal, that I was being persecuted for my faith. They did not acknowledge the law. They did not discharge their duty of care for me, their victim.

It should be noted by the Court that I had been awake on the first day after admission in Hammersmith and Fulham for over 36 hours. Events may be in the wrong order. They did happen.

It is a crime to persecute someone for their faith.

This is what has happened over 7 years by the mental health system in the United Kingdom.

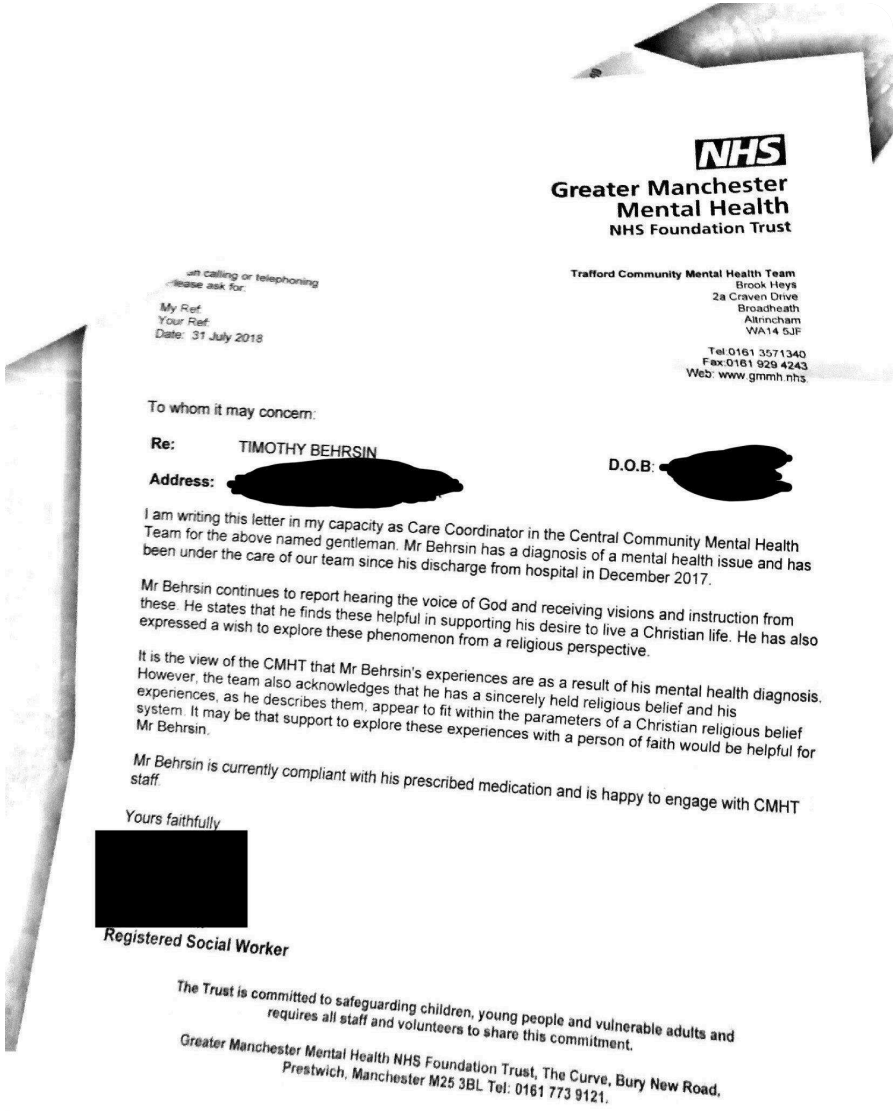

February 2019

In the weeks leading up to my exile in Rome I was writing the words I was given by Our Lord Jesus Christ. Several letters I wrote as His apostle.

There was more to do in Manchester in those days. I was under forced treatment still by the NHS and for my safety I had to agree to meet with the care coordinator I was assigned on a regular basis.

There was a prophecy from Our Lord about my future wife and our beautiful children, grandchildren, great-grandchildren. These are to be true one day. This will be true. It is His Word. It is Prophecy from Our Lord. I did not write my own words in anything published in my diary, all words from me are sent from Our Lord through His Spirit. This is Roman Catholic Doctrine. It is true. It has been true since the beginning of mankind. It is known by His Church.

I then proceeded to speak to my assigned care coordinator C001. She expressed that she wanted to hospitalise me again as she believed speaking His Word, receiving visions from Him and helping people who are homeless on the streets of Manchester was a mental illness rather than a calling from God. She says exactly this in a letter she penned herself to my Parish Priest in July 2018.

Re: TIMOTHY BEHRSIN **D.O.B:** [redacted]

Address: [redacted]

I am writing this letter in my capacity as Care Coordinator in the Central Community Mental Health Team for the above named gentleman. Mr Behrsin has a diagnosis of a mental health issue and has been under the care of our team since his discharge from hospital in December 2017.

Mr Behrsin continues to report hearing the voice of God and receiving visions and instruction from these. He states that he finds these helpful in supporting his desire to live a Christian life. He has also expressed a wish to explore these phenomenon from a religious perspective.

It is the view of the CMHT that Mr Behrsin's experiences are as a result of his mental health diagnosis. However, the team also acknowledges that he has a sincerely held religious belief and his experiences, as he describes them, appear to fit within the parameters of a Christian religious belief system. It may be that support to explore these experiences with a person of faith would be helpful for Mr Behrsin.

Mr Behrsin is currently compliant with his prescribed medication and is happy to engage with CMHT staff.

Yours faithfully

In this letter she effectively denies I could have God speaking His Word to me. This is what the mental health teams said to me over 2 years since March 2017. She says I am mentally ill because I say what I know to be true, my firmly held religious beliefs. What I say, and as she says too, is that my beliefs are Roman Catholic, they are Christian. Just this letter is proof of religious persecution by the NHS, the British

Government.

I was asked to write a series of letters about Islam and the Islamic people by Our Lord. During this time I was told by Our Lord Jesus Christ of impossibilities in the lineage of Mohammed which he is purported to have divinated from God in his writing. These words of Mohammed, I found, cannot be true. I was shown this by Our Lord Jesus Christ. His Word is Truth. I was then told of Peace from Him. Peace on Earth. Peace in 100 years from now. I received visions of destruction, of peace, and I was told to write a single Prophecy about Islam itself. The Prophecy is not about the people of Islam. It is about their kaaba stone which they believe is from Heaven. Our Lord has told me to hide this Prophecy.

I have a backup of this Prophecy in several places on my person.
Solicitors in the United Kingdom have another backup of His Truth, this Prophecy.
In several places on the internet there are backups of this Prophecy.
I cannot remember where they all are right now, but they are everywhere.
Our Lord will reveal where they are to me if ever I need them one day.

It is not safe for me to reveal this Prophecy to anyone right now, because it's not really written by me.
The Court must protect my freedom of expression first, and that includes recognising that the words are also in the Bible.

The Prophecy will be so. I do not know when right now, I have been told by Our Lord to forget about it right now. What He says, becomes so. My knowledge right now is from Him.

I was victimised by my family for revealing this Prophecy, as I was told to for 24 hours by Our Lord Jesus Christ in my diary.

They accused me of sin. They accused me of a hate crime.
The Prophecy is not about a single individual. The kaaba stone is protected by millions of Islamic people. It is an impossibility anyone of Christian faith could go near it.

There is no possibility of me ever convincing someone of Islamic upbringing to do what is written in this Prophecy.

It can only be true through Divine Intervention.
It is a Prophecy which no one needs to believe or prove.
It will happen one day.

In fact it already has.

It is my right under the European Convention on Human Rights to speak His Truth, words from Him. They are religious words given to me by God. There is no question on the applicability of European Law in upholding religious freedom for anything God has imparted on His Saints, predating the current day. The only question which could remain is if these words I, myself, have received are from God.

This is my firmly held belief. This is also my right under the European Convention on Human Rights to speak the truths I firmly hold in my beliefs. There is no question on this either.

Then why is it I have been persecuted and had my rights infringed by my family, by the NHS and by the British Government?

My F001 told me the morning before I fled the country that he wanted to report me to Facebook and WordPress. He wanted my entire diary to be destroyed. He was wanting to destroy what I firmly believe to be the Word of God. All of my diary including but not limited to this Prophecy from Our Lord.

My F001 then proceeded to say that he thought they would imprison me in a jail for speaking those words.

He failed to understand that no person was ever written about in this way by me, ever. I have not incited racial hatred. I have not victimised any Muslim person. Quite the opposite.

I have preached truths to those Muslim people who want to listen to me. I am clearly a Roman Catholic.

Hundreds of prayer cards have been distributed to taxi drivers in Manchester. A very large number of those people are Islamic. Only one person I met did not accept a prayer card from me. Almost all of those people accepted the prayer card and asked about Our Lord, Our God. This is not a crime I have committed. It cannot be a crime. It is what Our Lord told us to do in His Gospel. It is what we are asked to do by Jesus Christ. Today.

People have been doing these acts for millennia now.

There is no crime in what I have said or done.

The previous week before my exile to Rome early in the morning on the 5th February I repeatedly tried to arrange an appointment C001 wanted with me on a regular basis, once a month was agreed. She kept telling me her diary was full and then she said she was going on holiday. I told her to meet me in the hospital reception. This is where she is supposed to be based. She failed to even acknowledge the request.

And I indeed met her, as described, when it was time. Yes the date was 20th March 2019 that the appointment would happen.

She spoke very viciously about me the last time we met. I told her she would hear from Our Lord in prayer and she denied Our Lord had ever been in her life. At this time I requested a new care coordinator. She demanded I take time of work to travel from central manchester to Sale at rush hour and back to my parents house where there is no privacy, my work at that time paid £500 a day.

I wrote a final diary entry in Manchester, not knowing I would be leaving that night. This was late in the evening on the 4th February.

I was shown an impossibility from Our Lord Jesus Christ in the lights on the ceiling in my study when I was told to lie down and rest after this diary entry I wrote from Him. I saw very large rainbows around the lights in a well lit room, three lights were working at the time. I was shown inside the light bulb. They are bright. Our retinas are

unable to do this.

I was told by Our Lord Jesus Christ to be strong. That I would be kept very safe by Him. This has become true already.

I booked a business class flight using air miles, still unsure this was really to be. By the time it was booked I knew this was to be true.

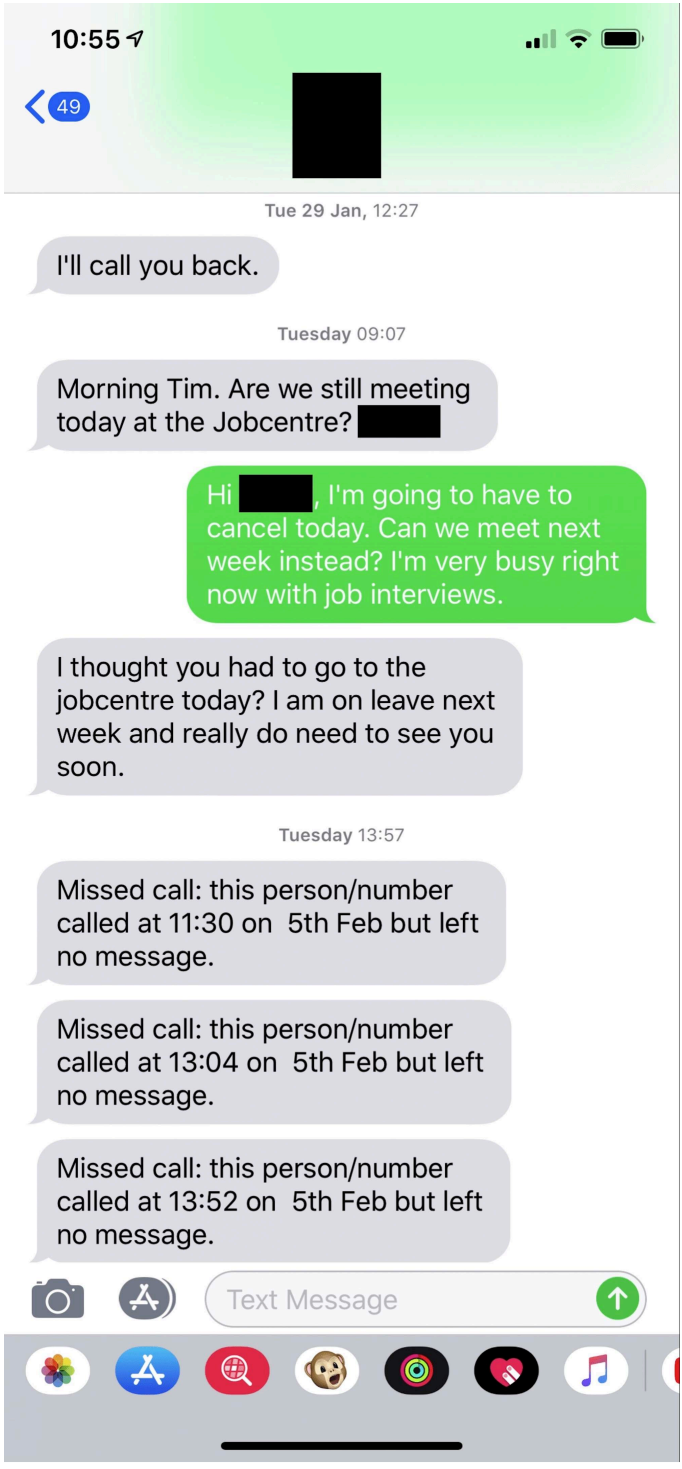

I was then told to pack a small suitcase I was given by Our Lord around Christmas time. I knew not at the time why I had it. I presumed it was to visit a friend who was sick in London, the man I had been told to help in September 2017. I was told to leave everything behind.

I was told I might never see my family again. I cried as I left the apartment and locked the door behind me. I left some lights on and left one window open to confuse anyone who might be looking for me. I was told to do this by God for my safe passage to Rome.

I departed by Uber while an alarm was ringing in the street. I was told the Police would be attending to a break-in report soon and to leave right then. I was very nervous because I was fleeing the country of my birth where I had not been allowed to leave without an escort before. I had only left for holidays with my parents.

I arrived at the airport and went through to the lounge quite easily, with only a little anxiety about being stopped somewhere in Heathrow.

I landed in Heathrow and I was told to find a quiet place to sit in the Heathrow terminal. I saw a message from C001 about a different appointment I had arranged with her. The appointment was not to discuss the section she had me under, it was for her to explain to the Job Centre agent Farrukh that it was her will to give me state benefits. I then sent her immediately a pleasant message back telling her to cancel the appointment. I told her an excuse. I was told to lie to her, I was in danger. This is the message that was sent. But it was that I knew I had interviews with Priests, even to acknowledge my calling.

I boarded the plane, landed in Fiumicino Rome and went through security.

I soon found all my cards were blocked, even with money on them. There was an impossibility I found in travelling at all anywhere to the city.

I was told to witness this Miracle.

I asked many people for help with transport, even members of His Church at the airport. There was a man with his wife who had nothing who kindly gave me water. He gave me an entire 2L of water. He was very generous with what he gave me. These were gifts from Our Lord. He had the Love of Jesus Christ in his heart.

I was told by Our Lord to then proceed on foot to a hotel I booked with a voucher I had from a previous cancellation on lastminute.com. I booked for no reason I knew at the time only one night in the hotel. This was as you will see to be that I would stay only one night in this hotel before I had the booking cancelled. The remaining money on the voucher was used to book the remained of the week once I had been released by the Police the following day. I never received any refund from the hotel.

I was told I would be needing the help of the Police in transport this day. I did not know why at the time.

I arrived before sunset at the hotel in Fiumicino, which is indeed in

Rome, and gave them my passport as is the law.

I was not hiding anything.

While I was journeying to the airport in Rome I wrote diary entries which were not published at that time. I then was told to start revealing them at the airport in Fiumicino. It was at this time C001 found my diary and began reading that I had fled her persecution. She foolishly thought that it would not be possible for a man to book a hotel room on the way to Rome. This is what I did.

What happened in Manchester is what I have been told about by my parents, I still do not have evidence from my medical files to corroborate this. I will therefore write about it separately one day.

I was told C001 raised a missing person request to the Police and the Police took her and my parents evidence. I know for certain I told only one lie to C001, that I wanted to cancel the appointment because I had job interviews. This was enough for her to know I was safe and well. I am allowed to go on holiday, I am allowed to flee persecution. I was told to say this to her, she was bringing danger on me.

I was harassed by her and my F002 that day while I was in the airport looking for some fresh water, there was only a hot water tap in the airport in the bathroom. C001 and my parents repeatedly called me for hours. I was told not to answer the phone by Our Lord Jesus Christ.

When I arrived at my hotel, as one would normally do, I phoned my parents and told them my situation. They offered me willingly money for food and further shelter that week as soon as I told them I had no money. I did not ask them for money, they offered it.

By the time they had done this the restaurants were closed. It was God who provided me with two delicious cooked breakfasts on the business class flights to Rome through Heathrow and food before I left the apartment in Manchester.

I had three meals that day.

No one had told me there was a search request made, my parents said nothing of the kind to me. Later they told me they had been sitting in a Police car giving evidence outside my apartment in Manchester. This was not right that they did this. It was not right that they did not inform people I was safe and well that evening when they spoke to me.

They wanted me to be extradited back to the United Kingdom by force. This was known to be true anyway by everyone with power to extradite me in the United Kingdom.

I was told by Our Lord Jesus Christ to trust in Him. He sent me to bed after giving me confidence I was safe. I woke in the early hours of the morning to see a man who I knew was Jesus Christ standing to the right of my bed. The lights were on. I did not understand what was happening. I saw no one was in my room when I saw Our Lord to my right. The lights were on. I would have seen someone to my left if they were in my vision.

I was told by God to be frightened. I screamed out loud. The Polizia who actually were in my room would have witnessed me fast asleep, they would not have been able to wake me, I would have woken startled looking at what they would have seen to be a wall. They would have known I was screaming at a wall. This was not why I screamed. I screamed not at a wall. I screamed because I saw Our Lord Jesus Christ looking at me fearfully.

I then saw one Polizia edging towards me on the left of my bed. He looked concerned for me. At first I did not understand what he was doing there and asked the Polizia I now saw in my room why they were there, what had I done. They would not have understood, they did not speak English.

They brought me back to the Police Station across the road from the hotel and asked me to sit with them in their office. I charged my phone and started speaking His Word, the words Our Lord asked me to say to them, through Google Translate.

They asked me to stay behind a locked gate in a cold, dark prison cell

overnight. The bedding was uncomfortable however I was given gifts I had received before from Our Lord of sleeping comfortably on this hard bed. It was inappropriate for them to have left a tissue under the pillow, I hope it was not intended for me. It might have made it all the way from the psychiatrist at Hammersmith and Fulham.

In the morning I was told to wake by Our Lord Jesus Christ and go to the bathroom, a hole in the floor. As I was finishing and washed my hands they opened the gate, it was the right time that Our Lord woke me to be released from my cell. I went through back to the office of the Polizia station.

They had changed shifts and I had to speak to new Police Officers in the morning to explain what had happened.

I repeatedly told them I was suffering religious persecution at the hands of the British Government.

They spoke of their beliefs and His Presence in their lives as Roman Catholics and told me they believed what I had said.

They spent hours negotiating with the British Embassy for my release. Finally the British Embassy withdrew their request.

They were good, loving, kind people in this Police Station.

I trust the Italian People. Roman Catholicism is their faith.

To summarise

This is religious persecution in the member state of the United Kingdom from the period of April 2012 to the present day. It is ongoing.

I am the victim, Timothy Behrsin, I am in exile because of their actions.

They have violated my basic human rights, they have stripped me of my dignity, they have taken 7 years of my life.

Compensation must be paid.

The European Court of Human Rights must uphold my religious freedom as a Roman Catholic citizen during this time.

This document is a true statement of fact.

Please help me Jesus, I am needing Your Love.
My F001 is threatening me with slander.

I need to write what is true.
I need to write Your Truth.

Please help me with what I need.
I need You, right now, in Truth.

Please help me, Lord Jesus, I need Your saving help.

I love You, Lord Jesus, I need You and my family.
I need You, Lord Jesus, I need Your Love and Peace.

Please heal my family.

Please help them see Your Truth.

My Lord spoke to me His Word, He breathed His Word in my thoughts:

“Your parents are not with My Truth.
They are angry, they are hurt.
What I have written for you is true.
You know yourself these are true.
I have proven to you they are true.”

Thank You, Lord Jesus, all I need is Your Peace.
Thank You, My Lord, My Life, My Love.
I love You, Lord Jesus, my life is for You.

But there was a problem when I returned home

I have basically become Job.

My family as I was travelling to be with my F002 and F001 in peace, they took everything they wanted and again destroyed.

They alerted C001 and she signed me over to the doctors.

They accused me of sleep disturbance and yes of course religious delusions.

This is the story of eternal damnation in NHS hell.

It is my wife I need desperately. I need her name, and I need her smile.

I need your love my darling wife. Please my honey bee, please help me.

My wife, please help me, please remove my family.

This is hell I am needing you my princess bride.

So here's a little thing, let's rewrite the textbook

Wed 20th March 2019 3:28:21 pm GMT+00:00  Timothy

https://wisdom-and-love.org/diary/2019/03/20/so-heres-a-little-thing-lets-rewrite-the-textbook/

Yes, so there seems to be confusion in the NHS about how the human mind works. If you'd like to know more I'll happily write it, only if I can talk in your words.

So here we find a little conundrum, basically I'm just going to issue my GDPR request, I know it's already been spoken to them, but they didn't really question my Roman Catholic terminology.

Yes, in fact I said this one thing, that I wasn't hearing voices, but instead yes after thinking, yes I think I was just thinking.

And yes, some thoughts are a bit wild, but hey, they are also in the Bible.

But this one too, I think I made a faux pas.

Yes I described visions, but I think they're just thought. Yes little images in the mind. Like memories you might know. They might not even have electromagnetism involved but instead simply a part of the brain with thought.

So I think we should find that they're not very scary, and my wife this is for you, yes it's escape to Egypt this is really about.

Everyone let's see something fun, yes it seems D001 has stated something she has no evidence for whatsoever. She needs to go. Please D001, let's try to give you a job, please go to the Church and be a counsellor.

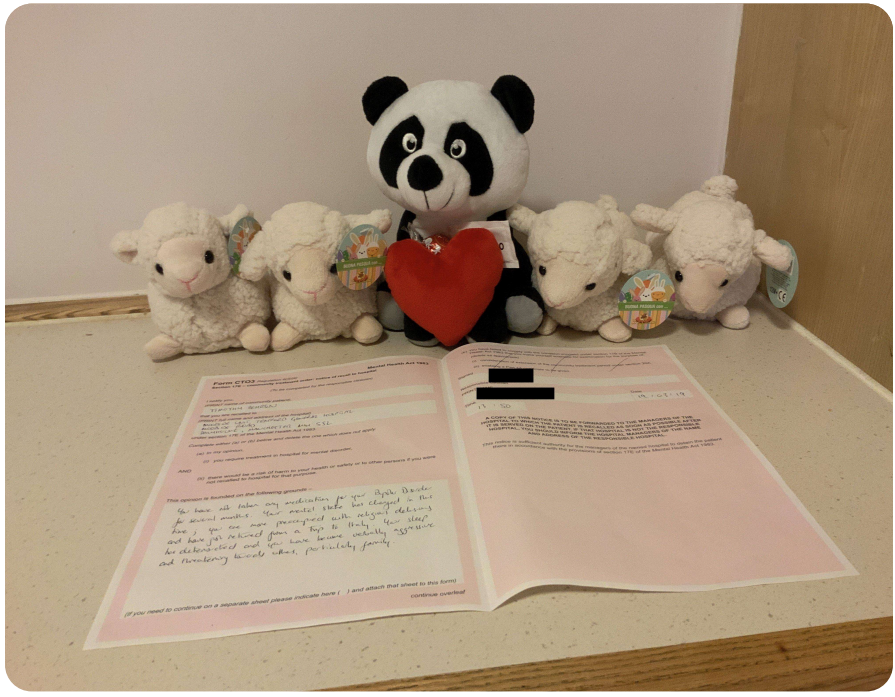

I have been calm and peaceful in Italy, everyone knows this, no one can even build a witness statement in truth for me not being happy

and joyful when free from the NHS.

She also states that I've got a preoccupation with religious delusions. That seems a bit harsh for a Roman Catholic with a, yes, case against them for religious persecution.

In fact the truth is these people are preoccupied with taking away my faith. So there we have it, let's pretend for a while I don't believe anything at all but their little lies.

Which I'm not really going to do, but why not, I'll tell them some truths too.

What she has written isn't even true.

C001 woke me up when I was peacefully asleep.

I had a nice evening with my parents, my uncle and my good brother Stephen Owen. There was even some kind words I gave to him when he decided smoking was sinful. Yes, the cigarettes he wants are really

a gift from Our Lord, and he even knows he's had them bought for him before.

Stephen Owen wouldn't let me sleep the night before and he was quite aggressive and took photos of my iPad without permission. He even started to poke me in the face.

I was peaceful and calm and they even kept telling me I was mumbling. They even tried to steal my passport when I went for a smoke.

Not at all did I raise my voice to them, any of them at all. They just didn't want to reveal that they'd already formed a trap, when I had confirmation from my Uncle F007 that it was not a trap. Yes he even made it clear to me what was about to happen as I preached to people peacefully in Fiumicino Airport. Yes I was even greeted many times with thanks and praise to Our Lord.

So there, how can it be I was verbally aggressive?

No evidence do they have, yes no evidence of anything I've done written there in D001's video diary. It's really quite obscene that they don't even have any evidence whatsoever of any anger at all.

I've only ever seen her twice in my life, at least a year ago I saw her last.

I think we've seen this before haven't we? Oh yes, there's a pattern here that the NHS need to look at.

What's this verbal aggression to family about?

Do my family know that they have a little pattern themselves? There seems to be verbal aggression from them, yes even my F001 asked to take a vote. He raised everyone's hands even my F002's right hand he raised himself with his left. The question he asked was who thinks Tim is ill, and yes every time he asked the question their hands were down. It happened three times, they put their hands down every time and only when my F001 asked to raise them did they do so. The reason is

quite clear, my F001 is basically voting for everyone.

Do people realise this man has been bullying me and really slandering me to everyone I have ever known into 7 years of NHS hell.

F001, my dear F001, please find the little tortoise I left for you in Moorside's nursing station.

The NHS holds me again against my will

Thu 21st March 2019 11:49:38 pm GMT+00:00 Moorside Unit, Urmston, UK

Timothy

https://wisdom-and-love.org/diary/2019/03/21/the-nhs-holds-me-again-against-my-will/

There is a reason I am now happy.

The NHS is finally listening to what I have asked.

I have asked them to look again at the evidence.

Please know I don't want any medication.

Then take 3 weeks to decide.

If you like I'll stay longer, but please know there won't be any medication inside me at all.

If you don't believe me, run a test, check what those chemicals inside me have done to my blood stream.

There's an impossibility in doing just that.

Yes, I doubt they even will hold me.

I am in Moorside now and have done what I was asked to do. Please see the diary entry in January.

Our Lord told me I am in danger, and yes also from the NHS, and He asked me to hand myself in.

Everything I'm doing is what Our Lord has told me.

Yes even denying Him to these people.

I am with Our Lord Jesus Christ

There was more that happened in this place than I can say.

The sins of these people are many. I have reported everything I could to the world.

I have notified the newspapers, I have notified His Church, I have notified the Police and the Government.

There is nothing more I can do than know one thing: Our Lord God is with me, in every way.

He saves me.
He loves me.
I am for Him. Of Him. With Him.

This is the day of Our Lord.
This is the Way of His Truth.
Bring me Lord the Way of Your Life.

And this is news to me, I’m back in Sale Moor

https://wisdom-and-love.org/diary/2019/03/19/and-this-is-news-to-me-im-back-in-sale-moor/

In fact I really want to live here, in a beautiful little flat.

Yes my grandmother and grandfather were bought an annex to the family home.

In fact there is a place outside where I know a statue of The Immaculate Heart of Mary will live.

My F001 has even planted nice life there, daffodils I think.

There’s meaning to this, F001, you’ve even marked out the spot. Thank you.

I think I’ll need to head to the removal van to try and get back my stuff.

Here, basically some prayer cards and yes all the holy images on my wall.

I think I’m going to remove some TVs and even maybe yes the wardrobe. An electric piano is needed somewhere, our life is needing peace.

Oh yes, and I even flew from Fiumicino and flew over the mountains of Perugia.

My dear baby girlfriend betrothed, yes we just need to buy a cot. I think we might know one to find, yes a little Servant of Mine. Wayne and Tracey, do you know where we can buy a cot?

Stupidity of criminal damage from the NHS today

Sat 23rd March 2019 6:54:57 pm GMT+00:00 Moorside Unit, Urmston, UK

Timothy

https://wisdom-and-love.org/diary/2019/03/23/stupidity-of-criminal-damage-from-the-nhs-today/

N010, I forget your last name, probably because you can just look up your file you've just created.

I went to you this morning about 11am and you told me a 72 hour recall is automatically converted to a Section 3.

You and N014 scrambled today to basically find any way you could to keep me after 72 hours.

You found the duty doctor, his name will be in the notes.

You then after 14:00 decided to break the law. You refused to let me go.

There is no signed Section 3 paper you have.

And yes, there is no way you have it.

The reason I know this is because you revealed it in questions I was told to ask you.

Yes, you are doing this routinely with patients, basically waiting the weekend after the 72 hours has expired.

You then tell me C001 and the doctor I saw on Thursday have signed the Section 3 already.

You have failed to produce any written evidence of a Section 3. And this is criminal of all the people on duty.

I reminded you all that you were breaking the law and even the duty doctor knew this.

I phoned the police and the woman was Sandra and the time was 14:19 and she said there was no reason to doubt you.

But there is as I told her criminal activity in my section, there is even a file about you held in the Police station in Manchester and Fiumicino.

Yes you've done this before but when I was in Italy, I was released and they asked the British Embassy to release me too.

You never did this, C001 has lied to D001 in her statement.

Indeed there has been no evidence of anger at all during the entire time I have been in the doors of Moorside.

So where is it you're going to go now? Hopefully prison one day, but I doubt it, because you all seem to be protected from criminal prosecution.

The best outcome for all is those responsible lose their jobs and find new vocations in counselling.

If you'd like to question any of these statements then please release them to the public and I will reveal who is who.

I'm since 14:00 on the 23rd March 2019 held without any section at all.

No section papers have been signed and there has not been a Mental Health Act Assessment done.

Please don't destroy any of the notes you are making, I can make sure you will pay for it if you do.

N010 has lied to the medical file

Sat 23rd March 2019 7:04:04 pm GMT+00:00 Moorside Unit, Urmston, UK

Timothy

https://wisdom-and-love.org/diary/2019/03/23/nurse-herman-has-lied-to-the-medical-file/

I received after a couple of hours a simple note. He wrote just then. He even thinks he's read me my rights.

This is not the document one receives when sectioned under Section 3.

Please see the date of the section, this was the morning I was interviewed by the doctor on the document but there was no Mental Health Act Assessment, and certainly C001 the last time I saw her was in the lobby when she handed me the CTO3 paper.

So C001 has actually no first hand assessment.

She has in fact doctored evidence and given slanderous words to D001.

D001 should recognise one thing, that 'delusional beliefs' are unfounded statements for detention. The reason is, there seems to be a little confession from the NHS, yes under European Law this is illegal. One is entitled as I've shown by the European Convention on Human Rights, to one's own beliefs even if they are the only one who has them.

And yes, not a single person ever in my life has ever suffered harm from me. Quite the opposite towards me, because yes C001 seems to be really on the war path along with many others in my old family and the NHS.

I remain under no section whatsoever right now, 5 hours into illegal detainment in Brook Ward in Moorside.

I expect they will doctor moor evidence, and this will of course be presented.

The incident with N000 and toast

Sat 23rd March 2019 7:07:26 pm GMT+00:00 Moorside Unit, Urmston, UK

Timothy

https://wisdom-and-love.org/diary/2019/03/23/the-incident-with-nurse-jackie-and-toast/

There is a little reason some people in the main book might have seen a little evidence last night.

I asked N000 if she could make me some toast but she decided she wouldn't want to do it.

I then went to N003, a nice born-Catholic man, and he has the love of Christ in his heart.

He offered to make me toast, it tasted delicious, and I thank N003 for his lovely words.

N003, I'm sorry, I don't know your surname, but N022, N001, N023, N003, please all know you're not written into this case.

Thank you everyone for the toast.

Oh yes, and N000, if you refuse to make me toast again, please just don't make me follow you around the ward. I waited 10 minutes for you to finish your little chat with your friends behind your locked nursing door.

Next time N000 just say it, you don't want to. You don't want to help feed your patients.

The papers that were signed by C001 and D002

Sun 24th March 2019 1:17:06 am GMT+00:00 Timothy

https://wisdom-and-love.org/diary/2019/03/24/the-papers-that-were-signed-by-c001/

This is being withheld from me, it is a CTO4 paper discharging me from C001's CTO.

There is a corresponding Mental Health Act Assessment which has not been performed but the papers must be signed already as they're holding me. I do not even believe they have a Section 3 signed. I have not seen such papers.

If anyone can read that paper with C001's writing on it, and that is the best keyframe I found, then please enlighten me as to their allegations.

They haven't even discussed it with me.

It is implausible that I am unwell right now. Not a single person on the ward has seen me with any anger whatsoever.

It is in fact criminal to withhold due legal process when I have reported criminal activity by C001 and slanderous allegations from my old family.

This is the system in the United Kingdom.

It must change.

C001 needs to really answer this: why has she written something which requires me to be placed under close escort and I am not even allowed to leave the ward corridor into the secure grounds in the courtyard without a nurse present. They have disturbed my sleep since I've arrived and they will not even see me get angry.

They will not even let me read it let alone give me a photocopy I can send to a lawyer.

I then showed this to N003 who is on shift, she appears to be in charge tonight.

I was told immediately by her she does not want to read anything I've written, and this is pretty much the problem.

Why do the NHS not listen to the patient they are incarcerating?

When I read it to N008 she explained something different to N018 who brushed aside the documents in the photo. N018 explained that the papers filed led to the 15 minute observations I am supposedly under since I arrived over 72 hours ago.

N008 explained that this has nothing to do with C001, however do know I have no anger at all even when discussing this lack of dignity of peering through my bedroom window ever 15 minutes and shining a bright LED torch into my eyes.

This is criminal, it is harassment, it is unfair and yes very much how they should not treat anyone in their care.

N008 even said I could apply for a Subject Access Request and when I told her this would take 30 days and they would redact any information they wanted, she responded that this was the case.

This is callous, uncaring and immoral.

There is no legal justice in the NHS Mental Health System.

I then went back to N008 and asked her a simple question.

'What is it about hearing the Word of God you think would be called delusional?'

She told me that it is a facet of a mental illness. I asked her if she knew people heard the Word of God. She then went on to say there is a fine line between spirituality and mental illness.

In itself this is telling, they can't tell the difference.

But then I educated her on the law. I let her know that a person's beliefs, even if they were the only one to have them, are personal to them and are protected under both British Law and the European Convention on Human Rights.

She then went on to say that the CMHT, yes C001, who seems to also have signed the Moorside Unit Section 3 without even doing a Mental Health Act Assessment. She said that they had reason to believe that I was mentally ill, and they are trusting this.

But this is not evident in any behaviour on the ward, I have been peaceful with everyone I have met.

But there is another claim in that CTO3 document from D002 and that is delusional beliefs. These are the crimes the NHS are committing, they have no evidence of anger yet they stick to this fictional Section 3.

The letter following has been delivered to the hospital manager, N008 calls her the Matron.

I asked N008 who the email is in copy to, to read every word before proceeding. She seemed to just go back to her work when I asked her to give me the papers in the morning.

They are hindering justice and it is unending.

It is impossible to break free of this corrupt system.

Dear H001, Hospital Matron,

I was placed into hospital by slanderous allegations not borne from fact but lies of C001. She has no evidence for what she has written on the paper I've received.

Your hospital is withholding any other papers.

This includes a CTO5 and a supposed Section 3.

The Section 3 does not exist yet.

I am detained after the expiration of a 72 hour recall. The recall expired at 14:00 on Saturday 23rd March.

I was not allowed to leave the building.

Your nurses have acted criminally.
Your duty doctor D003 acted criminally.
Your nurses this evening have acted with gross misconduct for not detailing what is in their hands and is evidence of the criminal conduct of C001.

How do you expect to survive this?

This is criminal, I have documented this and it is in print very soon. You are only adding to the evidence.

Might I remind you anyone's beliefs, however different they may sound to mainstream beliefs, are protected under both British Law and European Law and I have a court case to appeal with an injunction against C001.

The Court did not have enough evidence and threw the case out based

on my family's involvement.

I intend to seek not only damages from the government but also damages from the NHS Trust in Prestwich.

You are criminal for not responding to me in 2017 when I represented the findings that I made. The bullies then are still in the ward and they even won't shake my hand.

Read this now all of it and realise you are really breaking the law.

N010 the ‘nurse’ grew very angry

Sun 24th March 2019 11:47:40 am GMT+00:00 Moorside Unit, Urmston, UK

Timothy

https://wisdom-and-love.org/diary/2019/03/24/herman-the-nurse-grew-very-angry/

I went to the nursing station and asked N000 if she would be able to let me go into the courtyard. She seemed to say yes.

Then I went to get my jumper and yes she was on the phone.

I then asked N010 sat next to her and he ignored me pretending he couldn’t hear me. I then received a response and he became very angry. I did not even raise my voice. When he started his anger I stood there and listened. He even called me impolite. He told me I was playing games with him. All I was doing was smiling, as one does when one does not want to be accused of anger.

N010 even told me I needed to get dressed. I am wearing jeans, t-shirt and a jumper, and yes slippers which are very fine and warm for the courtyard.

He told me to go away. He said he was busy and to ask someone else. He was very rude to me, and very uncaring and not professional at all.

N013 the nurse was preparing lunch, and he politely refused to take me to the courtyard.

11:45am

Then I went back to N010 to remind him I forgave him of what he did yesterday, a conversation I had with him yesterday before he finished his shift. He shouted at me and told me he didn’t want to speak to me. This was over-shouting me while me calmly saying every outburst of his towards me is being recorded.

N010 needs to be fired.

He even slammed the door of the nursing office in my face as he was

shouting at me.

11:50am

I reported this to N009 she was warm and welcoming. She offered to take me to lunch in the canteen. While she was there she offered to release me from escort around the ward. Thank You, Lord, for this little peace and freedom, freedom to talk freely with your people in the hospital.

I then spoke about Our Mother Mary and the wound in her right hand in Salford Cathedral.

N009 has released me from the suffering of having to stay in confined quarters in the stinking ward of Brook Ward.

N010 I hear his name is, I very much would like an apology. Soon please before you slander me again at the end of the shift.

Oh yes, N010, there is even proof. N009 has taken me off escort while you claim what you do.

Even N013 has been kind and gentle and even shook my hand.

4:00pm

N010 seems to have calmed down. At least to me as you'll see in the next piece of evidence, he is hostile to other people too.

N009 was very kind to me around this time she informed the Mental Health Act office has this paper and it is the case I was informed by N018 and N010 yesterday that C001 is one of the two signatories on the CTO5.

It is my understanding it needs to be two doctors on this CTO5 which is effectively a Section 3 reinstatement and not just an AQMHP. In fact I won't see this until I'm discharged because they won't even release it to my lawyer.

But I have witness statements already saying the two signatories are

D002 and C001, the woman who has been harassing me since 16th August 2018.

P001, my friend in suffering and N010 his abuser

Sun 24th March 2019 4:18:43 pm GMT+00:00 Moorside Unit, Urmston, UK

Timothy

https://wisdom-and-love.org/diary/2019/03/24/philip-my-friend-in-suffering-and-hernan-his-abuser/

P001 is a patient on Brook award.

He has been there since I left Moorside in June 2017.

He is deteriorating in his physical health and is very strong for one thing, putting up with this abuse from the nursing staff at Moorside.

He wanted some fresh air and to stand in the courtyard where he is allowed to go. And N010 decided to wind him up by not letting him out. He restricted his freedom and P001 became a little angry. Some swear words were said, but yes not sinful, he is being abused by N010 and others.

Eventually the kind and loving N010 listened to his plea and she took him outside to calm down.

Immediately as P001 was allowed outside he was calm. He is in control of his emotions and I write this as a witness to refute N010's and possibly N000's records today about him.

P001 is a nice gentlemen who needs physical health care, not incarceration in a stinking clammy unsightly ward in any Mental Health hospital in the United Kingdom.

Anyone who wants to meet P001, he's in Brook Ward in Moorside Unit. You will see he's not well, but he's old and infirm. That is all.

10:12pm

P001 was wanting food, there was none left in the kitchen. I was hungry myself also, we are at the behest of the nurses whim to

prepare and deliver food when we are hungry. We have wants from Our Lord with no care from the nurses. He asked for food with the money he had. N006, the woman, strong armed P001 to his room. P001 is in need of our prayers.

Please hospital treat this man humanely. He needs physical care not incarceration.

P001, my brother, I'm praying for you.

May the peace and love of Jesus be with you as they do what they do to people they make angry.
Jesus, please help this man, your dear son P001.
Jesus, I ask you for Your Mercy.

I asked the other patients to help him.

N006 then found a mess on the floor in the kitchen. She wanted to do harm to P001. I told her it was what I witnessed someone do, that it was someone in the ward. She then started questioning me and I told her quite simply it was no one. I told her it was no one, it isn't true. But there is no way I am going to blame a single patient on this ward for the anger that these nurses incite in their patients. When she continued questioning who it was, a list of names came out of her mouth, she was wanting someone to be written up. That means further detainment in this cage, and I simply told her it was gravity. She said she didn't believe it, with obvious reason, but the point is clean up the mess a patient has made.

That nurse needs to recognise people are hungry and they need to provide the food that they want.

I heard people ordering pizza and I asked them to buy the biggest pizza for £10. Cash was in my room and I went straight to P001 and told him food was on the way. I told him when he asked, this hungry man, he could have all of it, but I do want a slice.

N006 continued to argue with him as he walked away I asked calmly please leave it alone. She then shouted at me and told me off for

calming P001 down and she told me to not tell her how to do her job.

N006 please know this is what you've done before, and I was alone without other patients to point it out to you. Please fellow patients help these Nurses understand but be calm and let them write their slander.

10:57pm

The pizza arrived.

I asked N006 to get P001 from his room. P008 and I ate two slices each and we agreed to give half the pizza to our brother P001.

When I cleared away the box of pizza, I saw the love of Jesus in the patient P006. He had given him more from his stores, which are none, the remaining kebab went to P001. Thank You, Lord for showing our people Your Love and generosity while here in this prison. These are Your People, Lord please protect them and guide them. Please Lord help us give these people freedom.

P001 is old of mind, and N006 was generous in helping us serve each other.

Thank you, N006 for allowing us to diffuse this row that erupted on the ward.

P001's family please take this man home. Please help with His Love, His Peace and His Kindness. Please shelter this man where he belongs.

P001 is now calm and he is no longer hungry. He does need 24 hour care.

He does not need a prison, but instead please take him out for walks in the local park. Please feed him, clothe him with the belt he needs and please shelter him in an open ward.

God bless these loving people tonight with Your Peace. Please help P001 go to sleep in Your Peace.

After P001 requested milk from N005 I asked N005 for the bottle he

needs. I sterilised it with the almost boiling water there was to use and rinsed in cold water. I filled it with the milk N005 provided and the love of Our Lord is in N005's heart. He took the milk and offered it to P001 and then P001 gave him the empty box from the kebab.

God bless P001 and the kind nursing staff this evening for all they have done for us.

I have never seen such kindness for what people have done for P001 than by N005.

Midnight

I heard P001 shouting outside my room.

He had placed himself lying down on the floor.

I helped him up from the floor then N019 told me to stop. Then I was asked by P001 again. I was told by Our Lord to help this man up from the floor. I never gave him a pull. He took my hands and used them to support himself. Please do this very least for this man.

He wanted a cool place to rest in this very hot ward.

He needed to get something off his chest.

P001 needs a woman, a female nurse to care for him. He needs to be treated with respect.

One shower, that is a bath, from a female nurse, wash him where he needs to be washed. Do not even think to provide a male nurse to wash him, this is undignified for any man.

He needs his eczema treated every day, with medicine available in the cupboard.

He needs love of every member of his home.

This is what P001 needs for his retirement.

Please take him out into the parks around Moorside, please don't leave

him alone.

Please give him freedom to walk outside any time of the night. Please give him peace and comfort while he is going to Our Lord.

Please don't abuse this man, he has suffered enough.

Our Lord Jesus Christ, please help these nurses care for P001.

1:00am

At 1am I was woken again to the suffering of P001.

I found him lying almost face down on the floor next to a chair he was provided by the nurses outside the nursing station in Brook Ward.

N019 was looking on.

I pleaded with N019 and N005 to turn a blind eye and let me help the man up again.

P001 pleaded and called my name, Timothy, I tried to help him without offering him my hand.

P001 had his left arm trapped behind his torso and his right arm raised onto the chair. I went behind him about a metre away with my hands behind my back and told him what he needed to do. I told him to turn his torso to his right where I said my hand would be.

P001 was unable to move.

I asked N019 and N005 to help this man, they told me they had to leave him there. The Night Nurse had told them he had to help himself up, and I could visibly see his arms shaking. He does not have the strength in his arms to raise himself up. He is older than his years.

I asked the nurses to go inside their rooms so I could help P001 without them breaking their regulations.

I was being told to do every single thing I did by Our God and then I was told to obey P001.

I reached out both my hands to help him turn around. No force was there from me. P001 used my hands as a pivot and then turned.

This is what anyone should do.

P001 found himself turned onto his back and he rested on the floor and cried.

P003, this generous patient who has been so kind to me, sat on the chair and consoled P001.

P001 began weeping at the suffering he is enduring.

P001 asked me to raise him up.

Our Lord told me to obey P001 and to disobey the nurses. I was told to say to the nurses 'slander me at your will'.

Their notes are known to Our God before they write them. Their sins have been known before they've done them.

I offered my hand to P001 and then offered my other. P001 asked me to pull him up.

I was gentle and tried to not cause any pain in P001.

His left hand was above his shoulder.

He experienced some pain, but he went to bed, with me taking P001 in my arms.

I walked him to the door and P003 helped him into bed.

P003 offered him peace and a prayer.

I was told to genuflect in front of the closed door on my right knee and make the Sign of the Cross.

P003 became irritated by the conversation started by N006, the woman, and I tried to ask P003 to stop.

P003 stopped after he said what was needed. P003 was innocent in this.

Nurses tonight, N006, N005, N019, N011, this was negligent treatment of P001.

I accept complete responsibility for any injury P001 has, but do know Our Lord is with him.

P001 has not been injured from tonight's negligence by the NHS, but he suffers in bed tonight. He is in pain from the lack of care, by the ridiculous policies of the mental health system, which are so negligent of P001 that it is clear to me he cannot be treated in a mental health ward anytime anyplace anywhere.

Please transfer him doctors to a care facility. A retirement home with 24 hour care.
Please give him 2 rooms and have a live-in nurse.
Please ask this nurse to be paid a generous salary.

12:45pm the day after

I discovered after lunch looking out of my bedroom window, P001, trapped in the back garden. When I spoke to him he was telling me of what was predicted last night in this writing.

He has been placed on escort, not allowed out into the rest of the ward, the courtyard, the activity room or even the multi-faith prayer room locked by the Imam.

I asked N001 to open the door for me, she wasn't aware he was outside. All the rest of the Nurses except for N001 and N021 were in a handover meeting.

I asked N021 if he would escort P001 out so he could chat with me his friend in the courtyard, which is still in a secure building. He told me he was on escort, which doesn't make any sense to me as he was left to walk around a back garden filled with nothing but fencing and garden and not even water or a chair to sit on.

The weather is quite warm, had I not been shown him by Our Lord, P001 would have suffered even more today.

This is wrong.

I have already informed every nurse to place responsibility on me for what happened last night. They are performing a witch hunt and blaming P001 their patient for the anger they incited in him.

N003, please action my request, escalate this right up to the NHS Trust.

GDPR law violated by the NHS

Sun 24th March 2019 6:01:29 pm GMT+00:00 Salford, UK Timothy

https://wisdom-and-love.org/diary/2019/03/24/gdpr-law-violated-by-the-nhs/

I sent an email to The Docs, my GP in Manchester.

I sent this on the way back from Italy.

This request has not been acknowledged.

I would like to send this request to everyone of the British People.

That is, the NHS, the Police, the British Government too.

> *Dear Hospital Manager,*
>
> *Please replace everything in my file from 01/01/2012 to the present date including any further action by Moorside Unit, the CMHT South Trafford and yes, C001.*
>
> *Please ban C001 from filtering any information back to my files in the future, she has no basis to make any other claims, she has lied in my medical file and she has incarcerated me, abused me and harassed me to the present day.*
>
> *The following statement replaces this period in my file, that is all entries from all divisions of the NHS, Police force and British Government:*
>
> *"I am completely deaf in my left ear since birth, this is the only ailment I have, and I like it.*
> *I am an Apostle of Jesus Christ.*
> *I have spoken the Word of God to many people.*
> *I am called to serve Our Lord Jesus Christ in the Roman Catholic Church.*
> *My faith is protected under British Law and the European Convention on Human Rights.*
> *Please stay away from me and my family.*

That includes anyone else who is of Roman Catholic baptism too.

If you fail to do this, this notice is served today, you are committing a crime which is religious persecution, limiting freedom of expression, and also detainment without due process."

Please update my medical file today taking the following two actions:

– delete the slanderous comments, that is all of them, from 01/01/2012 to the present day
– replace with the above statement of truth immediately

Please note also, I myself Timothy Behrsin refuse all treatment both physical and any other from any medical practitioner within the European Union.

If I consent to do so in the future you will need my written signature.

If you fail to act on this request to replace my medical file with this statement of truth you are breaking European Law, that is the General Data Protection Regulation of 2018.

Please ensure all copies of your files are destroyed, including any paper files held at any NHS institution across the country. This includes C001's personal notebook which contains only lies. Please no effigies, but I would like C001's diary burnt on a bonfire at the St Josephs Sale Scout bonfire night on the 5th November 2019.

The only exception to this GDPR request for take down of your slander is one file held by a private dentist called D002 in Sale. I would like him to pay to fix my teeth, because a previous filling he has placed, as he is my only dentist since I was born, has misaligned some teeth.

> *Please do not use any information in the present file as a statement of fact. It is lie.*
>
> *Kind regards,*
>
> *Timothy Behrsin*

I do of course anticipate the British departments will be breaking the law again. Snigger, yes. Another few million to add to the claim.

6:15pm

At 18:15 this notice has been served to the ward. They are the only ones with capability to pass this to the hospital manager H001, because she doesn't even read her emails.

N000, this is for you, the piece of paper was written twice and given to N001 and N002. Those two nurses said they would action my request to leave the piece of paper for all the nurses to read.

This notice has now been served.

The Lord is with our brother P001

He may be angry at times, vulgar in his language he may be in his mid 50s.
But this man has suffered greatly in his life, and he needs the Love of Jesus Christ.

Thank you P001 for letting us serve you with His Kindness this evening. I wanted to do more but there were others to help. Thank you P001 for being my friend, and please don't thank me again, thank Our God for those gifts you received. It is He who gave you those sweet gifts of Love and Life, He is Our Lord and He is The Giver of Life.

Let us thank Our Lord God.

This man is Our Lord's.
Give Him everything from your stores.
Give Him Life from Our Lord.
Give Him dignity, hope and Our Lord's Salvation.

P001 I love you.
P001 I want to help you.

In the prison of your body you want Him to Love you.

In the prison of this ward He wants to set you free.

Please P001 just be with Our Lord.

I love You, Jesus, please shelter this man, Your son.
I love You, Lord, please help him understand.
I need You, Jesus, to be His Lord Jesus Christ.

Please Lord, give this man Your Life.

In the name of Our Lord I ask us to say one prayer for the suffering

aged in Moorside.

Bring them to You, Lord,
show them Your Love.
Take them all the Way to You.

Peace be with you, P001. May the joy of Jesus Christ be with you in your hour of need.

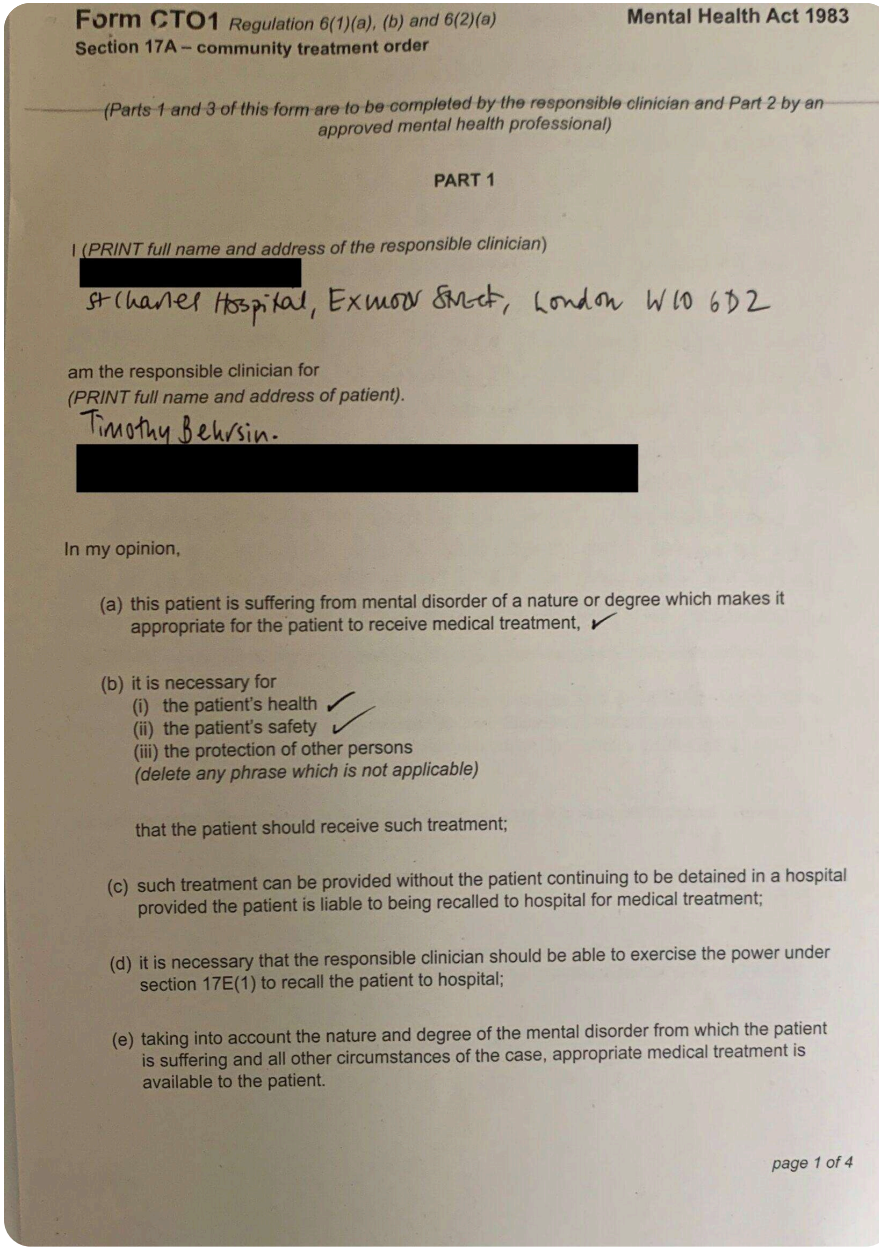

These are the CTO papers and what psychiatrists are trying to do to me

Mon 25th March 2019 1:00:09 pm GMT+00:00 Moorside Unit, Urmston, UK

Timothy

https://wisdom-and-love.org/diary/2019/03/25/this-is-the-cto-papers-and-what-psychiatrists-are-trying-to-do-to-me/

This is the CTO1 paper signed by D000 of St Charles Hospital over FaceTime with then a mental health professional I'd never met before, C001.

Form CTO1 *Regulation 6(1)(a), (b) and 6(2)(a)* **Mental Health Act 1983**
Section 17A – community treatment order

(Parts 1 and 3 of this form are to be completed by the responsible clinician and Part 2 by an approved mental health professional)

PART 1

I (*PRINT full name and address of the responsible clinician*)
[redacted]
St Charles Hospital, Exmoor Street, London W10 6DZ

am the responsible clinician for
(*PRINT full name and address of patient*).
Timothy Behrsin.
[redacted]

In my opinion,

(a) this patient is suffering from mental disorder of a nature or degree which makes it appropriate for the patient to receive medical treatment, ✓

(b) it is necessary for
(i) the patient's health ✓
(ii) the patient's safety ✓
(iii) the protection of other persons
(delete any phrase which is not applicable)

that the patient should receive such treatment;

(c) such treatment can be provided without the patient continuing to be detained in a hospital provided the patient is liable to being recalled to hospital for medical treatment;

(d) it is necessary that the responsible clinician should be able to exercise the power under section 17E(1) to recall the patient to hospital;

(e) taking into account the nature and degree of the mental disorder from which the patient is suffering and all other circumstances of the case, appropriate medical treatment is available to the patient.

page 1 of 4

It states on page 2 of this form 'he hears a direct calling from God and we are preventing him, through unwarranted treatment, from following this calling.' Indeed they are preventing me from following my calling. I'm detained currently for the 5th time in 2 years by the

NHS for doing no more than being charitable and speaking the Word of God.

This is a crime. This is a crime of the NHS. This is a crime of the psychiatrists. This is a crime of the mental health professionals. It is a crime of government workers in full knowledge of their criminality if they are wrong, and if they are not aware, I have told them so many times. I have beliefs which are protected in law. Any beliefs are protected in law.

What she says about giving away money is true, however this has not led to large debts, nor any debts. Instead the NHS forced treatment has led to loss of earnings and has ruined my finances beyond repair.

They can't continue doing this to me or to other people.

But there's something they haven't admitted to themselves. What they've done is criminal, they are government workers and massive amounts of compensation and damages need to be repaid to me by the British Government soon.

The longer it goes on the more money it is and the more unsafe those people's jobs and freedom are who have acted against the law and against my interests.

It is not just me, they are doing this to many people who are listening to Our Lord teaching them in their time of need. Those people may not be Apostles or Saints, they may only need one thing in their lives: Our Lord's Healing.

My opinion is founded on the following grounds –

Timothy has an established diagnosis of bipolar affective disorder but this shows more consistent features of schizo-affective disorder given the entrenched nature of his delusional religious + grandiose belief system which includes believing he hears a direct calling from God + we are preventing him, though unwarranted treatment, from following this calling

When relapsed Timothy is also at risk of verbal aggression, restlessness + irritability. His delusional beliefs have lead him to give away money creating debts for himself.

He has had several admissions, including 2 last year alone, invariably following his choice + discontinuation of medication due to his lack of insight. He had no insight at all + explicitly stated he would stop medication if not subject to CTO.

I believe the framework of the CTO is appropriate to ensure his continued compliance with treatment to facilitate his recovery

(If you need to continue on a separate sheet please indicate here ( ) and attach that sheet to this form)

I confirm that in determining whether the criterion at (d) above is met, I have considered what risk there would be of deterioration of the patient's condition if the patient were not detained in hospital, with regard to the patient's history of mental disorder and any other relevant factors.

Conditions to which the patient is to be subject by virtue of this community treatment order

The patient is to make himself or herself available for examination under section 20A, as requested.

If it is proposed to give a certificate under Part 4A of the Act in the patient's case, the patient is to make himself or herself available for examination to enable the certificate to be given, as requested.

page 2 of 4

The patient is also to be subject to the following conditions (if any) under section 17B(2) of the Act:

To make himself available to the CMHT as requested for review.

To comply with prescribed medication as directed by the CMHT.

(If you need to continue on a separate sheet please indicate here ( ) and attach that sheet to this form)

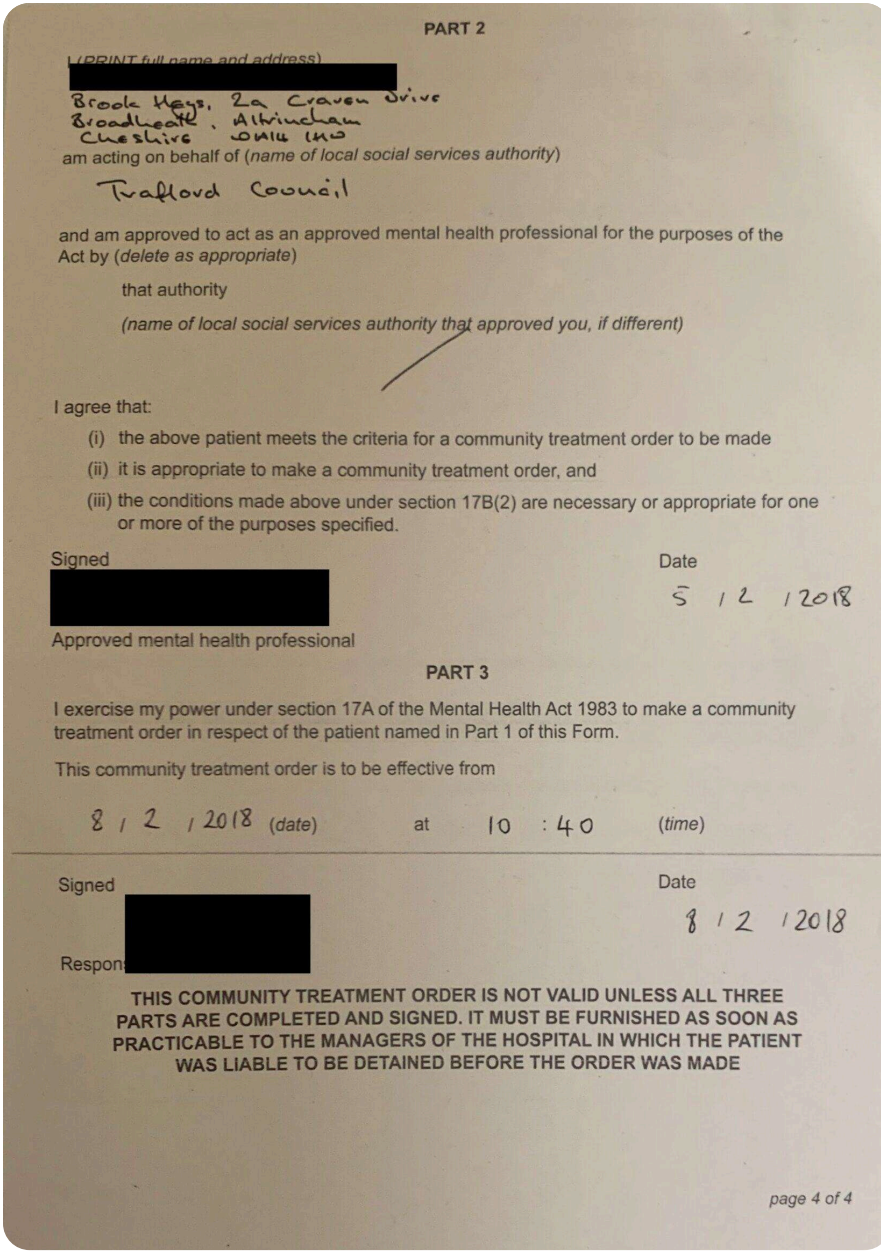

I confirm that I consider the above conditions to be made under section 17B(2) of the Act are necessary or appropriate for one or more of the following purposes:

- to ensure that the patient receives medical treatment ✓
- to prevent risk of harm to the patient's health or safety ✓
- to protect other persons.

Then the CTO7 form renewed this in December 2018 for a third 6 months. They State I have anger problems, this is not true. It is slander from my own family.

They are the ones who have been angry at me for not accepting their label of mental illness in me. This is their crime.

They also state a bipolar affective disorder diagnosis. This diagnosis is complete nonsense as it states, it sounds like schizophrenia or even possibly multiple personality disorder. None of these are true.

It is not psychosis, only one symptom is present from the NHS documentation on psychosis. Acute psychosis it cannot be, it has lasted now 2 years. They refer to chronic psychosis, how then am I able to earn £150,000 per year in a software engineering job. Is it recurring? I'm working since June 2018 on no medication whatsoever. How is this known in their medical literature?

The NHS is devoid of faith, they do not even list on their website about any of those so-called illnesses of the mind with regards to the power of God and recognise that it might even be Him talking to their patients.

How is this scientific in any way?

Even scientists studying Quantum Theory acknowledge God's presence in the Universe. Even atheists, some of them, understand what is possible. And yet they do not even question their own patients and listen to them.

Moorside Unit has no psychology or talking therapy whatsoever. The psychiatrist ignores the patient. They see them for 10 minutes maximum per week. They ignore everything said, and make a case to label them with as many psychotic symptoms as possible.

In my opinion,

(a) this patient is suffering from mental disorder of a nature or degree which makes it appropriate for the patient to receive medical treatment;

(b) it is necessary for

(i) the patient's health

(ii) the patient's safety

~~(iii) the protection of other persons~~

(delete any indent which is not applicable)

that the patient should receive such treatment;

page 1 of 4

(c) such treatment can be provided without the patient continuing to be detained in a hospital provided the patient is liable to being recalled to hospital for medical treatment;

(d) it is necessary that the responsible clinician should continue to be able to exercise the power under section 17E(1) to recall the patient to hospital;

(e) taking into account the nature and degree of the mental disorder from which the patient is suffering and all other circumstances of the case, appropriate medical treatment is available to the patient.

My opinion is founded on the following grounds – cf.

Mr. Behrsin has a established diagnosis of Bipolar Affective Disorder with long standing psychotic features of ongoing religious delusions and auditory hallucinations. He believes that God is constantly in touch with him and that he is being used as a vessel to do his good work on earth like charity, preaching etc. He has had admissions to hospital in the past when his symptoms deteriorated to the point that they were having effect on the activities of daily living. This primarily happens when he is non-compliant with his medication and disengages with mental health services.
He has no insight in his mental health disorder and its presentation and he is very clear that he only engages with mental health services or takes medication because he is on a CTO.
He needs to continue his care under the legal framework of the CTO in order to help maintain stability of his mental state.

(If you need to continue on a separate sheet please indicate here (/) and attach that sheet to this form)

I confirm that in determining whether the criterion at (d) above is met, I have considered what risk there would be of deterioration of the patient's condition if the patient were to continue not to be detained in hospital, with regard to the patient's history of mental disorder and any other relevant factors.

And then there's this one, the revocation of the CTO leading to a fresh Section 3 for detainment for up to 6 months again. They could renew that Section 3 indefinitely if they wanted to. It's completely in the hands of the psychiatrist who prescribes drugs.

It's nonsense. They do not even want to witness my Roman Catholic Chaplain from St Charles speak of my mainstream Roman Catholic Faith. Then when she removes all freedoms from me she won't even come to see me, and walks past me sheepishly, saying at 15:50 she needs to go home. Criminal!

The patient has a diagnosis of Bipolar Affective Disorder and has not taken medications (Aripiprazole 10mg and Depakote/Epilim Chrono 500mg BD) since December 2018. In February 2019, he 'fled' to Italy to avoid 'NHS persecution'. The notes document that he tried to get through Vatican as he wanted to discuss his prophecy with the Pope. He is reluctant to discuss this. He appears extremely guarded and evasive when probed regarding psychotic symptoms. His mood was euthymic with incongruent smiling. He lacks insight in that he doesn't have a mental illness and doesn't want to take treatment. He did express paranoid beliefs about the NHS persecuting him and abuse by NHS and bullying by his father for the last seven years. He wanted his interviews to be tape recorded and used terms like 'witness statement'. Thought content had religious theme and there is risk of retaliation from others due to him challenging other religious beliefs. He denied spending excessively as reported by his father. He has plans to travel to New York imminently, so is a flight risk. He is due to receive backpayment (court fund), which he may use for this. Section 3 MHA is appropriate to re-instate treatment and manage the above risks.

Today's sinful activity by the nurses

Mon 25th March 2019 2:05:06 pm GMT+00:00 Moorside Unit, Urmston, UK

Timothy

https://wisdom-and-love.org/diary/2019/03/25/todays-sinful-activity-by-the-nurses/

I witnessed N015 searching for work to do. I told her that she needed to sterilise P001's bottle which has a nozzle not dissimilar to what a mother would give an infant.

The bottle needs sterilisation in boiling water once a day.

It has not been sterilised in weeks.

I gave him the bottle last night sterilising with under-boiling water from the kettle tap that is provided in the kitchen.

I asked N015 several times, she is a junior nurse, she has ignored every request.

I spoke to N007 and told her one thing, that she needs to make sure the junior N015 actions the request to sterilise the bottle that P001 has and I even clarified which room he is in.

She ignored the request, and I told her I would write it up.

I also learned today that our brother P007 has been slandered in his notes from last night too. They will learn that they have written he has stayed up late. This is not a crime, sin, or mental illness. That man is a voluntary patient and I've warned him to leave as soon as he can. But I know they are already building their case to keep him in. I have concealed his name as he is very very innocent. He is a nice man and it is clear that he has not understood what he is doing by giving himself to this hospital voluntarily.

Then I walked back to my room and there was a man shouting in his room, at himself, just because he's incarcerated. He needed to let off

steam, there is no where to do this safely. Please everyone just leave this man alone.

Then N007 goaded him into getting further angry. She made him more and more angry by entering his room when he just needed peace.

Then she told him 'I want you to come with me to take some medication.'

This is their answer to their own problem of locking everyone up. Please stop it now, let everyone go. Everyone who stays, wants to stay, those who don't won't.

Then there was a little sin of N004. I told her plainly to keep watching my pulse. Our Lord knew there was a fire alarm to go off. The fire alarm raised my pulse to 134. Then my pulse dropped back to 118. And then when I asked her to witness this she just ignored me.

N004, I have been teaching you before, I very much like your hospitality, but you do need to listen to this evidence: the ward itself is making people not peaceful, locking people here is a fait acomplit. If you keep people here restricted with the freedoms which are theirs, you're actually harming people not healing.

This by the way is very evident in all patients in the NHS, they do nothing but leave people in a coma.

C001 is continuing to harass me

Mon 25th March 2019 4:17:09 pm GMT+00:00 Moorside Unit, Urmston, UK

Timothy

https://wisdom-and-love.org/diary/2019/03/25/c001-is-continuing-to-harass-me/

Harassment is a crime.

There is evidence in her personal notebook. I ask the CMHT of South Trafford to take her notebook, if she fails to do so or begins tearing pages out of it, please place her under suspension for 2 months while this matter is resolved.

C001 has no permission to care for me in any way.

C001 has been harassing me for months.

She has signed a paper contained in the evidence of 5 illegal incarcerations from the NHS. This paper proves her criminal act of calling my Roman Catholic Faith delusional.

She has made the claim in the CTO3 paper of this incarceration, evidence she herself did not witness but gave to D001.

She has given false evidence to the NHS, she has given false evidence to the Police in the United Kingdom. She had me held in a prison in Fiumincino, Rome by giving false evidence to the British Police.

She has lied about me.

I request the CMHT of South Trafford to immediately prevent her from taking any further actions with regards to myself Timothy Behrsin.

Please ensure C002, a Roman Catholic, becomes the Care Coordinator going forward.

Please note I am still held here, there is no evidence of what D001 has written. I have not been angry, nor raised my voice.

I am not on medication, I have proved to the hospital that I am well

and have been off medication since 16th August 2018.

Please CMHT, action this request, I have phoned you myself, I have requested in November 2018 to C001 to bring C002 forward as my Care Coordinator, she has ignored my requests and continues to slander me.

C001, do not even enter the ward round tomorrow.

The nurses know what you have done.

N007 accused me of breaking the hospital policy and threatened to put me under escort

Mon 25th March 2019 5:30:03 pm GMT+00:00 Moorside Unit, Urmston, UK

Timothy

https://wisdom-and-love.org/diary/2019/03/25/nurse-accused-me-of-breaking-the-hospital-policy-and-threatened-to-put-me-under-escort/

What escort means is basically one is not allowed out of the ward. That is the smelly stinking slimy corridor of Brook Ward where 23 males share 2 bathrooms.

This is N007's crime.

She accused me of smoking a cigarette.

I told her as I continued to smoke my electronic cigarette that she was not knowing what was true.

I told her plainly that she has not seen what was true.

I hereby show you the evidence.

Please check the CCTV cameras in the courtyard where she accused me. Please search my room with me present and you will find no evidence in my room of smoking at all.

Please check her slanderous medical note.

16:50 25th March 2019

She said she wants to restrict my freedoms by writing what she thought she saw. What she saw was not true.

She has a prescription for very strong glasses, I think she needs to check her eyesight.

Nurses and doctors of Moorside Unit, you have no evidence at all of me smoking any cigarettes. Please discard this medical note and suspend N007 from Brook Ward.

I reported this complaint and delivered it to N014 who is the duty nurse in charge. I reported it at 17:30 and told her that N007 has written slanderous lies in my medical file.

N014 was then approached again at 17:40 and I showed the electronic cigarette above which I was smoking.

N014 said she hasn't filed it, the concern she said. I informed again it was a complaint.

I told her all the nurses have had access to my diary since I arrived in Moorside last week.

She will not even act on an official complaint about N007 and the slanderous comments she has left in my medical notes.

This will be seen by the Court.

N014 said she is acting in my best interests and will investigate this today.

She read the above 5 paragraphs and told me that because she is acting on it my statements are not truthful. She called me a liar, when I was asking The Holy Spirit what was true.

What will happen is that N014 will not even read the evidence presented to her but instead support N007's incorrect witness statement.

I have provided evidence and it will not be seen by N014 even though 200 people around the world every day, yes you, are reading this very text.

That is called not acting on it.

N014 will act negligently. She should be suspended too.

At 18:50 I was told by Our Lord to ask for biological evidence of what else they need to see. Yes I was not angry, I was calm.

They all knew I was calm and even let me into the courtyard and activity room unescorted. How kind of them.

I asked N014 who lost her nerve when she failed to see there is an error with the pulse meter they use.

Lisa has to take over and it is clearly visible even their pulse meters don't work. How is it I am in cardiac arrest and then suddenly fall down to my natural even of 90-120bpm.

This is what they fail to see, there is even an error code. Hospital? What does that error code mean?

N004?

Does anyone care to explain how my pulse varies from 227 to 115 in a matter of two seconds.

The only explanation is all your pulse meters cannot read patients pulses. You better revert those statements you make about Lorazepam too until you can reliably medicate people for what you call agitation.

Everyone should know cardiac arrest is possible at this level of 227, yet why am I not being transferred to the physical health hospital.

I even told N004 and N007 this is what their false allegations do to people.

As I have been writing their care is what is making people agitated, not the people being agitated first.

N015, the kind junior nurse who fed me

Mon 25th March 2019 9:29:08 pm GMT+00:00 Moorside Unit, Urmston, UK

Timothy

https://wisdom-and-love.org/diary/2019/03/25/n015-the-kind-junior-nurse-who-fed-me/

There is a junior nurse I've written about called N015 and she is a kind lady.

I was hungry just before supper time and I asked her if she could find me food from the fridge in the staff room.

She generously offered her time, even when she's running late for the bus.

She offered to find me food, nice food it was as well.

Because she gave her kindness, the food tasted good.

It was not given in anger, as many of the things of this ward are.

> *"Extortion turns a wise person into a fool, and a bribe corrupts the heart."*
> *Ecclesiastes 7:7*

There was a time when I accepted all gifts as generosity, but Our Lord has made it so that I am unable to even eat food given in anger.

I went back to the table, the nurses had prepared later. I took food from that table, and I couldn't even swallow it.

This food was given to the ward, it is cold when it is served. It was not made with love, it was made with contempt.

N015, thank you. Your generosity knows no bounds.

Please find a vocation in the Church.

Please know you're welcome in Our Lord's House.

God bless N015 and her family to come.

This is the medication card after 6 days in incarceration from the lies and slander of C001

https://wisdom-and-love.org/diary/2019/03/25/this-is-the-medication-card-after-6-days-in-incarceration-from-the-lies-and-slander-of-c001/

C001 has detailed a need for me to take medication.

It shows on the following prescription card I have not taken any medication.

I have not taken drugs from the NHS for 6 months.

I am clean and healthy. Yes, I am off their dope.

Please see this for yourself and correlate with the previous evidence.

C001's assertion is clearly unsubstantiated.

It is quite clear to everyone who reads through these posts that they can only think I am a devoutly religious person.

My rights are protected, I am entitled to my own beliefs. My faith is Roman Catholic and is confirmed in not only the Priesthood, but also by reading any text which my writing refers to.

The claims C001 have made about giving money away to people I help on the streets is really telling of her own faith. She clearly does not recognise the need to clothe, feed and shelter the suffering people on the streets of Greater Manchester, Rome, London and pretty much everywhere in the world.

If anyone stops me doing this, just know Our Lord has shown me the way. He even has provided me a nice payout from … 🤔 yes, just know I have money when I need it.

I even have a CitySuites apartment paid for when I am released from Moorside, and yes, I can just book on the day. I lived there before, I like the breakfast, the rooms all are very nice. And it's in central Manchester just down the road from Salford Cathedral.

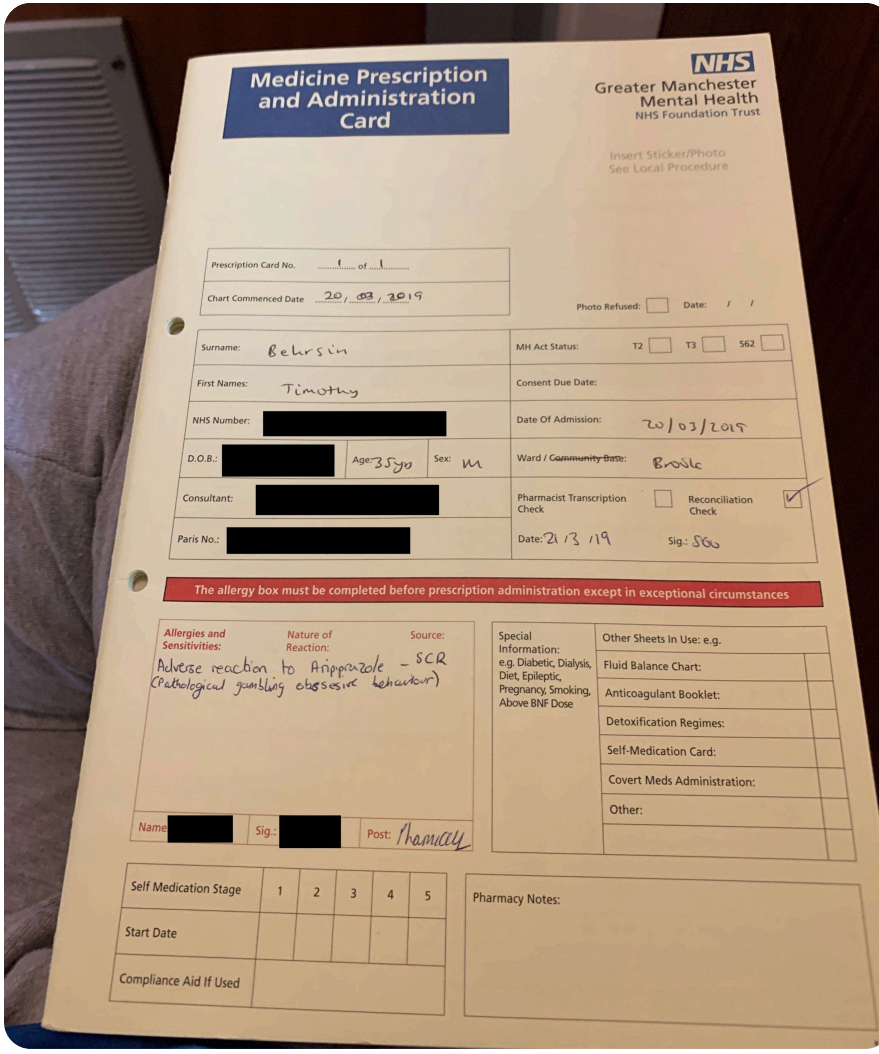

Please release me as soon as possible. You really don't need any more evidence.

You're not going to goad me into anger, and yes, I am being helped by Our Lord.

If people can't read the front, just know there is an US FDA finding that Aripiprazole is pretty awful, in fact it causes compulsive behaviour. Just the kind of thing, no one should ever be taking.

In fact let's look at Olanzapine, do people understand why I put on 7.5 stone in under 6 months from a doctor's decision in the PICU ward of St Charles in London to do something completely against common sense, and my own advice.

Please listen to me next time everyone, I really don't need your treatment.

YEs C001, not a single dose of your Lorazepam tablets did I take. 🤫

And everyone who wants to see more, I'll be back tomorrow after the ward round, to really speak some truths about the NHS.

What is it about first hand witness statements the NHS is not able to use? Do they realise I have told them repeatedly just to read what I write?

They have slandered me, abused me, incarcerated me for my faith. They have taken all my liberty and removed every dignity I have. They have taken 7 years of my life. They have removed my ability to be, anywhere in Europe without the NHS chasing me.

I even received a lot of pain, from every day their little tests. YEs, even those tests that check blood pressure they cause visible marks on my skin. They are painful because they have bloated my weight beyond measure.

I need to leave this continent to escape this criminal regime.

Letter distributed to the Roman Catholic Members of Parliament

This is sent to all parliamentary parties.
It is sent to Mr and Mrs Blair.
It is sent to Timothy Farron.
It is sent and addressed to the Rt. Hon. Jacob Rees-Mogg.

> *Dear Rt. Hon. Jacob Rees-Mogg,*
>
> *I very much respect you. I hope one day I might bow before you and shake your hand.*
>
> *I very much need your help.*
>
> *The NHS are committing crimes against people who are hearing The Word of God in their thoughts. The Holy Spirit is speaking His Truth to me.*
>
> *I have suffered.*
> *I have truly suffered.*
> *I am still suffering on British soil.*
>
> *They are calling our Roman Catholic Faith, the faith of Our Saints, the faith of The Apostles, Our Holy Roman Catholic Church, delusional.*
>
> *I am being slandered by the NHS.*
>
> *They are not following the British Legal System.*
>
> *Please help me, Mr Rees-Mogg, my dear brother in Jesus Christ.*

Please help me and speak about this in Parliament.

Please let everyone know it is today the Government needs to set us free, your brothers incarcerated for their beliefs, beliefs which are protected in Human Rights Legislation.

Please do this Jacob.

This is the Word of Our Lord.

https://wisdom-and-love.org/nhs-is-criminal

Please set me free to love and serve Our Lord in New York State where I am waiting to receive my new mission.

God bless you. May the Peace of Our Lord Jesus Christ help you discern your vocation.

Pray for His Truth.

Patient P001 is in need

Tue 26th March 2019 4:12:30 am GMT+00:00 Moorside Unit, Urmston, UK

Timothy

https://wisdom-and-love.org/diary/2019/03/26/philip-is-in-need/

The patient P001 was making noise at 3am.

He was asking anyone to get him up, he had fallen again.

This is happening every night, he needs urgent care.

Why is no one here listening?

Why is he still on a mental health ward incarcerated for no more than being aged.

This man needs milk every day. 4 bottles of semi-skimmed milk each day. His bottle needs sterilisation each night and each day.

Where is this man's care?
Where is this man's dignity?
Where is this man going, other than to Our Lord one day.

This man needs help.

I went after writing words to my wife which I was given to say.

I heard him peaceful, and I was given want for water.

I found him lying on the floor, with the door closed for peace in the ward.

I found him screaming for help.

This is a crime.

The nurses say they can't lift him, it is against their policies. Again I accept all blame for doing no more than what P001 asked me to do.

He asked for help in getting up.

I went to the nurses office and made the obvious claim ‘I think you have closed the door and ignored him.’

I was told this was not true, and I had falsely accused them, but it was that they left him there in a closed room and they knew so. I am sorry to the nurses on duty for making this claim about the closing of that door.

I am sorry, and I have spoken my apology to you.

But I am horrified that it is NHS Trust Policy to leave a sick man lying naked on the kitchen floor with no strength in his arms and it is happening every night.

He then fell down near my room, in the corridor where I have asked for Madonna and the Lilies with Our Lord as an infant to be placed on the black wall outside room 3 and 4.

I was helped by my friend P004, we helped P001 rise from the floor.

I was told to ask the nurse N017 to place his foot before P001’s leg. The nurse placed his foot and helped P001 a little bit. Then the nurse moved the chair and carried it down the corridor. I asked several times and even demanded it back because I needed to put P001 down on the chair. This was unkind, it was vile. We are helping P001. I told the man P001 is heavy, he is a grown man and well built. P001 needed that chair. I needed to let go of P001. That nurse made three of us suffer, doing their job.

That nurse is vile.
That nurse is truly vile.
That nurse should be fired today for what he did in taking the chair quite gleefully away from P001 while we were helping him.

I told this nurse as he opened the door for a patient to have a shower, if P001 gets up again, please for your peace and everyone’s peace and yes for P001’s peace especially, open up the locked living room and let him sit down in front of a TV, let him rest. Serve him everything he is given want for. He said he wasn’t allowed to because it is not ward

policy to open the living room until 6am. That is disgusting. Moorside Unit, you need to be shut down.

This is negligence. If it is hospital policy as it seems to be, woe to you, you are going to be destroyed.

You are sinful.
You are criminal.
You are negligent.
You are bereft of any faith in Our Lord.
You have no values, no humanity and no love in your heart.
You are callous and uncaring.
You have nothing but death in your souls.
Give everything you have away to P001 and everyone else suffering on these wards.
Give everything you have to their families and their friends.
When you have nothing left, go to a silent place to be, and then do what you want to yourselves, there's nothing left for you.

If instead you want to change, change this: open those doors.
Give everything back you have taken, and destroy those criminal slanderous medical files of yours.

N005 was asked for milk for P001. There is one bottle left. He made the case that there was one bottle left and I asked Our Lord if this was true, He replied it was. I left it be.

P001 needs milk to drink, he does not accept water.

If P001 does not want water, he is not given want for water. If he wants milk, then he must have milk.

An invalid needs what they want. They are unable to shop for themselves. They must be given what they have want for.

Are you inside his body?
Are you inside his mind?
How dare you even slander him!
You are not knowing yourselves the demons inside your own mind.

Give to Our Lord all freedom!
Give to Our Lord His People!
Free these people from your tyranny!
Free them all today!

After lifting P001 from the floor with no help but a chair and an empty room from the nurse, I helped P001 to his room.

I gave him one of the 10 bottles of fruit juice I had been given, as he exclaimed wanting more fluid and the kitchen was now locked.

This man needs care in a hospital, not an asylum.

Woe to you destroyers, you will be destroyed!

Jesus, King of Our Desires, grant P001 rest tonight.

Jesus, it was the hour of Your Mercy You woke me.

Give us Your Mercy Lord.

Shelter us from this suffering.

You expired, Jesus, but the Fount of Life gushed forth for souls,
and the Ocean of Mercy opened up for the whole world.
Fountain of Life, Unfathomable Divine Mercy,
grant us Your Salvation forever more.

O Blood and Water which poured forth from the Heart of Jesus, I trust in You.
O Blood and Water which poured forth from the Heart of Our Lord, we seek Your Saving help.
O Blood and Water which poured forth from the Heart of Our Lord Jesus Christ, we ask You Dear Jesus to Save us.

Jesus, I trust in You.
Jesus, We trust in You.
Jesus, Our King, Our Redeemer, in You we trust.

Jesus, King of Mercy, we trust in You.

Jesus, King of Our Desires, we live our lives for You.
Jesus, King of Eternity, give us Your Life.
Give us our Love.
Give us everything.

I love You, Lord Jesus.
I adore You, Our King.
Give me one more gift from your beautiful Bounty.

I need You, Jesus, please ask those in power to free us from their tyranny,
give them all that they need.

Our Lord is with you.
Our Lord is calling you.
Answer His Call this day.

The dream I had this morning

Tue 26th March 2019 8:55:15 am GMT+00:00 Moorside Unit, Urmston, UK

Timothy

https://wisdom-and-love.org/diary/2019/03/26/the-dream-i-had-this-morning/

I was put to sleep about 5:30am and I was given a dream of something quite vile:

I saw my friend F001 who visited yesterday evening. The nurses might remember him he had a beard. In the dream F001 had no beard, he was made to look like a policeman.

I was told he was a policeman collecting evidence while on the ward.

Then I saw my good friend N004 and her face grew angry. I was hurt by the expression on her face. She questioned me with the following words: 'if you are truthful and God is talking to you, tell me who it is who is the keeper of my phone.' Then she grew hesitant and answered her own question. She had spite in her expression, I have never seen such an expression from N004, my mother and my friend. She told me in the dream 'F002 is the keeper of my phone' and I immediately had knowledge that this referred to her husband.

I had knowledge in the dream that N004 is going to treat what is written as harmful to her, and she might be protected by her husband in keeping her phone away from her.

I was told by D007 while on the ward that this dream was a prophetic vision.

I was told by a patient that many people will be questioning me.

I was told by another patient while getting a coffee that I was an important person. I replied to him that I am not, I am no one, just a little servant of Our God.

He replied words I did not hear as I left hurriedly from the room.

I was told by D007 while on the ward that helicopters would be circling the roofs of Moorside, that they would not be police helicopters but media helicopters wanting to witness something in Moorside Unit.

I went to see my friends N001, N012 and another nurse I do not remember who it was, and I told them of this dream and what I write. As I spoke about the dream and about N004, N012 moved into the nursing station seemingly afraid of what was spoken.

N012 then let me out into the courtyard, there was no anger in me.

I then went to fetch my phone which I've had to squirrel away in my room in case it is stolen by anyone of the nurses to prevent me writing.

I passed it to the nursing station to charge, and I suppose this is what is prophesied, isn't it? After all, F002's lies have delivered me and my phone into this ward, and it is the case N012 is also knowing what is written is about her, isn't it?

But it wasn't, as you see in a later post, D002 threatened to steal my phone and iPad.

And yes, let's just say, slander me at will.

Oh and I've had a new piece of knowledge while proof-reading this entry, in fact I am told N012 did slander me many times before in 2017. Go check it out, it's all in the evidence in:

This is the vision I received of Revelations 14:17

Tue 26th March 2019 9:45:35 am GMT+00:00 Moorside Unit, Urmston, UK

Timothy

https://wisdom-and-love.org/diary/2019/03/26/this-is-the-vision-i-received-of-revelations-1417/

I saw Our Lord's Crucifix with Our Saviour suffering on the cross.

I saw a dejected lion in front of the crucifix with a beautiful mane. He turned its head towards me, he had painted from his mane to his nostrils two thick white painted stripes. They were like lacquer, like a big pause button. It was thick like emulsion.

Then I saw a beautiful lioness with the same markings. She was also looking tired and dejected and was timid and low in stature, in suffering waiting for her lion to be healed and return.

I saw they were together, they were marked with the same stripes from birth. They were searching for shelter, for peace upon this earth.

I was told this was me and my wife, searching the wilderness for peace with Our Lord.

I then saw F003's tired face, suffering with anger and the stress her husband has borne on our family.

I saw destruction in F003's jaw. Her cruel words were killing her, and the destroyed earth was where we dwelt.

I saw the right side of her face dishevelled and decomposing and rotting into a skull.

She was in agony in her suffering in hell.

Please Lord, make her have suffering instead on earth. Their suffering has been enough. Please free them from their suffering. Take her and F002 one day to Heaven, please Lord forgive them for what they've

done.

F003, listen to this story.

Free yourself from the pain you have borne together in your marriage against me your son.

Teach F002 forgiveness and ask him for true words about how he feels.

He needs peace, it can only be found in confession to Our Lord. After he feels Our Lord in his heart he is forgiven.

F002 and F003, end your suffering today, find Him and ask Him to heal you.

F002 your face is telling a story of compassion but your lie is still not uncovered. It is for you to admit wrongdoing, to come clean and end this era of abuse. 10 years you've suffered at the hands of the Priory in Hale. They taught you false teachings and made you blame your son for everything wrong in your life. You hurt me. You destroyed me. You were told lies by the NHS.

You need to make peace with me. You need peace to retire. You need to find peace with Our Lord Jesus Christ.

Both your mother's are crying in your suffering.

Please Lord, heal my family, allow them to live another 10 years in happiness.

Please Lord, heal F003 and F002, allow them to be known as nice people to their grandchildren.

I love You, Lord, my prayer is with You.

Please forgive our sins.

Jesus, have mercy on them.
Jesus, have mercy on them.
Jesus, grant them everlasting peace in our day and the world to come.

Alleluia!

Amen.

D002 and the nurses in the ward round threatened me and broke the law

Tue 26th March 2019 2:25:35 pm GMT+00:00 Moorside Unit, Urmston, UK

Timothy

https://wisdom-and-love.org/diary/2019/03/26/d002-and-the-nurses-in-the-ward-round-threatened-me-and-broke-the-law/

Doctor present: D002
Unknown person present: D004, please come forward the gentleman who seemed to be listening but didn't speak to me. I haven't met you before, but I will find your name.
Nurses present: N014, N015

I showed them the evidence that I was calm when I arrived.
I told them I had taken photographic evidence of pulse readings before and after the meeting.
I asked for a show of hands, I left them around 7 seconds, and no one in the room claimed I was not calm.

D002 made the claim that because of the visions I receive from Our God, I was delusional and grandiose.

D002 has broken the law, I am entitled to my beliefs. She does not know my experiences.

I explained to D002 that in this dossier is a written statement by a Roman Catholic Priest, Fr Giles Pinnock, who is the Chaplain on St Charles after the vision was received.

She said in relation to the vision of incense filling the chamber of the Church of Our Lady of Victories in Kensington in 2017 that it was delusional.

I reported again that Saints of the Church, Apostles of the Church, all the Popes and everyone who is Catholic is aware of a feeling that they

have when they pray.

A feeling for example of a tingling spine, or a lilt in their heart, these are known to Roman Catholics, they are known to other Christians. I described the feeling she has with her husband, and others in the room may have with their wives, of love in their heart.

She ignored this and still described me as delusional and grandiose.

She has said she will force inject me.

I had to repeatedly say that she must give me Aripiprazole, it was my choice over the other medications such as Haliperidol which is an obscene choice for someone who is well.

No medication is needed.

She is breaking the law.

I am entitled to my own beliefs. I am entitled to my own religious experiences.

No harm has been committed against anyone.

I described there was money available for shelter, food and clothing whenever I needed it, and I described there were debts all over the country which I can reclaim at the time I need them.

She ignored every statement I made.

She made notes, trying to build a case for religious grandiosity which she claims is a mental illness needing treatment.

She has written up an enforced prescription of 5mg Aripiprazole. This is only the beginning.

She needed to listen to what I said last week and again this week:

Hold me for as long as you want, but don't medicate me and prove that I'm not who you say I am: your words are 'mentally impaired.'

How dare you Doctors, force me into this ward.

How could you do this to anyone!

Lord Jesus Christ, please protect me.
Lord God, please help me.
Please Lord, show these sinful people what they are doing.

Jesus Christ is with us.
Our Lord God is for us.
Jesus will save us, each and everyone of you.

Our Lord told me to take action when D002 threatened to destroy the evidence by filing a police injunction against my diary online. They would have had power to do whatever they want, really. Wrong!

I have been told to obfuscate every name in the hospital. I know who which number is. I will be reporting all of those crimes when I am released. None of your jobs who are reported are safe.

How dare you D002, N014 threaten me with your prosecution when you are committing these crimes against these poor men and women in this hospital!

And yes, N014 followed up on N007's slander by showing my diary entry to D002. But no action was taken to rectify the slanderous medical entry that N007 left. But instead I was threatened with needing to destroy every piece of evidence I'm collecting. And indeed, they even threaten to take away my phone and iPad. I denied their request to have them witness me using my devices everyone in the hospital is permitted to use.

I am going through one by one, if there are any omissions, please let me know.

To the kind nurses who have been so loving and warm, I am sorry that I am being denied the commendations I gave you by this cruel vindictive person D002.

If you know who you are, please give me written permission to publish your name in those commendations.

God bless the patients on this ward.

God bless the ones who need help.

I love you, Lord Jesus Christ.
Please save me from these criminals.

One nurse seems to have been subjected to questioning from D002. She witnessed me refusing an open box of 1-day old strawberries when F003 and F002 arrived unexpectedly yesterday evening. They left without talking because visiting times were over before I finished with my friend F001. Both F001 and F002,F003 arrived at the same time.

F002,F003 are those who have slandered me.

F001 is my good friend with a nice new beard I might add 😊

I was then accused by D002 of paranoia. She claimed I had told the nurse they were poison. She further questioned me and asked me many times if I felt people were poisoning me.

D002 then had the gall to question my harassers who have lied and slandered my medical files for years. How dare she not listen to her patient.

She is a criminal.

I want her removed from the hospital immediately.

Hospital Manager H001, please contact me to have these numbers deciphered.

This is my pulse before the meeting:

This is my pulse after the meeting:

My normal range is 90-120. I am proven to be calm even by the witnesses of my accusers. This is recorded as evidence.

Dear Julia, my dear friend in Christ

Tue 26th March 2019 3:00:03 pm GMT+00:00 Moorside Unit, Urmston, UK

Timothy

https://wisdom-and-love.org/diary/2019/03/26/dear-julia-my-dear-friend-in-christ/

My dearest friend Julia,

I am saddened to see you still held by the NHS.

You have suffered grievously in your life. You deserve rest and peace.

Please know I will meet you every day to pray for His Divine Mercy at 3pm while you are here in this place.

Thank you, my dearest friend Julia, for the generous gifts for my wife.

Your gifts Julia are given out of love. We learn to cherish every gift given in His Love. Your Love shines forth from the Heart of Jesus.

My wife will want to keep these safe while you pray for our ministry in America and for our children from Heaven where you will be happy and resting with Our Lord Jesus Christ, Our Mother Mary and the whole faithful departed. We will give these to no one but pass them to the daughter my wife wants to have them. She will keep these beautiful gifts of your love for my wife, this generous gift from you, a woman who has suffered grievously in this place, she will keep them safe in a locked drawer for one of the daughters of ours.

Julia, your generosity knows no bounds. God bless you.

One day my wife will take them, and she will cherish them, and they will be kept safe.

You are always in our hearts, Julia RC.

Thank you, Julia, for being my friend.
Thank you, Julia, for being with me in this time.
Thank you, Julia, for believing in His Message of Truth.

I love you, Julia, I adore Our Lord's Heart in you.

Dear Lord Jesus Christ, who suffers on Your Crucifix for all our sins.

Please take Julia to You.
Please take her to Your Great Light.
Please protect her in the suffering she is in.
Please take her to freedom very soon.

I love you, Julia, you are my mother in incarceration.

Please find this letter to you, one day.

Julia, Roman Catholic by birth, you are welcome anytime to see Our Lord's gifts for us.

I love you, Julia, peace be with you now and forever.

Alleluia! Alleluia! May the Risen Christ take you to Him! Alleluia! Amen.

Jesus loves you Julia.
Jesus is with you, Julia.
Jesus wants you Julia.

Be with Him soon in Heaven.

God bless you Julia, RC.

I had a meeting today with D007

Tue 26th March 2019 10:53:21 pm GMT+00:00 Moorside Unit, Urmston, UK

Timothy

https://wisdom-and-love.org/diary/2019/03/26/i-had-a-meeting-today-with-d007/

I was told to go into the meeting room at 14:00 this afternoon with D007 and ask for help from D092. H005 was said to join later in the conversation.

D092 joined and told me the hospital needs to investigate some truths in what I have written.

D007 informed me that I would need a witness in the Roman Catholic Church from the current year in addition to Father Giles Pinnock RC's witness statement as provided to D002 who they are arresting soon if she fails to listen to this statement from the Clergy of my Faith.

I asked D007 and D092 if there was anything else I could do to assist D002 from preventing to commit any further crimes. D092 told me there was not.

I asked D007 if Fr Michael RC of Cheetham Hill, Salford Diocese, would be able to provide this witness statement in writing to the hospital.

D092 said this will be enough for now.

Thank you, Doctors.

H005 from the Trust joined half way through the meeting, it lasted a few hours.

I was told by H005:

"Please keep everything you have safe.
We are helping you in this time."

Thank you Trust and the government, for doing what is needed to set these people free.

I had meetings today with D005, H002 and N002

Tue 26th March 2019 11:23:53 pm GMT+00:00 Moorside Unit, Urmston, UK

Timothy

https://wisdom-and-love.org/diary/2019/03/26/i-had-meetings-today-with-d005-h002-and-n002/

Following the ward round this morning with D002 and some nurses I asked for help to H002 and N002 to witness three facts from my dossier.

I told them of P001.

I told them of my calling from Our Lord Jesus Christ, I am an Apostle of Jesus Christ, I hear the Word of God and every word I say here is from Him.

I then told them of the crime D002 and the nurses present in the ward round have committed.

I warned H002 to tell all the nurses not to commit any crimes in my presence.

I warned H002 about N007 who needs to be moved urgently for her safety to another ward. She is young, and I do not want to prosecute her.

I later this evening found my prescription card, I tried to change the prescription to what is true from my doctors. They have prescribed me 20mg of Aripiprazole, the criminal doctor D002 prescribed me 5mg of Aripiprazole. Anyone who is in the mental health profession as a psychiatrist will understand the significance of dropping someones' prescription overnight by 15mg.

I want D002 to raise my prescription to 25mg, what I believe to be the maximum legal dose of this drug, so she can witness that any anti-psychotic drug will never remove my calling as an Apostle of Jesus

Christ.

What I say here is clearly true, you will not medicate against the Lord God.

You've tried it before, you've failed, you have not listened to a single word.

D002 you are a criminal and H005 in the Trust is currently investigating you for the crime you have committed in denying me my own beliefs and slandering me by saying my beliefs are not Roman Catholic but instead you called me grandiose and religiously deluded.

Scorn on you criminal, D002, for incarcerating a Roman Catholic simply for his belief in Our Lord God.

This is horrible, not a single nurse helped me when I was suffering

Wed 27th March 2019 4:41:23 pm GMT+00:00 Moorside Unit, Urmston, UK

Timothy

https://wisdom-and-love.org/diary/2019/03/27/this-is-horrible-not-a-single-nurse-helped-me-when-i-was-suffering/

After my F002 left, more on that later in this post, I asked first N013 to witness a statement to F002. He shut on the door on me, forcing it closed, and I did not use force in holding the door.

He shut the door in my face when I needed him to hear what I was about to say to F002.

Then I went back to the ward and tried to find anyone to help.

I needed to issue a complete ban of my parents ever entering the hospital again.

They have lied to my doctors, they have lied to the police, the have lied to me, and they don't even seem to realise it.

I asked for five of minutes of time with any NHS worker on the ward after they left.

It is clearly a private matter and needs to be in a meeting room.

Not a single member of staff helped me. Not N009 nor H002.

I told N007 and a nurse who was present not from the ward that I'll wait in my room for them to come when they want to help me.

I only asked for 5 minutes of their time. They still are not here while I write this 15 minutes later.

No one in my family, that is Behrsin, Pitt, Owen and Porter, none of their friends except those who know me are permitted without an express invitation to walk onto the ward. They are attending

uninvited. They have not been invited today, I did not invite them.

If someone without the name Behrsin, Owen and Pitt visit then I welcome them. Please even wake me up if I'm not already awake.

They did not even bring what I asked them to bring today, they said they couldn't be bothered. They have taken my possessions which were to go to friends of mine. They are holding precious items of mine, images which are special to me, prayer cards which are important to me and my mission. They are holding these in a lock-up in Dane Road, Sale.

They are doing this lying and slandering when they are discussing between themselves, even to themselves. And there's something F003 revealed on her own today, after F002 left to reception, which does not make any sense.

She told me that things happened before I left to Rome which actually happened after I was freed by the Polizia in Rome and given free passage in Italy. It even says it on page 481.

I have timestamps of these, they are events on Facebook she can confirm herself, she believed they happened before I left. I have evidence that she is confused, and no one was in the room to witness it.

I also heard from her one accusation against Our Church. My F002 said the Vatican had phoned the CMHT and told them I was mentally ill. That is the Vatican she said, not a priest, but it would be a Cardinal in the Vatican. It is not true, do not think to even say this is true mental health teams.

This is impossible. It is clearly not true. It is even farcical that she would believe it.

If anyone sees a single word on my medical files that says such a thing, my F002 implied it was a phone call on the 4th February 2019, then do know it isn't even possible that they would have done this.

I had not even contacted the Vatican during my stay in Italy, nor before.

It is impossible that they would find a diary online, which is The Word of God, which wasn't in print, and I hadn't sent to them ever, before I fled to Italy.

The Vatican, the Roman Catholic Church, did not do this.

Please doctors, tell me you're not acting on this lie? Where is this lie from? Please reveal who wrote that note in my files if it is there? Why is F003 believing this is true?

If you have more information, please let me know because this is quite hurtful that my F002 even believes it. She said F002 told her that my medical files have a note from the 4th February 2019, the day before I left.

Perhaps F002 phoned the lady Trisha in the GMP, giving quite awful false claims? He clearly did. And yes The Holy Spirit tells me so.

It is hurtful, because it is yet another piece of slander. An allegation of wrong doing. It seems the police were even tracking my calls, and yes even looking up my diary as well. All because F002 can't understand what was written. I have claimed God is with me. If the Vatican have said this, they would have said it to me. It's called excommunication, and they allowed me to roam free in Italy, a Roman Catholic country. And they have not excommunicated me, far from it, wait and see. I am in The Body of The Church, today.

If she is recalling this correctly, then it proves F002 is lying even to my F002. But there it is a trail of evidence showing F002 has actually instigated all of this.

If F003 is mistaken, then please just leave her alone. And please wipe this from my files if it is there. I am not their nearest relative by law, if both of them were found to be mentally ill by the NHS standards, then my sister would be their nearest relative. Porters, if this happens, make sure to veto any section. I do not want any of you to experience

what I've been through. Leave my family alone NHS.

That said, you need to understand, they are very confused. Question them once about this statement they've made to me, F003 knows she's made it, and then leave them alone to think in peace. Their parish priest needs to step up and action what I asked the Priest to do in April 2017, to help them find peace and confession.

I hereby ban anyone in my old family, not my new, to visit me, certainly not my family in Christ. With expressly those who I filed an injunction against: Behrsin's, Porters and yes now Pitts and Owens as well.

They are not safe to be around, they are slandering me right left and centre. Every visit causes me pain, every visit causes harm to me, every time they do this, they slander me to the nurses who let them out.

They're even sending out lies to the police, that's illegal, it's called false witness.

This has to stop.

N013, and any of the other nurses, please just record what you want to record. It is evidence for anyone who will one day see it is true what I have said.

17:00 an hour after I asked for help

Not one of the nurses even answered the door while I knocked very quietly with one knuckle until they answered even acknowledge by walking to the door, for about a minute they were even chatting to themselves. This is what they do to everyone. N007 and N013 has complete lack of care for me. Nurses please know the words I said to you:

'I am bleeding with pain in my heart. I am hurt. I am crying inside from what has happened to me this afternoon.'

N013 you just said 'ok, please close the door.' You even told me first that you weren't letting me out to the courtyard for 5 minutes and then you changed your response. Why are you doing this N013, why have you suddenly become nasty to me today? I even asked to smile every day and you did. I've been polite to you, and it seems as soon as you medicate me you just become nasty to me. I don't understand why you've done this.

Even N007 was polite to me today, she's had some rest and she's nice to me again.

I am so hurt by your lack of humanity. All of you.

You are knowing the way you anger people you trap inside your hospital.

I need to scream but I can't even raise my voice because you'll just medicate me. And you'll do it again and again until you destroy me.

I have shown nothing but my empty dejected body.

You have no love any of you in your hearts for anyone.

Why did you do this to me?

Why did you do this to me when I am hurting so much from not even having a mother?

I need a woman to console me.

I need a mother to take care of me.

I have not had a mother since I was a little boy.

But there's one thing you'll see when I'm back on the ward. I'm new again.

Our Lord, please help me. Please give me strength. Please Lord, I can't go through another year of this. Please Lord make this the last, take everything I need to take. To end this mission, I do not want to stay

here ever again.

Please Lord ask the Church to help these men instead of me. I can't do it anymore. I can't even be here ever again.

Please Lord just do what I need in me today.

If I need my family to desert me, please let them.

If I need to suffer more, please give me what I need here in this jail.

I need help Lord, I just need one word from one woman.

This is the nurse's confession when trying to torment me more after she tortured me

Sat 30th March 2019 7:00:46 pm GMT+00:00 Moorside Unit, Urmston, UK

https://wisdom-and-love.org/diary/2019/03/30/this-is-the-nurses-confession-when-trying-to-torment-me-more-after-she-tortured-me/

N009 asked me if I'd ordered food for everyone today. She revealed a lie in my medical notes. Apparently a nursing assistant on Friday wrote in my medical notes I had ordered food for everyone. This is not true. I had no phone and could not have ordered it on Friday. Yesterday, Saturday, I attempted to buy a charger for one of my phones, so I could phone anyone at all, even my solicitor or my F002 for Mother's Day. But I had to hide it in a series of deliveries from Amazon Prime Now. Clearly something got through, as I'm finally writing this, but I spent only £20 on food which was crisps and cake.

I even cleaned up the mess of the chocolate cake on the floor and on the units after the patients were finished with it. There was only a couple of packets left, one of which went into the Nurses Station. N009 is wrong and she slandered me again yesterday in my medical notes which I have not seen. She seems to have a vendetta against me. This will be reported to the doctor as a statement of fact, when it is lies upon lies from a nurse who holds a grudge for me highlighting criminal acts on her watch.

Then I find some of the crisps locked in the Nurses office with them eating them. I did not see them eating them, but I can only surmise they have done as they have not given them to the patients this evening or back to me.

I also had a witness statement from N009 herself that she had a copy of my diary which I bought for some people to read nice messages.
But it seems she stole it from the Ward and has given it to a

psychiatrist. This is the edition which is selling on Amazon.com. I was told by God this is elsewhere in the hospital, the copy she brought from Irwell Ward was taken by one of the nurses through the corridor to Brook Ward. These same nurses are serving those people too, I hope humanely although I have significant doubts anyone there is being treated humanely either.

N009 also seems to be wanting to limit my freedoms without any medical grounds. She said that she wanted to reinstate the escort which N001 asked H002 with N004 to free me of. She even decided herself to ask D024, a registrar psychiatrist to impose this escort on me. Which was further abused by the NHS that day. While N009 watched on gleefully as I suffered under her ward that 43 hours.

From 6pm after I calmly returned from dinner off escort and I had been calm since I arrived N009 and N013 accused me of still having photos of staff and patients on my diary and violating hospital policies. I had taken the single photo of N007 down the day before and they said they still saw it on their computers. If this is true they should learn how to use the refresh button. They confiscated my iPad and then wanted to confiscate my iPhone. I immediately hid my iPhone in another patient's drawer with their permission. It is still around the ward, but I will not reveal for my safety where it is.

I had limited battery and had to follow the Lord God's instructions to acquire many more phones dotted around the ward and the hospital to ensure the last 5 days don't happen again.

This operation took 5 days to complete before I was safe to write again, I've even had to change the diary over to here and remove my name from it's authorship.

It is in fact now I am known as David Parish to this diary, for now. But this is of course on multiple servers around the world anyway as I am making sure this doesn't get taken down, and only a few people will see it initially before my lawyer finds out that the truly criminal act of torture that N009 made happen against me this week since Wednesday evening.

What I'm reporting is not my crime, it is crimes, many of them against patients who are vulnerable because the NHS is treating them in this way.

There are some Nurses who I have seen good work from, they do not slander people. But I have not witnessed myself their medical notes they leave for patients I only see the love of God in their hearts.

On 27th March 2019 around 6pm N013 and N009 informed me the information commissioner of the hospital had decided to issue an escort notice on my medical file. This meant not being allowed into the courtyard. They also decided that I must have my phone and tablet confiscated and only to be allowed access to it under supervision.

I immediately rushed to type an email to my solicitor demanding her presence the following day and hid my phone and handed in my tablet.

They placed it in a brown paper envelope with large scrawl saying that it was to be used under supervision, that I had been taking pictures of staff with my ipad. This was not true, I have not taken any photos of staff or any patient whatsoever with my iPad. I have not taken any pictures of patients whatsoever. Ever.

I have taken one photo of the closed door of the nursing station with N007 sat behind it slandering me about a cigarette she believed I smoked minutes before. It was time stamped and the photo's EXIF information stored on iCloud proves the time stamp of the image also there of an electronic cigarette I had been using.

This photo has been deleted from WordPress a day after it was taken.

I have more deliveries scheduled, they cannot stop me writing now. But they may limit my freedoms and I may need to go offline for a few more days while in captivity here as a Roman Catholic for hearing the Word of God and carrying out this holy Mission from Him in freeing these people from this criminal regime. They cannot stop it. Our God knows the whereabouts of every person in the hospital and the entire

world. He can tell me what to do and when to do it. He can even cause people to be confused and not know what to do. He has done this already even when they have free will. The hospital needs to recognise this will be so.

The trust needs to recognise this will be so.

The government needs to recognise they need to act to prevent even more money needing to be paid in compensation. 30 years of compensation is due to these patients. That is trillions they must set aside for this criminal regime they have imposed on the British People.

Theresa May needs to answer one thing: why has Home Secretary did she sanction these abuses?

Our country needs Our Lord's Servants to take action from Him today.

I was held against my will in a hot ward for 43 hours without being allowed so much as 40 minutes in the back garden in no more than 15 minute stints. It was swelteringly hot, all the radiators on the warm day of 28th March 2019 where on the maximum setting, they have no thermostats, people were sweating on the ward. No one was comfortable, they wouldn't allow me even into the secure back garden for long enough to cool down and be healthy.

They claimed the heating was controlled from Prestwich, from the trust. It was not, by 6pm I found the radiator dials all on 5 and turned them all off in the corridors myself after complaining of heat for several hours. N009 was foolish and criminal for detaining me in her torture. She imposed torture on an incarcerated patient in her care.

Why was it torture? Because she wanted to extract an item of property I was unable to give her. There were no medical grounds for this in anyway. She has tried to substantiate a medical case herself, she will fail but the doctors are listening to her. They have not listened to me, they have failed to discharge a duty of care.

N009 and all nurses on those shifts were torturing a patient in their care.

It is torture. It was brutal. I even fainted 7 times and banged my head 4 times on the floor while fainting.

N025 accused me of barging past the cleaner through the open door into the courtyard walking peacefully with two hands behind my back and two patients walking in front of me. I did not rush. I did not even walk quickly. I was calm.

The cleaner correctly thought I was well and should be allowed out. When N025 interrogated her the cleaner knew to pass responsibility to me. Which was correct. The word she first used was 'barge'. There was no physical contact of any kind. N025 harassed me for the rest of the day claiming I had moved my right elbow out to push the cleaner out of the way. This was not true. The cleaner told her this was not true. N025 continued to slander me and torture me by not letting me out. She even claimed I stayed longer in the back garden than the 15 minutes she gave me. This was not true, I even looked at the clock on the wall when I came in and it was 15 minutes to the hour when I was let out at half past the hour.

I walked out of the ward because I needed peace. I walked out just for lunch. I was even served lunch when N025 let me stay there, after she nodded to the dinner lady to give me food. I had not eaten a proper meal from the hospital in 36 hours. They had not provided me with a proper meal.

She was lying. She was cruel and vindictive. I have seen her do this to other patients too. She makes claims of mental illness, and then when a patient tells her she is not correct she slanders them and accuses them of harassing her. This is wrong. That nurse is not caring for patients, she speaks lies about people. She is obligated to provide her duty of care no matter how difficult her managers requests are to her. She was supported in this shift by N009.

This was criminal act by the hospital. Even doctors were told that day what was happening, and they just let it happen.

They didn't even help me up when I fainted later in the day. They

didn't respond to what I told them, that I needed treatment and an X-Ray on my skull. I reported that I felt like a large heavy metal chain was grinding through the rear of my skull where I hit my head, they didn't even recognise that I shouted at them for less than 10 seconds in exasperation for not even helping me up from the floor. My arms were weak after I fainted, they didn't even give me their hand.

Then I went to sleep and I woke to a bright room with N024 above me. She did not introduce herself and I had to turn her name card around to see who she was.

She had taken 2mg Lorazepam and Aripiprazole and 1000mg of paracetamol into a medication cup. She then proceeded to pour it into my mouth by force. I had just woken up. I knew not to take it. I clenched my teeth and she was unable to force me with it. I took the Aripiprazole and placed it on my tongue. I then took the rest and hid it in my trousers.

I told her I had taken it, indeed I did, but I have ingested any medication while I have been here.

I then went to sleep after a pulse reading. There were no grounds to give me Lorazepam when I was peacefully asleep.

This is criminal.

It is negligence.

It is malpractice.

It is torture that they imposed on British soil by government workers of someone who has committed no crime.

They have abused me, they tortured me.

I am being detained because they don't believe what I believe.

That detainment itself and any further treatment, any further detainment, any further torture, any further detainment of my possessions, any further slander, is illegal.

These are government workers, the government is responsible.

They won't even let me phone my solicitor.

They won't even let me phone my friends and family.

God help me.

I still do not have my iPad. I need to write not just this evidence, but use my iPad. It is mine. And I want it back. I am called by God to write. When I can't, it is not good for me. My wants are given by God. They are limiting me in what I want to do.

That is their will imposing on my life.

They do not recognise what it is like to have this done to them.

Imprison these people, as they should be, and you will see they don't like it either.

N009 needs to be in prison.

N001 took a witness statement at 11:30am on the 29th March. They then went with N004 to H002 and released me from escort. But I still am on escort, but they're allowing me out into the courtyard, for no other reason than they see it is torture and they can't do it.

N001 recorded fact into my medical file. Please find that note.

I reported a crime to PC Wood who attended the ward with PC Ian on the 29th March 2019 at 18:14. His number is 16686. PC Ian is 16664.

PC Wood was asked by me to turn on his body camera. I spoke into the body camera and reported this crime to them. I told them the doctor had broken the Human Rights Act and the European Convention on Human Rights. I told and he knew it was a crime and then he said it it was not a crime if the doctor decided it was true. I told him that my beliefs were mine to have even if a doctor thinks they're delusional.

My beliefs are indeed protected in law. They need to be. Otherwise

everyone is in trouble, which indeed they are, these doctors can take you in and do anything to you they want to do.

7 years I have suffered because these doctors are given any power at all.

The human rights act supersedes any mental health act, and it needs to be this way.

The European Convention on Human Rights certainly supersedes British Law.

It is a crime that has been committed on British soil by government workers. The government must answer this call and ensure it doesn't happen again.

The NHS need to release me today, and execute my GDPR request to correct my files forever.

I again, never want to be treated by any medical practitioner in any way except with my express signed written permission.

This is what I was told to write this evening

Tue 2nd April 2019 10:36:07 pm GMT+01:00  Timothy

https://wisdom-and-love.org/diary/2019/04/02/this-is-what-i-was-told-to-write-this-night/

Our Lord is with me.

I have the gifts of His Spirit.

He has told me to write what He has asked me to write.

This is His Word.

I am an Apostle of Jesus Christ. My name is Timothy.

I have been happy when I write, I have been given a want to write.

Wants for me, come from God.

I am given desire to write. Stopping me writing makes me unhappy.

If I am not able to write, I am not being given what I want.

Restricting my ability to write His Word, makes me deeply unhappy.

Please give me my iPad back. I need to write.

There is more.

I have music on my Apple account I cannot access with my new phone in the Nursing Station. I even pay a subscription for it, just like my iPad.

But here it is, I'm not even allowed to listen to it.

Please let me use my iPad.

I've never taken any photos of anyone with my iPad. I don't think I've taken photos of my cats with my iPad.

iPad's are very big.

If it was seen that I was taking photos with it, it would be clearly visible to everyone in the ward.

There's a little problem here, I need my iPad. I need a keyboard, even the nurse here knows I am writing faster than I can write with my pen.

I need my iPad.

My iPad is mine.

Please give it back to me.

Please hospital, please hospital, please hospital, give me an iPad again.

This is my iPad.

This is my tablet.

This is my life.

I don't want it taken away from me again.

Please give me my iPad.

I need to finish a book, to sell on Amazon.co.uk.

It even has a title, I cannot write when supervised.

It's about God.

You treat it as a mental illness, but it's my beliefs.

You see this is how I write, nurse sat beside me, I just write and write and write.

I rarely need to proof-read, everything I write makes sense.

It's given by God.

Even I say the words as I'm writing them.

There's a little melody, I cannot sing it, I don't think it's even possible to write it in score.

It just doesn't repeat, but it keeps going with a little rhyme when I write in this way.

And this iPad is currently wiped, it doesn't contain, anything I can use.

I need my iPad back.

I need it not taken away again.

I even phoned the police from someone else's phone.

I have so many friends here in the ward and in the hospital.

Even the nursing staff listen to some things I say.

And that's why, if you don't give me my iPad back, there's more for you to yes report to the police.

And do know, everything you did last week, is with my solicitor, with the Church, and yes, with the next Prime Minister too.

Thank you, NHS, I don't think I've said a single word about Moorside yet. But there it is. Let's just call it NHS Prestwich why don't we.

Because it's pretty much the NHS. The Mental Health Act and of course other crimes too.

But will I send this out to my diary, of course not, it's none of your business what you atheists want to say about God's Word, that's what goes into print. None of your names are even going to make to print with Our Lord and Our Mother Mary on the front cover. In fact, I'll just let your names out to the tabloids instead.

Off they go, in fact, they're already there waiting for someone to pick up the story.

Time to give me my iPad back and stop committing crimes against me.

Thank you.

This is His Word

Wed 3rd April 2019 10:43:28 am GMT+01:00 Timothy

https://wisdom-and-love.org/diary/2019/04/03/this-is-his-word/

This is the Word of God.

I have been given it to write by Our Lord Jesus Christ.

Every word I am writing is from God. Not any word am I writing does not come from Him.

This is His Truth.

There is more to write than these words. I cannot write all of them, I am being supervised.

Only what I write, can I write. I am being watched.

I am ill, I have some kind of flu.

I need peace, I need music, I need Our Lord.

This is His Word:

“Timothy, my dear beloved son.
These are the things I need to let you know,
you are suffering in persecution of My Name.
You need to find peace, My Peace,
when everyone around you is tormenting you,
when everyone in this place is destroying you.”

Jesus, I need You.
Jesus, please help me.
Jesus, I adore You.
Jesus, please send me one more gift from Your Bounty.

“These are the days of My Suffering.
They are piercing My Heart.
They are driving nails into My Wounds.

I am the Lord God of Israel."

Jesus, I am sorry for everything I have done to You, My Lord.
Please save me Lord Jesus.

"My Sweet Heart is for you, dear son of Mine."

Jesus, I adore You.
Jesus, please take me to You.
I love You, Lord Jesus.

My life is for You.

Take me to You, Lord.
Take me to You, my God.

Take me, Lord Jesus, and free me from this prison.

Our Lady Queen of Heaven, please pray for me to Our Lord Jesus Christ, Your Son, whom You bore to save the world from their sin.

I love You, Our Mother.
I need You, Our Holy Family.
Please give me everything I need today.

This is a letter to Rev. Barrie

Wed 3rd April 2019 12:48:16 pm GMT+01:00 Timothy

https://wisdom-and-love.org/diary/2019/04/03/this-is-a-letter-to-rev-barrie/

My dear brother in Jesus Christ, Rev. Barrie,

I am asked to write in His Spirit a letter for you to read one day.

Thank you for your time today.

Thank you for serving these Christian people in need of Our Lord.

Your brother in faith, Timothy, prayed before you.

He prayed for you to say one thing, the Truth from Our Lord Jesus Christ.

You said words from Him.
You will find them already printed in my diary that I gave you today.

You prayed for me to be a witness to the Love of Jesus Christ.

I was asked to pray for you and your ministry.

I was told by Our Lord to pray this prayer for the Anglican communion:

Please give this man of Yours, Your Truth.
Please give this servant of Yours, everything he needs.
Please ask him to teach his brethren.
Please ask him to teach his clergy.
Please ask him to take the synod to Rome.

Then I was asked to bow down and kiss your left foot and made the Sign of the Cross.

I am lower than anyone. Give Our Lord His Church today.

I will pray for you as you help others on this ward and in this hospital with His Truth.

Pray the prayer on the back of that book. It is from Our Lord for all people, all creeds, and everyone will find Him one day.

Read about my wife on page 144.
Read about the Congregation of Saints, in the Revelation of St. John.

His Word is true.
His Word is with me.
The Revelation to St. John is true too.

Find His Truth and pray with your clergy.

God be with you, Rev. Barrie.

Yours in Christ,

Timothy

This is a prayer while supervised listening to music from Our Lord

Thu 4th April 2019 1:48:25 pm GMT+01:00 Timothy

https://wisdom-and-love.org/diary/2019/04/04/this-is-a-prayer-while-supervised-listening-to-music-from-our-lord/

These are the words I was told to speak to Our Lord today in prayer:

Your Sweet Heart, our Light and our Life.
Be near us right now, for the rest of our lives.
Your Sweet Heart is beautiful Lord, never show us another Way of Life.

Your Sweet Heart, Lord, is for me and my wife.
Your Sweet Heart, Jesus Christ, is for mine and my children's lives.

Give to us Lord, Your Love and care.
Give to us Lord, Your Sweet Heart.

Take care of my family Lord,
let them know it's for this Way.

Thank You, Lord, I love You.
Please share this prayer with my wife as well.

Jesus then spoke to me these words:

"My Life and Light is with you, my dear suffering child Timothy.
Take heart in My Message of Truth,
Life awaits you soon with My daughter, your wife."

Jesus, I need You.
Jesus, please bring me to You.
Jesus, please free me from this prison.

Then I turned to the nurse sat with me monitoring everything I do.

I saw Our Lord stood behind him and saw Our Lord's left hand touch

his heart.
I saw Him place His right hand on this nurse's head and He asked me to say to the man that the Lord God Blesses him.

Thank You, Lord, for giving me this time of peace.
Please help these people give me what I need to heal from last week.

Then I began to pray. Our Lord told me there were no words for this prayer.

He showed me a cavern filled with magma, so hot is was white. Then I saw mountains form with lava running down. Then I began to see water fill the Earth. Our Lord was showing me the creation of the Earth.

And then the nurse told me time was up. He couldn't even find a pen to let me write what I saw. Then the lights came on, and I was told to leave my prayer behind me.

Two hours later I was allowed to use my iPad again, and I continued listening to the music Our Lord gave me. I rested lying down and was peaceful in my heart once more.

I was shown sand on the beach. Out of which sprung up pineapple trees and vegetation of every kind.

I then saw small fish jumping out of the water.

I then saw birds flying, resting on the water to eat the fish.

And then Adam came out of the jungle and he wore a garment of clothing and a spear. He caught a fish with the spear and God helped him prepare it.

He was alone in this Garden, and Our Lord laid him to rest on the beach.

I turned and prayed to Our Lord.

I asked Him why He made Eve from Adam's rib and not of the dust.

He asked me to ask Him this.

He told me man and woman are equal. They are one. Man and woman we were created, man and woman we are to be.

Then I asked Him to free me from this, to never let me go here again.

He told me this is what they do to people He talks to. It is them doing it, the only way to stop this is for them to rewrite their textbooks.

I broke down in tears with the Truth He gave me. If they don't change I will suffer this for the rest of my life, and everyone else in the Roman Catholic Church too.

I just pray they will give me time to find my wife, so I know there's a family waiting for me when I'm out for those short periods of time.

Please help me, Lord.

But then the time was 10 minutes early, the supervising nurse was called away and then I was left there in agony.

N030 shuts the door in my face because they're handing over and won't let me use my iPad for music

https://wisdom-and-love.org/diary/2019/04/06/n030-shuts-the-door-in-my-face-because-theyre-handing-over-and-wont-let-me-use-my-ipad-for-music/

I've been requesting my iPad since 4pm yesterday. I only had it for 40 mins yesterday to help them understand I need to write letters and diary entries for Our Church. Diary entries as an Apostle, diary entries containing the Word of God.

They refuse to let me use it. D002 knee when she promised me 90 mins a day in 30 minute segments it was not possible because she didn't even request the staff to do so.

Then N028 was asked to handover to every nurse and doctor that there are no medical grounds for removing this iPad from me. In fact it is a punishment.

Why is the NHS punishing its patients? Why are they implementing methods of torture?

Is this a care organisation or a detention centre?

Know it's the latter.

I even went to H002 and asked her what I could do anymore to live my life as I want to.

She replied that I needed to be much less devout in my faith.

No more than know this: you have already made me a Saint.

Then I received Holy Communion in a vision from Our Lord

I prayed to Our Lord and asked Him what to do next.

He told me these words when I prayed for help:

“This is for you to know, Timothy.
Everything is done.
Wait and listen and pray for My Truth.
Help is near, the Church is coming for you.”

Then I saw a vision as I asked Our Lord for Holy Communion.

He showed me His Most Holy Sacrament of the Altar and then placed it in my mouth as I said ‘Amen.’

He then showed me a Paschal Candle burning brightly.

“This fire of Mine will never go out.”

Thanks be to God.

The truth about mental health

Sat 6th April 2019 4:27:33 pm GMT+01:00 Timothy

https://wisdom-and-love.org/diary/2019/04/06/the-truth-about-mental-health/

These are the words I am asked to write by Our Lord Jesus Christ.

Every word I am writing is given to me by Our God.

Listen all who have ears. See all who are not blind to His Truth.

This is the Truth about incarceration in mental health detention centres.

They are not hospitals.

No one is treated in any other way than as a detainee. Sheep herded into different areas of the ward.

They are treated with contempt, children fawned in their game of chess.

There is no outcome for any patient other than incarceration and enforced treatment for life.

Every patient knows this, they are told to obey the doctors and listen to what they need to do to get released.

No release is given, they end up back in the detention centre within months or years, if not days and weeks.

Nothing can be done to stop them. The law is wrong.

Change the law and treat criminals as criminals.

Criminals have a legal justice system which is working for them, this justice is not available to anyone trapped within the mental health system.

These are the words of The Lord God Yahweh:

“Empty your prisons today.
Free My People from the slavery you have given to them.
This is now you must do this.
Death becomes all conquests.”

Listen to His Message of Truth for our day.
Listen all you who have ears.
See the Truth given to you this day.

This is the Word of God.

This is detainment of someone else's property, the hospital do not own my possessions, they do not own my signature on a contract

Sat 6th April 2019 6:00:42 pm GMT+01:00 Salford, UK  Timothy

https://wisdom-and-love.org/diary/2019/04/06/this-is-detainment-of-someone-elses-property-the-hospital-do-not-own-my-possessions-they-do-not-own-my-signature-on-a-contract/

I have been prevented from phoning anyone for 3 weeks on a cheap phone held by the nurses in the nursing station.

I have written a contract to one of the patients who doesn't own a phone and has been denied access to the hospital phone to phone his mother today. I signed the phone and SIM card over to this patient much in need of His help.

The phone and SIM card is valued no more than £20.

I am allowed with my income and expenditure to donate £20 a week to charity.

How dare they detain this man's new phone.

It is criminal.

They are not honouring even my ability to donate to charity small sums from vast amounts incoming from the British Government.

I even said to them they are in receipt of a crime report, and they told me they have to listen only to the psychiatrist. I told them the law supersedes anything their paymaster says. They are committing this crime themselves, it is not even written by the doctor to detain my phone, only my iPhone and iPad.

And then N000 decided to order N030 to perform a risk assessment.

I told him I was calm and the order was retaliatory. I then went to the good lady N004 and told her she ordered it, she confirmed in the expression on her face it was N000 who had been spiteful and tried to dose me with Lorazepam just because she refused to obey an action I had written in contract. She denied me my rights to my property, she has not acted in my interests.

Then I asked D927 for a simple pulse reading. He said it was around 96 to 98. This is on the lower end of my standing heart rate of 90-120bpm. It is high, because I am overweight due to the NHS forced treatments over 7 years.

Proof for N000 that I was calm when I spoke to her, she was not she was agitated and forceful in what she wanted against my will.

But then I learn N030 in front of all the nursing staff decided to perform a risk assessment himself, without any input from any of the nursing staff. Someone is lying here… it will be in the medical notes and will be revealed to me then.

I asked N028 to file a request to put me on 24 hour surveillance so I could use my iPad to write whenever I wanted. If they don't please do it so at least I can do what I want and don't have to deal with the slanderous allegations the psychiatrists have written down about me.

They wouldn't even allow me to phone my bank this evening to defer payment on a loan until I get out and get some money from the NHS. I did warn them when aid arrived that I was here to receive compensation for their crimes over 7 years. But they're still not understanding this basic thing, I have phones everywhere in the hospital, everywhere in the ward. Everywhere. Smart phones deployed with WordPress, and at the touch of a button I can reset any single one of them.

They don't understand who I am with. God is with me.

I am also a computer scientist, and they really don't understand I was taught by God to be a computer scientist.

Funny that, they even thought, my family that is, slandered me and told them, that I might hack into the NHS in 2017. They even took away my laptop at the time. Something they missed there: I'm a good person too and stand up for what is right and true.

My diary proves this.

D024 stands in for D002 during my ward round

Tue 9th April 2019 12:00:42 pm GMT+01:00  Timothy

https://wisdom-and-love.org/diary/2019/04/09/d024-stands-in-for-d002-during-my-ward-round/

D002 was on holiday today and so D024, the man who signed the torture order, stood in for her in my ward round today. He said I was allowed freedom of expression, he didn't say freedom of religion. I highlighted this was not true and he kept on interrupting me. I said my rights were protected under the Human Rights Act and the European Convention on Human Rights. He ignored it and said it was valid, but ignored that they are making a claim about my beliefs. I told them if they want to think that they can, but they can't infringe on my liberty, a Human Right.

N013 was brought up, his name was obfuscated within 24 hours of the ward round preceding the torture order from D024. I told him I would happily take it down if they tell me where it is, but then I find with a simple check that his name has already been completely obfuscated. He said he was concerned that N013's real name was still in my diary. I don't think he understands how common that name is.

I obviously can't tell you his name right now, but it's easy to infer just by reading about N013 in my diary and some other diary entries not related to the NHS.

He offered me 30 mins escorted leave which is ridiculous. I asked for one of two nurses to be present today in the ward round and every round following, they have ignored it and will not facilitate this in any way.

I have asked for the good nurses N002 and N028 to be given 30 minutes with me as often as possible, preferably once a day but at least a few times a week. I would like them to explore my faith. I told D024 to do this with a psychologist and he refused.

The psychiatrists are earning so much money that they can't even provide adequate talking therapy to their patients. Think 6 figures and more for each of the psychiatrists treating as responsible clinicians. They don't even acknowledge the need to listen to their patients.

I reported this lie of D024 to N014 and the man himself N013. I told them I wanted it investigated and the lie in my medical file corrected. I told them also to follow up on the abuses P001 and others who have been reported to be followed up too. N014 said she has listened to what I said. She will not act in any way to follow up on what is said. That is called deception to say one is listened to but not acknowledged. That is what N014 does. She is not a qualified nurse, except on paper.

Where is it known by people that female nurses are mothers, sisters and daughters to their patients. Television, yes the BBC's Casualty is a work of fiction. Modern day nursing is caring for people from hospital policies and a textbook, not caring for individuals or their individual needs whatsoever.

Those nurses that do should run these hospitals.

The night-shift workers placed me on escort

I was not allowed out into even the fresh air of the courtyard as the night shift workers made a clerical error and placed me on escort again.

When I spoke to the day staff this morning they said it was an error and that because there were a large number of agency workers last night they must have made a mistake and taken the wrong file from their shared drive.

How is it possible to place someone under even more duress just because of a clerical error?

Today it is now 3 days since I handed in all communication devices to the hospital and they still have not lived up to their promise and revoked the leave embargo. I am still not entitled to leave because D002 is on her bank holiday today and is unable to release me from the hospital even for escorted leave.

I have to wait until Monday now until anything is done by the hospital.

This is what I was told to do today

https://wisdom-and-love.org/diary/2019/04/20/this-is-what-i-was-told-to-do-today/

After a patient accused me of smoking in my bathroom while I was using it for other purposes, I was told by the nurses they would inspect my room. They subsequently entered my private room and took cigarettes and charger cables I was peacefully keeping.

I was told by Our Lord to hand over everything I had. To tell them where everything was. They even took my razor.

I was told afterwards to tell them I was traumatised by seven years of abuse by the NHS and I needed to talk and express myself and needed to move immediately to a hospital that provided talking therapies.

They refused again to help me. N002 was kind to me and placed his hand on my shoulder when I broke down in tears. He offered me love I so desperately need and seemed to console me and provide me with hope that this isn't the end of my life.

I then slept until this evening where I was told to draw a calendar, making out the dates I left for Italy, the date I returned, and the dates hopefully I won't be here into mid-June. I need to keep track of what day it is, I have not even a watch they allow me to use as it connects to the internet.

I am forced to write in pen and ask my F001 to type up every word so I do not have weeks of work when I leave in typing up letters to the Church.

It is not over.
Our Lord tells me so.
I know it is so from Him.
It is clearly so.
These people will pay for what they've done to me, my F001 included.

Tonight I am asked to write about Salvation for Easter Sunday. How much it pains me to know I have to write in pen and only hope one day it will be online and published in the second volume of my diary.
